Course Objectives: This course gets students engaged in a critical understanding of why crimes occur in society and the underlying theoretical and extra-theoretical factors in the production of criminals and criminality. It is intended to re/de/construct conventional notions of crime and problematize/challenge taken-for-granted assumptions, perceptions and popular images of crime. It is expected that at the end of the course students would be equipped with the requisite tools to understand and analyze crime through sophisticated theoretical engagement. Additional topics on the response of liberal democratic states to the threat of terrorism aim to introduce students to transnational crimes and provide a sound international perspective.

Professors are unable to defer final exams for any student. ‘A student who has missed a final exam because of incapacitating mental and/or physical illness, severe domestic affliction or for circumstances as described in the University's Discrimination, Harassment and Duty to Accommodate Policy (including religious belief) may apply for a deferred exam. To apply for a deferred exam where the cause is incapacitating mental and/or physical illness and most other cases including severe domestic affliction, a student must present supporting documentation pertaining to the absence to their Faculty office within two working days following the scheduled date of the exam missed, or as soon as the student is able, having regard to the circumstances underlying the absence.’
