However, you do not need to memorize statistics. It is important to understand the context, trends and patterns of the statistics. In other words, what do the statistics speak to? You should learn salient information from the statistics that you can apply when and if required. Preparation for each exam must include your notes from lectures you attended, PowerPoint notes on eClass and assigned chapters of the required text.
 7. **EXTRA CREDITS:** There is **no** provision for extra credits in this course. Requests for extra credits will not be entertained.
