The following are the minimum hardware requirements for students beginning their studies at the University of Alberta Augustana Campus for the 2020-2021 academic year.

**Windows 10 OS**
- **CPU:** 6th-generation Intel Core or 2nd-generation AMD Ryzen or newer
- **RAM:** 8GB or higher
- **HDD:** 256GB Solid-state hard drive (SSD) or higher
- **Approximate Cost:** $750 CAD before taxes and additional warranty

**Mac OS (Apple)**
- MacBook Air with the upgraded SSD option is the lowest option to meet the minimum specs.
- Select courses currently offered at Augustana require software that is Windows-only. Students would be responsible for acquiring a Windows 10 license and installing the software on their Apple computer if the operation of specific software was required.
- **Approximate Cost:** $1170 CAD after education discounts and before taxes and extended AppleCare warranty.

**Alternate Devices**
- iPads and ChromeOS-based devices may be acquired and used by students, but they may encounter reduced functionality with certain software options (e.g. Microsoft Office).
