**WHAT KEYBOARD SHOULD I PURCHASE?**
While electronic keyboards have their advantages (portability, price, differing sounds, etc.), it is important to keep in mind that within two years your child will require a regular acoustic piano to continue studies in piano (i.e. Royal Conservatory or Conservatory Canada). Old upright acoustic pianos may be purchased relatively cheaply. However, if you do buy an electronic piano, please ensure that:

a) the keyboard least 66 keys (a full-sized keyboard has 88),
b) the individual keys are full-size (sometimes they make the keys smaller),
c) the possibility of adding a sustain pedal exists.
d) keys are weighted and touch-sensitive (to make them as similar to an acoustic piano's touch as possible)

If you have any questions about Keyboard Explorers, please call the Conservatory office at 679-1673. If there is no one in the office when you call, please leave your name and phone number and your call will be returned as soon as possible.
