- 3 cr Environmental Studies: AUENV 421
- Another 3 cr must be at the 400 level in year 3 or 4
- Remaining major requirements
- Remaining cr in Environmental Perspectives
- Remaining Augustana core requirements or options

NOTES:
1. Students must consider prerequisites for senior courses they wish to take in their last two years (300 & 400 level courses are typically offered in alternate years).
2. Students should not load up on 100 or 200 level courses. This does not produce a strong transcript.
3. Choosing courses should follow this priority: major, supporting courses, core, options. Otherwise, fitting in required courses becomes difficult in the last years.
4. One-semester international programs can fit into this schedule with advanced planning.

This report is intended to be used in conjunction with the Academic Calendar and your Academic Advisor. Student’s program requirements are based on their year of admission. Students are responsible for the completeness and accuracy of their registration and for the completion of their program requirements as outlined in the Calendar.
