Students are responsible for the completeness and accuracy of their registration and for completion of the program requirements as outlined in the Academic Calendar. This document should be used for reference in course planning for application to the Master of Science in Speech Language Pathology in the Faculty of Rehabilitation Medicine, University of Alberta. Ultimately students need to check with the Faculty of Rehabilitation Medicine to confirm their course selection is appropriate for application to their intended program. The information below is correct as of the date on the bottom.

Requirements:
Applicants interested in Speech-Language Pathology must first apply to a 4-year undergraduate program. The Department of Communication Sciences and Disorders (formerly known as the Department of Speech Pathology and Audiology) does not recommend one undergraduate degree over another. A minimum GPA of 3.3 (4.0 scale) is required for admission into a graduate program at the University of Alberta. However, a GPA of 3.7 (4.0 scale) is recommended for a competitive application to the MSc SLP program in the Department of Communication Sciences and Disorders at the University of Alberta.

Please note that unless two courses are to be taken in sequence, students are not required to take all of the courses named on this list. Students should take AT LEAST one of the courses listed under each of the prerequisite categories (for a total of 8 prerequisite courses).
