life at Augustana

“ I made the right choice in attending Augustana for my Kinesiology degree. I value the relationships that I created with my professors and classmates over four years. I feel that my Augustana experience, which included community service placements, group projects, and practical learning, has prepared me both for work and life outside of university. ”

Caitlin Harney (BSc Physical Education 2014)
Currently enrolled in the MSc Physiotherapy program

Why Augustana?

Augustana Campus, University of Alberta provides an excellent environment in which to prepare for careers or graduate studies. Dedicated to the pursuit of the liberal arts and sciences, Augustana provides an education in which the acquisition of advanced academic knowledge is coupled with the skills required for success: critical thinking, clear writing and confident presentations. Augustana's small class sizes provide more interaction with the professor and enable more student-led learning.

Augustana's small city setting and excellent residence life program also encourage participation in community service and provide an opportunity for students to develop skills in service and leadership.

Physical Education at Augustana

Our Physical Education major can be taken as either a Bachelor of Arts or Bachelor of Science, allowing students the flexibility to pursue many future study and career options.

The relationship between health, physical activity and recreation has never been more important as our society becomes increasingly inactive. Not only is the Physical Education major an outstanding foundational degree for careers in health sciences or education, it also gives students knowledge in the areas of sport and wellness that will assist Canadians to be healthy now and in the future.

To major in Physical Education, a student chooses between two streams: Kinesiology and Sport Studies or Outdoor Education.

Kinesiology and Sport Studies

Goals include providing substantial grounding in the discipline of physical education within the context of a liberal arts and sciences core curriculum, providing students with a broad base of knowledge and the skills to become thinkers, researchers and communicators.

Theory courses include:

Human anatomy, exercise physiology, sociocultural aspects of sport, studies in leadership theory, history of sport and physical education in Canada, sport and Canadian popular culture and more.

Physical Activity courses include:

Tennis, cross-country skiing, badminton, volleyball, weight training, luge, track and field and many more.

Specialized knowledge gained includes:

Growth and structure of the human body, effective and efficient movement of the body, the link between performance and injury of the body, critical engagement in historical trends and development.

Most costs are covered by tuition.

Admission Requirements

For admission to a Bachelor of Arts or Science with a major in Physical Education, an average of 70% is required in Grade 12 academic English and four other Grade 12 subjects.

Program Requirements

Major in Physical Education, Kinesiology and Sport Studies
