Honors Seminars

Acctg 480 Accounting Honors Seminar Part I

This is primarily a case-based course that covers the preparation of integrated pro forma financial statements and their use in making financial decisions, as well as selected other topics in financial accounting. Topics will vary from year to year with case selection, and may include (but are not necessarily limited to) the areas of revenue recognition, cash flow analysis, intangible assets, asset impairment, inter-corporate investments, hybrid debt securities, leases, pensions, and equity-based compensation. While the course contains sufficient technical material to ensure familiarity with the financial reporting issues discussed, the main emphasis of the course will be on the interpretation and use of financial information for purposes of decision making.

Prerequisites: ACCTG 415, FIN 301

Acctg 481 Accounting Honors Seminar Part II

This course covers 3 topic areas: (1) History of accounting thought including coverage of current standard setting activities, (2) Professionalism in accounting including exposure to current practical issues requiring professional judgment, and (3) Exposure to current accounting research and design of research studies.

Prerequisite: ACCTG 415
