Call for Presenters!

The University of Alberta, Faculty of Engineering Young Alumni Council (EnggYAC) is excited to be hosting our third EnggTALK event the evening of Saturday, September 21, 2019, in the Fred Pheasey Engineering Commons, 8th floor of the Donadeo Innovation Centre for Engineering. This event will be in coordination with Alumni Weekend 2019.

Presentation Topics:

In conjunction with the Faculty of Engineering’s efforts to detail the history of engineering in Edmonton, we are looking for presenters to highlight the challenges, successes, and achievements of engineering within a community. Topics could include engineering projects within Edmonton, how engineering impacts communities, what it takes to build a city or more. We are open to a broad range of topics and encourage creativity!

Presentation Format:

We are looking for presentations around 15-20 minutes in length (maximum 20 minutes) and that contain an interactive component. For instance, you could bring some materials and walk some audience members through building a simple bridge out of popsicles. Be creative!

There will be a networking session after the presentations.

How to Submit your Application to Present:

To apply to present, please send the following to enggyac@ualberta.ca by August 25, 2019:

- Your name, email address, position title and organization, phone number, pronouns, headshot image and website and/or Twitter/Social Media handles.
- The title of your presentation and a maximum one-page abstract, including details on how your presentation will be interactive.
