U of A Faculty of Engineering DiscoverE Engineering & Science Camps

Volunteer Title: Junior Instructor

This posting will be used to fill more than one position.
Term: Temporary Full-Time Volunteer Position
Duration: 7 weeks, 8 hours/day
Job Start Date: June 28, 2019
Job End Date: August 23, 2018
Job Location: 2-215 Donadeo Innovation Centre for Engineering
Application Deadline: Sunday, June 2, 2019, at 11:59 PM

**Junior Instructors are eligible to receive a scholarship for their undergraduate study in the Faculty of Engineering at the University of Alberta. This is contingent upon admission to the Faculty of Engineering for Fall 2019 and successful completion of the Junior Instructor program.**

Description

DiscoverE is a not-for-profit, student-delivered initiative of the Faculty of Engineering, at the University of Alberta, in Edmonton, Alberta. We deliver high-impact classroom workshops, unique clubs and events, and engaging summer camps to more than 26,000 youth every year, and our programs reach over 70 communities across northern Alberta and the Northwest Territories. We deliver in-class science workshops during the months of May and June and offer engineering, science, and technology day camps during July and August. The Junior Instructors will assist our Instructors and Senior Instructors in preparing for and delivering camps and special events.

Time-Off

Junior Instructors must volunteer at minimum 7 out of the 8 weeks of the summer in order to qualify for the full scholarship amount. Junior Instructors can request extra time-off but must recognize that this may disqualify them from receiving the full scholarship amount. In the event that extra time-off is scheduled, the scholarship amount received will be equivalent to the amount of time volunteered.

Duties

- Assist with delivering camps on campus
- Keep facilities clean
- Follow safety and risk management procedures
- Ensure every participant is safe and having fun
- Assist with collecting feedback from teachers, campers and parents
- Edmonton-based
Qualifications
- Superior communications skills
- Creative and detail oriented
- Convey excitement and enthusiasm about science, engineering, math, and technology
- Positive role model
- Excellent problem-solving skills
- Ability to work as part of a team
- Mature interpersonal conduct
- Willingness to learn new material
- Ability to fluently speak French is an asset
- Previous experience with DiscoverE is an asset
