Counselling and Advice

Resources for Challenging Situations

Your Assistance Program provides confidential, professional and solution-focused counselling for a broad range of personal and family problems, including managing anxiety and depression, controlling substance use, resolving family conflict, addressing life balance, and more. Homewood Health health professionals are registered psychologists, registered social workers, or Masters-level registered counsellors, chosen for their extensive experience dealing with a variety of psychological and health issues.

Homewood Health makes every effort to match clients with clinicians based on various client needs within a vast clinical network. If at any time you feel your clinician is not a suitable fit, you are encouraged to call back and request an alternate clinician within our network.

Family Mediation. Resolving disputes in our personal relationships sometimes requires an impartial facilitator to guide the discussion and ensure a safe and respectful environment. Our mediation services can provide assistance with separation and divorce, parenting or eldercare issues, and sibling relationships.

Culture-Sensitive Counselling & Indigenous Services. Where possible, clients will be matched with clinicians who have an appreciation of cultural sensitivities. We also have a network of approved Elders, Spiritual Healers, and Indigenous services to support those for whom these services are desired. Clients may wish to select and request Elders from a community they are comfortable with.
