Revising or changing an existing beneficiary/dependent is covered later in this topic.

40. Continue to enter the appropriate information into the remaining fields.
41. **Note:** In the Address and Telephone section, the 'Same Address as Employee' box **MUST** be checked regardless of whether it actually is the same or not.

    If you did not confirm/setup your address and phone number in your Personal Information, you will receive an error message when you try to submit your benefit selections. You will need to contact your Department HR Contact to clear the benefit information you entered and you will have to start at the beginning of the Benefit Enrollment Process, after entering your Personal Information ([http://www.hrs.ualberta.ca/MyEmployment/ESS.aspx](http://www.hrs.ualberta.ca/MyEmployment/ESS.aspx)).

49. **Important!**

Although all fields can be changed, it is important to **NEVER** delete or change the First and Last Name fields to a different person. The information in these fields are used for audit and reporting purposes.

Instead of over writing the name fields you would add a new Beneficiary/Dependent and withdraw (uncheck) the incorrect person. *(Instructions on how to withdraw a dependent/beneficiary is covered later within this topic.)*

If a name has changed but the person is the same (such as a last name change) refer to the topic 'Changing the Name of a Beneficiary/Dependent' for further instructions.

58. **Important!**
Once you have initially selected which type of benefits you want, such as Employee Only or Family, you cannot make changes unless a life event occurs, such as marriage or divorce.

However, changes to designation of beneficiary and application for optional coverage may be made at any time.
59. To continue the benefit enrollment process, Click the Select button.

60. Within the Post Hire Enrollment page, the Enrollment Summary section displays the type of Benefit Coverage you are enrolled in.

   In this example, the employee has been enrolled in the Staff Support Plan with Employee Only Benefit Coverage.
61. To keep your benefit coverage as Employee Only and continue to the next step in the process, click the I Have No Changes button at the bottom of the page.

62. **Important!**
When you get to the Submit Benefit Choices page, this is the Point of No Return for your health benefit selection! Once you click the Submit button, you will not be able to make changes to your benefit information until a life event occurs.

71. Click the **Self Service** menu.

Click the **Life** link.
76. In this example, no Beneficiaries have been added or defined.

Click the **Edit** button.

Leave this as the default setting. **Do Not Change**.

79. The New Primary Allocation column is used to define which of the people listed is your first choice(s) as beneficiary and the portion they are entitled to.

The total amount of the column MUST equal 100.

80. The New Secondary Allocation column is used to define which of the people listed will be your alternate (contingent) beneficiary and the portion they are entitled to, should anything happen to your Primary Beneficiary.

*Note:* You do not need a Secondary (contingent) Beneficiary.

The total amount of the column MUST equal 100.

81. In this example, the employee’s spouse is to be the primary beneficiary for their Life Benefits and the employee’s Parents and Child are to be the Secondary (contingent).
82. First you need to specify the percentage your Primary Beneficiary is entitled to. Enter "100" into the **New Primary Allocation** field of the Spouse.

83. Next, enter the allocation for the Secondary (contingent) Beneficiaries.

84. In this example, the Parents and Child are to be designated as Secondary Beneficiaries. (25% for each of the Parents and 50% to the child)

Enter the percentage into the **New Secondary Allocation** field.

For this example, enter "25" in the first parent’s **New Secondary Allocation** field.
85. Enter the percentage into another **New Secondary Allocation** field as required.

For this example, enter "25" in the second parent's **New Secondary Allocation** field.

86. Continue entering the percentage into the **New Secondary Allocation** field for all applicable people.

For this example, enter "50" in the child's **New Secondary Allocation** field.

87. Once all allocations are entered, click the **Update Totals** button.

88. The column totals must ALWAYS be 100.

You may continue to change beneficiary allocations for any other Benefits by selecting the appropriate Type of Benefit and following the same steps as outlined earlier.

93. **Note:** Optional Life Insurance is updated by Human Resource Services upon receipt of the completed Application for Group Coverage.
94. When you are finished defining your primary and secondary benefit allocations, you have completed all of the steps required in the **Post Hire Enrollment Process** and can sign out of PeopleSoft HCM.

95. Now that your Benefit Selections have been submitted to Human Resource Services you will be able to view your Benefit Summary information on the next working day.

The system requires overnight processing to upload your information over night.
