We continue to celebrate the builders of our Faculty of Medicine & Dentistry's history. In January, we recognized the pioneers of kidney transplantation and their tremendous contributions. Here are more milestones we will be marking in 2017:

- 100th Anniversary of the first seven DDS degrees at the University of Alberta
- 50th Anniversary of the Division of Infectious Diseases
- 50th Summer Student Research Day (Fall 2017)
- 50th Anniversary of the first coronary bypass operation in Edmonton
- 40 Years since the establishment of the Division of Oncology
- 10th Anniversary of the Alberta Diabetes Institute

Stay tuned for more information on how we will celebrate our faculty's milestones.

Our Alumni
The gift that keeps on giving
The University of Alberta Hospital and the FoMD celebrate the 50th anniversary of the first kidney transplant in Alberta. Alumni Rex Boake and Ray Ulan were recognized for their pioneering work with the renal program. More...

He shoots, he saves
