Dominion Medical Centres has three locations, two of which accept family medicine residents. Located in an urban setting, Dominion Medical Centres are privately-owned clinics offer diverse patient populations including all age ranges and income brackets.

The physicians have special interests in addition to regular family practice, which include in-hospital care of patients as a member of the Primary Care Hospital Team at Grey Nuns Community Hospital, orthopedic subacute care of patients at Grandview Extended Care Centre, or primary care obstetrics.

Dominion Medical Clinics are a member of the Edmonton Southside Primary Care Network and as such have access to additional resources such as nursing, dieticians, behavioral health, and other allied health professionals. Dominion offers walk-in clinics daily from 7 a.m. to 10 p.m.
