Affiliated with Misericordia Community Hospital, the Misericordia Family Medicine Clinic (MFMC) is located in the west end of Edmonton. The clinic sees an average of 11,773 patients per year, and is an active member of the Oliver Primary Care Network. The MCFMC team includes four academic family physicians, two clinical preceptors, two full time RN’s, two receptionists, two clinical assistants, two PT Transcriptionists, one Quality Coordinator, one Accounting clerk, one Program Assistant and one Chronic Disease Management Nurse. The Misericordia is also home to the Cafeteria, ample parking, resident lounge, auditorium, AV services, library, OT, PT, SLP, RT, nutrition and dietary services. MFMC uses EMR and NetCare/PIN Integration.
