Why Choose Glen Sather Sports Medicine Clinic (GSSMC) for Fellowship?
GSSMC is a state-of-the-art facility in the expansive, newly opened Edmonton Clinic on the University of Alberta campus.

This multidisciplinary environment will provide you with unparalleled opportunities for rich clinical, research, and educational experiences for your Fellowship.

As a Fellow* at Glen Sather Sports Medicine you will:
- Contribute to the design of your program to match the needs of your own practice.
- Work one-on-one with highly regarded, experienced sports medicine physicians and orthopedic surgeons, with the opportunity to assist in surgery, MSK ultrasound, and platelet-rich plasma injections.
- Work with a varied cross-section of professional, amateur, and varsity team athletes as well as acting as team physician for the Golden Bears hockey and football teams.
- Be part of a multidisciplinary in-house therapeutic team including physiotherapists, biomechanical specialists, orthotists, massage therapists, physiatrists, and X-ray specialists.
- Participate in ground-breaking Clinic research studies and initiate your own research project.
- Be a part of the Clinic’s teaching team for medical students and residents.

Additional Training
In addition to training in musculoskeletal assessment, and exercise medicine, Fellows will:
- Receive training in urgent/emergent conditions, coverage of sports events, mental health aspects of sport, anti-doping, and specialty care such as pediatrics, rheumatology, oncology, and physiatry.
- Upon completion of the program, have the opportunity to write the competency exam of the Canadian Academy of Sport Medicine (CASEM) and receive their Sports Medicine certification.
- Upon completion of the program, receive a Certificate of Added Competency (CAC).
- Have the opportunity to extend their Fellowship to two years to work towards a Master’s degree in Exercise Physiology.

Glen Sather Sports Medicine Clinic Team
Staff practitioners are involved in research and development of innovative technologies such as the Gait Analysis system used in GSSMC’s Running Injury Clinic.

GSSMC’s ACL Clinic is an example of the team approach to athlete care. It consists of a multidisciplinary team of healthcare providers including Physiatrists, Physical Therapists, Sports Medicine Physicians, Orthopedic Surgeons, and Nursing staff who work together to improve patient outcomes.

GSSMC’s medical staff are respected Sports Medicine physicians and orthopedic surgeons, some of whom are directly involved in medical care of Edmonton’s professional sports teams. All have served as members of Canada’s National Sport Medicine Team at international events including the Pan-Am, Universiade, and Olympic Games.
