Clinic Overview

Shifa Medical Clinic is a busy family practice located on the south side of Edmonton. Affiliated with the Edmonton South PCN, Shifa Medical Clinic provides care to a mixed population of patients including young families, women, individuals with chronic pain and mental health care needs as well as a small geriatric population. The clinic also accepts walk-in patients. Dr. Hoffart has affiliation with the Grey Nuns Community Hospital, provides ER coverage to the community of Drayton Valley and provides subacute coverage to Grandview.

Learning Opportunities

Residents will have opportunities to learn IUD insertions, chronic pain management and opioid tapering (initiative pending with PCN South regarding Safe Opioid Prescribing), multidisciplinary involvement, specifically close involvement with NP and PCN Resources.

There is a portable Mac available for learners and individualized EMR access.
