MISSION

The Department of Family Medicine at the University of Alberta exists to teach the discipline of family medicine for the future of practice, and the needs of society, and to produce scholarly work that improves the practices of family medicine and primary health care.

We will achieve this outcome by developing and demonstrating excellence in:

1. Training residents for team-based, systems-based, socially accountable patient care and leadership,
2. Providing medical students with high-quality education, and serving as role models of academically excellent, quality- and safety-driven, socially accountable generalists, and
3. Conducting and disseminating clinical, educational, epidemiological, and health services research that improves the teaching and practice of family medicine and primary health care.
