“EVIDENCE-BASED MENTORSHIP”

Objectives

Learners will be able to:

1. Define mentorship
2. Describe characteristics of effective mentorship
3. Reflect on an approach to mentorship in their own activities

Biography

Dr. Straus is a Professor in the Department of Medicine at the University of Toronto. She holds a Tier 1 Canada Research Chair in Knowledge Translation (KT) and Quality of Care and more than \$30 million in peer reviewed research grants as a Principal Investigator (PI). She has >300 publications, and has supervised >25 graduate students from different disciplines including clinical epidemiology, health informatics and human factors engineering. She is co-Principal Investigator of KT Canada, a Canadian Institutes of Health Research (CIHR) and Canadian Foundation for Information funded national, Clinical Research Initiative, PI of KT Canada's CIHR-funded Strategic Training Initiative in Health Research and PI of a network meta-analysis team grant for the Drug Safety and Effectiveness Network.

Dr. Straus is Division Director of Geriatric Medicine at the University of Toronto and Director of the KT Program at the Li Ka Shing Knowledge Institute of St. Michael's Hospital. She has authored three books. Evidence-based medicine: How to practice and teach it is in its fourth edition and has been published in 9 languages; Knowledge Translation in Health Care, is now in its second edition; and, the first edition of Mentorship in Academic Medicine.
