**Tuesday, May 28, 2019 at 12:00 Noon**

**Bill Black Auditorium, Glenrose Rehabilitation Hospital**

Registration for Participation (VC #40606): <http://bit.ly/geriatricgrandrounds>

Audio Line 1 (866) 236-8036, Participant Code: 0809219

## Driving and Dementia—What Every Practicing Clinician Should Know

**Dr. Frank J. Molnar, MSc, MDCM, FRCPC**

Dr. Molnar is a Canadian Royal College certified specialist in Geriatric Medicine who currently serves as President of the National Specialty Society of Geriatric Medicine – the Canadian Geriatrics Society (CGS) and as one of the CGS representatives at the International Association of Gerontology and Geriatrics (IAGG) as well as serving as a member of the North American Regional Committee of the IAGG. He also serves as Medical Director of the Regional Geriatric Program of eastern Ontario and as Co-chair of the Regional Geriatric Programs of Ontario.

Dr. Molnar is the editor-in-chief of the Canadian Geriatrics Society Continuing Medical Education Journal ( [www.geriatricsjournal.ca](http://www.geriatricsjournal.ca) ). As an Associate Professor of Medicine at the University of Ottawa with research training his academic interests lie in the areas of

dementia and driving (he serves as a member of the scientific editorial team of the Canadian Medical Association national medical fitness-to-drive guidelines), Primary Care – Specialist collaborative models of community-based dementia care and screening for cognitive impairment. He has published over 100 articles on seniors care.

His clinical practice at the Ottawa Hospital is focused on the GERIATRIC 5MS – Mind, Mobility, Medications, Multiple Interacting chronic diseases, Matters Most to seniors.

Dr. Molnar continues to search for approaches to better care for high risk vulnerable seniors who are living with multiple interacting diseases.

### **Presentation Objectives:**

1. To understand the factors that affect fitness-to-drive in persons with dementia
2. To review practical approaches to assessing fitness-to-drive in dementia
3. If time permits—to discuss thorny scenarios as a group

Specialized Geriatrics Program, Glenrose Rehabilitation Hospital, Alberta Health Services, & Division of Geriatric Medicine, Department of Medicine, Division of Care of the Elderly, Department of Family Medicine, University of Alberta
