Student Updates

McGill Journal of Medicine - Accepting Submissions

The McGill Journal of Medicine is a student-led, peer-reviewed journal that aims to provide students with a platform to publish on all aspects of medicine. We are currently accepting submissions for our Spring 2017 issue with a special focus on Primary Care in Quebec. No other discipline is as broad and all-encompassing as Family Medicine and we hope your submissions will reflect the diversity of the specialty. Whether it be discussing the merits of the periodic health exam, comparisons between different provincial healthcare systems, the challenges and rewards of rural practice, medical education of primary care practitioners or any one of numerous other topics, family medicine research aims to improve patient health at all points in their lives and through multiple different avenues.

We are currently accepting original research articles, reviews, case reports, Crossroad and fine art submissions. Submissions are evaluated on a rolling basis. Find more information and submit here.

C2017 Focus Group Participation

In this issue:

Student Updates

- McGill Journal of Medicine - Accepting Submissions
- C2017 Focus Group Participation
- Student-led Sexual Harassment Survey
- Order Form for The Artery (Student Art Book)
- Society of Rural Physicians of Canada (SRPC) Membership
- Heart Chords Orchestra Rehearsal
- Call for Posters - Campus Alberta Neuroscience Symposium
Participation in this study will involve a one-time focus group discussion with other medical students from your year, as well as a moderator from our team. The discussion will include questions about the types of learning resources and learning methods you have found valuable in your clerkship experience.

Contact Amarjot Padda (padda@ualberta.ca) for more information.

**Student-led Sexual Harassment Survey**

**When:** ASAP  
**Where:** Online

We are a group of undergraduate medical students and faculty members surveying med students of all genders at all 17 Medical Schools in Canada to evaluate the prevalence and nature of sexual harassment during medical training. We will use the findings to inform medical schools about the extent of the problem and suggest approaches to addressing it. The anonymous survey should take <15 minutes.

To take the survey, click [here](#). Contact jwebber@nosm.ca for more information.

---

**Order form for The Artery (Student Art Book)**

**When:** ASAP. We need 100 book orders or we can’t print!  
**Where:** Online Form

The Artery 2016 is an art book filled with various pieces (photography, poetry, paintings, sketches, sculptures, food art, etc) from all 4 years of Med & Dent students. The book is 6"x8.5" with a nicely finished cover and spine (not coiled!), and costs only $20! It will be a great addition to your student housing or be a perfect holiday present.

Pick up will be in Katz Atrium between October to November.

Click [here](#) to order your copy. Contact thearteryuofa@gmail.com for more information.

---

**Society of Rural Physicians of Canada (SRPC) Membership**

**When:** ASAP  
**Where:** Via Online Form

Are you interested in rural medicine? Check out the Society of Rural Physicians of Canada (SRPC). The SRPC provides a voice to Canada’s rural physicians and promotes interest in rural healthcare. On a student level the SRPC holds a yearly essay contest, puts on the Rural and Remote Conference (in Calgary this year!), and compiles a list of information on rural electives offered at medical schools across Canada.

If you’re interested rural medicine information, opportunities, and events across Canada, you can sign up for a (FREE) SRPC membership [here](#).

Register for WHOMUN 2016!

**When:** Saturday, November 5th from 10:00 to 16:00  
**Where:** ECHA building, 1st floor.

Deadline to complete: 11:59 PM on Friday, October 28. Register [here](mailto:)

World Health Organization Model United Nations (WHOMUN) is an extracurricular event which gives students in health sciences and other faculties the opportunity to participate in a model UN plenary-style debate and discussion of a current global health issue. Each student will be assigned a country to represent, and this year delegates will discuss and draft a global response to the Zika virus. For students from all programs, WHOMUN is a fantastic chance to hone your knowledge and skills of global health governance, the UN system, and international policy setting, as well as your research, collaboration, and public speaking skills. And it is a lot of fun!

MD program students can use WHOMUN for 6 hours of credit to count towards the 12-hour first- or second-year preclerkship elective requirement.

Advice on Using Non-AH/AHS Information Systems

The use of technology in healthcare is a rapidly emerging field. Many of us already use information systems provided by Alberta Health (AH) or Alberta Health Services (AHS) such as Netcare, eClinician, and IMPAX, to assist with patient care. However, many other healthcare software products (hereafter referred to as information systems), web based and/or apps for personal devices, are also available for use in inpatient and ambulatory care settings. Before using a non-AH/AHS hosted information system that would contain confidential health information, you MUST be aware of important privacy policies and procedures and your responsibility to comply with the Health Information Act and other privacy laws.
