Partnership for Research and Innovation in the Health System (PRIHS) 5
2019/2020

Sean Dewitt, Program Manager, Health, Alberta Innovates

Marc Leduc, Senior Provincial Director, Innovation & Research Management, Alberta Health Services
PRIHS supports research and innovation activities that will contribute to achieving a sustainable health system in Alberta
Between 2013 and 2015 PRIHS funding has supported health research and innovation projects within the majority of Strategic Clinical Networks™ (SCNs).

In addition to AI/AHS funding, approximately $5M in additional funds has been allocated to PRIHS projects from external partners.
Strategic Clinical Networks™ (SCNs) are focused on creating improvements around specific health care topics and within areas where care is delivered.

Current SCNs include:

- Addiction and Mental Health
- Bone and Joint Health
- Cancer
- Cardiovascular Health & Stroke
- Critical Care
- Digestive Health
- Diabetes, Obesity & Nutrition
- Emergency
- Kidney Health
- Maternal Newborn Child & Youth
- Neurosciences, Rehabilitation & Vision
- Population Public & Indigenous Health
- Primary Health Care Integration Network
- Respiratory Health
- Seniors Health
- Surgery
Innovation Pipeline

**Activity**

1. **Identifying Care Gaps**
   - Process founded in co-prioritization

2. **Research Innovation Evaluation QI**
   - "test" in AB proven or provisioning & evidence generation)

3. **Implementation work-to-scale**
   - Implemented and sustained in care

**Network Participants:**
- Public, patients, family
- Industry
- Policy makers, government
- Researchers/trainees/academic institutions
- Health care leaders, administrators
  - Non-profits
  - Community
- Physicians
- Front-line staff
- Evaluation recs
- Quality Grants (AHS)
- PRIHS (AI/AHS)
- Project (CIHR)
- ICT (CIHR)
- Other
- PHSI (CIHR)
- QSO (AHS)
- HIIS (AH/AHS)
- Quality Grants (AHS)
- Other
- AHS (Annualized funding through BELT)

**Operationalize to scale**
- Downrigour

**Operationalize at scale**
- Downrigour

**To treat/implement/scale**
- Uprigour

**Network Participants:**
- Health care leaders, administrators
- Non-profits
- Community
- Physicians
- Front-line staff
- Researchers/trainees/academic institutions
- Public, patients, family
- Industry
- Policy makers, government
PRIHS 5 Designed Too...

Align the knowledge production efforts of researchers with the evidence needs of the health system. This is achieved by providing opportunities for researchers to propose solutions to priority health system challenges and access support from SCNs and other expertise within AHS to administer implementation studies. These implementation studies will help AHS identify and advance solutions that improve health care quality, health outcomes and value for Albertans.
PRIHS 5 Collaboration for Change

Collaborations between Alberta’s academic institutions, SCNs, and operational leaders in AHS are meant to:

– translate research evidence into solutions that address specific health system challenges in Alberta as articulated by the SCNs; and

– build capacity to identify, test, and advance solutions with the greatest potential to contribute to the health and well-being of Albertans and the sustainability of Alberta’s health system
The Significance of SCNs in PRIHS

• **Networks** of patients and family advisories, academic partners, clinicians, operational leaders, and other stakeholders who are knowledgeable about specific **areas of health** and dedicated to **improving health care** quality, health outcomes and value for Albertans.

• Serve as **enduring structures for advancing innovations** in these domains – set research and innovation priorities, articulate evidence needs, and identify promising solutions that are ready for testing and evaluation.

• Finally, ensure PRIHS applicants have access to critical **support structures and health system expertise** as early as possible in the PRIHS lifecycle.
Partnership for Research and Innovation in the Health System (PRIHS): 2019 - 2020

Launched May 1

PRIHS 5 Road Map

**PRIHS ROAD MAP**

- **MAY, 2019** LAUNCH
- **JUNE, 2019** CONTACT SCN
- **SCN select top 3** (Application will be made available to those selected)
- **SEPTEMBER, 2019** STAGE 1 DEADLINE
  - Stage 1 submissions
  - 3 per SCN
- **JANUARY, 2020** STAGE 2 DEADLINE
  - Final submissions
- **FEBRUARY, 2020** STAGE 2 REVIEW
  - Rank & recommend
- **OCTOBER, 2019** INVITATION TO FULL PROPOSAL
- **OCTOBER, 2019** STAGE 1 REVIEW
- **AGREEMENT EXECUTION**
- **MARCH, 2020** FUNDING ANNOUNCEMENT

**Strengthening full proposal development**

**Decision**
- By PRIHS Steering Committee & funding approvals

PRIHS 5 Funding

• AI and AHS are investing up to $7 million in the PRIHS V competition. No maximum budget is set for each proposal.
• The individual award’s period of support for up to three years (2020-2023).
PRIHS 5 How to Apply

• Contact the Scientific Director or Assistant Scientific Director of the relevant SCN to discuss potential ideas or solutions – determine if the potential solution:
  – Addresses a priority as outlined in the SCN Transformational Roadmaps or emerging priorities approved by the SCN;
  – Consists of one or more evidence-based solution(s) that can be formulated into an implementation study;
  – Is accomplishable within the timeframe of a PRIHS grant; and,
  – Has the potential to deliver significant, measurable impact to health system performance.

• Contact details for SDs/ASDs and summaries of SCN Transformational Road Maps can be found at https://albertainnovates.ca/prihs-2019-2020
PRIHS 5 Eligibility

- Only proposals that are developed in collaboration with one or more SCN and consist of an implementation study in the Alberta health system will be considered for funding.
- All PRIHS V applications must include:
  - At least one lead applicant who holds an academic or research appointment at an Alberta-based Institution.
  - SCN Scientific Directors (SDs) and Assistant Scientific Directors (ASDs) are eligible to apply as a lead or co-lead. SD’s and ASD’s are exempt from all involvement in PRIHS Stage 1 and Stage 2 process review, evaluation and selection processes and panels.
  - SCN staff as part of the implementation study team or if applicable a co-lead
  - Other collaborators and/or knowledge users from the broader SCN network, including operational leaders, are encouraged.
PRIHS 5 Launch

• Program guide can be accessed at https://albertainnovates.ca/prihs-2019-2020

• Webinar (Q & A) on May 14th (12-1pm) – invitation available on the launch site
