WESTERN CANADIAN UNIVERSITIES
BIG DATA HEALTH CONFERENCE:
The Future of Precision Health and Big Data

Please join delegates from across western Canada in Banff, AB, Canada, as we explore opportunities to spark collaborations, address challenges and identify actionable steps for using large-scale data analysis and technology to improve human health. This is the first of several initiatives being planned by the medical schools from the University of British Columbia, University of Alberta, University of Calgary, University of Saskatchewan, and University of Manitoba.

KEYNOTE SPEAKERS:
Dr. Andrea Lodie
Dr. JP Casas Romero

TOPICS INCLUDE:
+ Analytics and Machine Learning
+ Exchange of Information between Systems
+ Multi-source Data
+ Ethical/Legal/Regulatory Issues
+ Clinical Process Re-design
+ Novel Visualization
