HELLO AGAIN

It has been over a month since the last Newsletter, but there as been nothing to report. We are approaching Fall, when our programs start up again. The executive will meet on August 29 to further develop the Fall program. In the meantime, you will find below two items which we have been asked to communicate to you.

### Outreach to Older Adults with Urinary Incontinence

Dr. Adrian Wagg's research team at the University of Alberta is developing a list of educational and outreach priorities for older adults with urinary incontinence (UI). The following is a link to the survey, asking older adults (age 65+) with UI to rate a list of 20 priorities for education and outreach for those experiencing UI:
