Located on a picturesque residential campus in the small city of Camrose, 90 kilometres southeast of Edmonton, Augustana’s primary focus is undergraduate teaching and learning. Augustana enrolls more than 1,000 students, drawn from across Alberta, Canada and the world, in distinctive degree programs in arts, sciences, music and management. It awarded its first U of A degrees in spring 2005. In addition to the Faculty’s statement of identity and mission below, please consult the Augustana website at www.augustana.ualberta.ca for further information.

Identity and Mission

Established in 1910 by Norwegian settlers, under the name Camrose Lutheran College, Augustana is still inspired by convictions that are part of its pioneer legacy: that personal wholeness emerges from a liberal education, that the proper end of leadership is service to others, and that the spirit of cooperation so crucial to rural life invigorates human endeavour. As a Faculty of the University of Alberta, Augustana continues to build on its reputation for high-quality teaching in a friendly, caring, residence-based setting. In doing so, it provides a distinctive small-campus undergraduate experience within one of Canada’s leading universities. Augustana remains mindful of its heritage, open to a diversity of perspectives and backgrounds, and responsive to the rural region in which it is located.

Augustana Faculty is characterized by a lively, collegial academic culture of research, creativity, and public engagement in which students are invited to participate. It values interdisciplinary inquiry, teaching, and learning. Augustana offers the opportunity of a memorable, life-changing education through small classes, personal attention from professors, a challenging, innovative curriculum founded on the liberal arts and sciences, experiential learning in wilderness and international environments, and a range of campus-life programs. In this academic community, students are more than narrow specialists, spectators, or strangers.

Augustana aspires to educate the whole person in an intimate, small-campus setting so that students and mentors alike are capable of engaging life with intellectual confidence and imaginative insight, equipped for leadership and service, and committed to the betterment of their world.

The Augustana Academic Course Schedule

The academic course schedule for Augustana Faculty provides a unique rhythm for each academic year that advances experiential learning opportunities for students, creates connections between these opportunities and more traditional classroom work, offers greater flexibility for students in managing course workloads and degree completion times, and provides greater accommodation to a variety of student learning styles. Augustana Faculty features an academic schedule in which each of the traditional Fall and Winter Terms consist of students taking a single course for three weeks, followed by a number of courses for 11 weeks. There are a smaller number of additional 3-week courses available at the start of the standard University Spring Term. This schedule creates a potential annual student academic enrollment cycle of 3-11-3-11-3. Students typically register in a single 3-week course and a combination of courses totalling 12 during the 11-week period.

The Augustana Core

Augustana Faculty orients its programs toward a broad education realized through engagement, knowledge, and skills. Collectively, this commitment is incorporated in the Augustana Core.

Foundation

Augustana provides a rigorous foundational course experience that encourages the development of intellectual and work habits necessary for academic and career success, such as critical and creative thinking, clear and effective writing and communication, and management of information. It also offers students an interdisciplinary experience to begin their Augustana career.

Engagement

At Augustana, students integrate their learning with the complexities of local and global communities, both in the classroom and in the world. To achieve this degree of social and political engagement, Augustana students are required to take courses in at least three of the following five areas:

- Creative & Imaginative Process
- Diversity and Global Studies
- Environmental Sustainability
- Experiential Learning
- Integrating Knowledge

For more information on Engagement requirements, see Bachelor of Arts (BA) [Augustana], Bachelor of Management in Business Economics (BMgt) [Augustana], Bachelor of Science (BSc) [Augustana], and Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana), under The Augustana Core: Engagement.

Knowledge

Augustana embraces a liberal arts and sciences education that embodies many different ways of knowing. The ability to use a range of approaches to solve problems enables citizens to face the complexities of society with flexibility and innovation. Students achieve this breadth of knowledge by taking courses in each of the following areas:

- Fine Arts,
- Humanities,
- Social Sciences, and
- Science.

For more information on breadth of Knowledge requirements, see Bachelor of Arts (BA) [Augustana], Bachelor of Management in Business Economics (BMgt) [Augustana], Bachelor of Science (BSc) [Augustana], and Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana), under The Augustana Core: Knowledge.

Skills
At Augustana, students acquire core academic skills through their major. These skills are the mark of a successful education and the basis for continued learning. Therefore, Augustana deliberately sets for itself the goal that, upon graduation, all students will be equipped with a skill set of which they can be justifiably proud. Students find these skills possess immense practical value, enabling our graduates to make meaningful contributions to their communities and workplaces.

Augustana aims to develop students who are thinkers, researchers, and communicators.

As Thinkers, Augustana students can
1. read, view, listen, and reflect carefully and extensively;
2. engage in issues from a variety of perspectives, cultures, or traditions; and
3. approach problems using evidence, reasoning, and creativity.

As Researchers, Augustana students can
1. design and execute projects from conception to fruition;
2. analyze and synthesize data, concepts, and ideas;
3. assert their own perspective on a topic through argument, presentation, or interpretation; and
4. employ information literacy skills to assemble and evaluate the most suitable materials.

As Communicators, Augustana students can
1. clearly convey ideas, creative work, and research in an artistic or scholarly manner;
2. present information confidently, showing command of oral, digital, written, visual, or artistic expression;
3. employ effective presentation and rhetorical strategies tailored to specific audiences; and
4. write logically and grammatically.

While these skills are not attached to any specific credit requirement, skill development is incorporated into several aspects of each degree program and is reviewed by the Faculty on a regular basis.

General Program Information

The following terms, definitions, and abbreviations are used throughout the Augustana Faculty section of the Calendar:

1. Unit of Course Weight: A unit of course weight indicates the instructional credit assigned to a course and is designated by the symbol ★ after the course number and name. Units of course weight form a part of the degree requirements and are also used to calculate a student’s Grade Point Average (GPA).
2. Junior-level Courses: Courses numbered 100–199.
3. Senior-level Courses: Courses numbered 200–599.
4. Term: The standard University of Alberta instructional periods are from September to December (Fall Term), January to April (Winter Term), May/June (Spring Term), and July/August (Summer Term). Augustana Faculty further divides these periods as follows:
   a. 3-week courses: Augustana designates three specific instructional periods during the academic year, consisting of approximately three weeks duration, normally in September, January, and May.
   b. 11-week courses: Augustana designates two specific instructional periods during the academic year, consisting of approximately 11 weeks, extending from late-September to December, and from late-January to April.
5. Single-term Course: A standard credit course has a course weight of ★3 and normally extends over a single instructional period (3-week or 11-week).
6. Two-term Course: A two-term course is a course with a course weight of ★6 that normally extends over two or more instructional periods. Certain courses may present an alternative course weight.
7. Year Status: Each student who has been admitted to a degree program at Augustana is classified according to year status as follows:
   a. ★0-23 earned: first-year standing. First-year students are normally not eligible to take courses numbered 200 or higher.
   b. ★24-53 earned: second-year standing.
   c. ★54-83 earned: third-year standing.
   d. ★84 or more earned: fourth-year standing.
8. Course load: The normal full course load is ★30 for the academic year.
9. Minimum Passing Grade: The minimum passing grade in University of Alberta undergraduate courses is a D. The minimum final grade for transfer of courses from other postsecondary institutions is C-.

Overlapping Options:

a. A course that fulfills more than one requirement for a major or in a major/minor combination, or in some form of major/minor/certificate combination;

b. A course that fulfills a requirement in both the core and within a specific program.

Non-Overlapping Options:

a. A course that is not allowed to count towards more than one requirement within a major;
b. No course may be counted towards more than one core requirement.

Supporting Course: A course from outside a particular major which generally complements the study of that major; it is a requirement for the completion of the major, but is not used in calculating the major GPA.

Option: The term “option” where it appears in programs means a course chosen by the student from offerings by the Augustana Faculty if the necessary prerequisites have been met, and which is not a specific program requirement.

Arts Courses/Options: Courses offered by the Augustana Faculty which are classified as “Arts” courses (see Classification of Courses) for which the student is eligible and which meet degree requirements.

Music Courses/Options: Courses offered by the Augustana Faculty which are classified as “AMUS” courses (see Course Listings) for which the student is eligible and which meet degree requirements.

Science Courses/Options: Courses offered by the Augustana Faculty which are classified as “Science” courses (see Classification of Courses) for which the student is eligible and which meet degree requirements.

Specialized Professional Courses: Courses offered by the Augustana Faculty which are classified as neither “Arts” nor “Science” courses (see Classification of Courses) for which the student is eligible and which meet degree requirements.

General Regulations Governing Course Selections

1. Junior-level courses (numbered 100–199) should be taken as early as possible. A first-year student is normally not permitted to take senior-level courses (numbered 200 and higher).
2. All programs must include at least ★72 at a senior level.
3. A limited number of specialized professional courses may be substituted for arts and science courses in a BA or BSc program. The maximum allowed is ★18.
4. The maximum number of specialized professional courses allowed in the BMgt program is ★36.
5. A maximum of ★12 of Physical Education Activity (AUPAC) is allowed.
6. Each major or minor must consist of a distinct set of courses. No course may be counted toward more than one such area of study. This restriction does not apply to courses listed in the Calendar as “supporting courses.” If a course is specifically required by two or more of a student’s declared areas of study, the course may be counted toward only one area and a substitute course in each of the other areas must be selected with the approval of the student’s Department Chair.

Certificates

Augustana Faculty currently offers two certificates to graduating students which acknowledge formally that students have studied particular themes, within one discipline, or across disciplines. Normally the requirements for the certificates can be completed as part of the requirements for the degree; however, in some cases, a student may need to take more than the minimum required for the degree program in order to qualify for both the degree and the certificate. The following certificates are available from Augustana:

Certificate in Community Mental Health: Theory and Practice: available to students with a major in Psychology in the Augustana Faculty BA or BSc program (see Certificate in Community Mental Health: Theory and Practice).

Certificate in Writing Studies: available to students in any Augustana degree program (see Certificate in Writing Studies). Augustana students are also eligible to pursure embedded certificates offered by other Faculties, but which are open to students across the University. These certificates include:
Faculty Regulations

Students should consult the following regulations of the Augustana Faculty in tandem with the University Regulations in Academic Schedule to Code of Applicant Behaviour, with particular attention to Registration and Fees and Academic Regulations.

Admission and Transfer

If students who are registered in an Augustana degree program wish to enrol in a course offered by another institution and apply the credits for this course toward the Augustana degree, they must obtain the approval of their Academic Adviser before registering for the course. If approval is granted students must then obtain a Visiting Student Authorization letter from the Office of the Registrar at Augustana Campus. Please note that Augustana guarantees consideration for transfer of credits only to courses explicitly identified in the Visiting Student Authorization letter. Credits to be transferred from the other institution are judged on the same basis as transfer credits granted at the time of admission.

Residential Requirement

Augustana is a residential institution, and living in residence is a valuable part of the total educational experience. Living on campus provides maximum opportunity to benefit from university life. The residence hall program is specifically designed to provide an environment that promotes the development of the whole person.

The policy requiring all students to live in residence for at least one year is an indication of Augustana Faculty’s commitment to this enriching experience. The requirement to live on campus does not apply to:

- part-time students.
- married students.
- students with children.
- students who are 21 years of age or older at the time of their registration for the academic year.
- students living with family in the Camrose area.
- students whose medical needs cannot be met by Augustana Faculty.

Students with special circumstances not indicated in the exemptions listed above may appeal the requirement to live on campus, in writing, to the Housing Review Committee.

Registration

General regulations for students regarding Registration are contained in Registration and Fees.

1. **Deadlines:** Students should familiarize themselves with the deadlines pertaining to registration, as outlined in Academic Schedule, and be aware that these deadlines are strictly enforced.

2. **Student Responsibility:** Students are responsible for familiarizing themselves with program requirements and limitations as specified in the Calendar and for ensuring their programs are properly planned in accordance with degree specifications. Please read the Calendar carefully before registering in courses, and if you are in doubt about any regulations pertaining to your program, consult the Learning, Advising and Beyond Office, for clarification.

3. **Academic Advice:** A student is encouraged to consult an Admissions Counsellor when selecting courses for the first year of university studies. Academic advice is provided by Academic Advisers to assist a student in registering for subsequent years of studies.

4. **Failure to ‘drop’ a course:** Students who do not formally withdraw from a course but who are absent from the final examination without excuse (see Absence from Final Exams) will be given a mark of zero (0) on the final examination. The final grade in the course will then be determined by combining the appropriately weighted term grade and the assigned zero in the final examination, the mathematical result rounded to the lowest whole number. Students who register in a course but do not attend and do not formally withdraw will receive a grade of F1.

5. **Change in program:** A student who wishes to change from one major, minor, or degree program to another within the Augustana Faculty must consult with an Academic Adviser. A student wishing to change degree program, or transfer into another Faculty, should also consult Readmission or Internal Transfer for requirements on readmission and internal transfer.

6. **Withdrawal from Augustana:** A student who wishes to withdraw from Augustana should first discuss the matter with their Academic Adviser. At the discretion of their Adviser, the student may be referred to a University Counsellor in the Augustana Personal Counselling Centre and/or the Director, Student and Residence Services (if the student is living in residence). All deadlines related to withdrawals are strictly enforced; students should consult Academic Schedule and Registration.

7. **Auditing courses:** Students interested in registering to audit one or more courses in the Augustana Faculty should refer to Auditors.

Attendance, Evaluations and Grading

Since presence at lectures, participation in classroom discussions and projects, and the completion of assignments are important components of most courses, students will serve their interests best by regular attendance. Those who choose not to attend must assume whatever risks are involved. Students should pay close attention to any further requirements on attendance and class participation indicated on course outlines (see Evaluation Procedures and Grading System). As well, students should refer to Attendance for specific regulations regarding exams.

Every student’s performance will be evaluated at least two times in each course. The evaluations may take the form of tests, essays, and/or other assignments. The results of at least one evaluation in each course will be available to students no later than eight weeks into a standard Fall or Winter Term, seven weeks into an 11-week Augustana course, or eight instructional days into a 3-week Augustana course. For further information on evaluations, grading, and exams, see Evaluation Procedures and Grading System and Examinations (Exams).

No examination valued at more than 20% of the final grade shall be scheduled during the last ten instructional days of a standard Fall or Winter Term course, the last eight instructional days of an 11-week Augustana course, or the last three instructional days of a 3-week Augustana course (the exception being a final exam in a 3-week course, which typically will occur on the last day of the course). No student shall be required to write three final exams in one day (i.e., in the morning, afternoon, and evening exam periods). Should a student have three exams scheduled in one day, the student should contact the Office of the Registrar at Augustana as soon as possible for assistance in rescheduling one exam to another time within that final examination period.

Policy on Academic Dishonesty

For information on Academic Dishonesty, including definitions, potential sanctions, the discipline process, and procedures for appeal, a student should consult the University of Alberta Code of Student Behaviour. Amendments to the Code of Student Behaviour occur throughout the year. The official version of the Code of Student Behaviour, as amended from time to time, is housed on the University Governance website at www.governance.ualberta.ca.

Academic Standing and Graduation

Determination of Academic Standing

Academic standing is assessed based on a student’s Grade Point Average (GPA). (Rules for computing the GPA are listed in Evaluation Procedures and Grading System.) Students are expected to maintain a 2.0 minimum GPA. Students who do not maintain this level of academic performance may be permitted to continue under academic warning or may be required to withdraw.

The assignment and realignment of academic standing is based on a student’s performance in a minimum of 12 credits. If, at the time of review, the student has attempted fewer than 12 credits, the last assignment of academic standing, there will be a program review, but the assessment of academic standing will be deferred and the academic standing assigned at the last review will remain in effect until the next review.

A review of academic performance is conducted for each student at the end of each Fall/Winter Term, based on all courses completed during those Fall/Winter Terms. In addition, any courses taken during the preceding Spring/Summer will be included in the review. Students whose assessment was deferred at the last
review will be assessed on the cumulative results of all courses completed since their last academic standing assignment.

Implications of Academic Standing

1. **First-Class standing and the Dean’s List:** First-class standing in a given year is awarded to any undergraduate student who obtains a GPA of at least 3.5. The GPA to be computed on a minimum of 34 taken during Fall/Winter. Students who attend in only one term of the Fall/Winter are eligible if they complete at least 12 with a minimum GPA of 3.5. Dean’s List: This designation is given to students who achieve a GPA of at least 3.7 on a minimum of 18 in Fall/Winter. Students who attend for only one term of Fall/Winter are eligible if they complete at least 9 with a minimum GPA of 3.7.

2. **Satisfactory Standing:** Satisfactory standing is given to a student who achieves a GPA of at least 2.0. Students with satisfactory standing are academically eligible to continue studies in Augustana Faculty.

3. **Marginal standing:** Marginal standing is given to a student who achieves a GPA of 1.7 to 1.9. Graduation

**Grades Required in Courses Presented for the Bachelor’s Degree**

1. Courses presented for the Bachelor’s degree are limited to those in which a grade of at least D has been attained. If a student has successfully completed more than the number of credits required for the degree, the courses presented to satisfy all the requirements are chosen to the student’s advantage.

2. A student must achieve a Graduation Grade Point Average (GGPA) of at least 2.0 to be eligible for a bachelor’s degree. The GGPA is based on the last 90 presented for the degree (whether earned at Augustana Faculty, University of Alberta or elsewhere).

3. A student must achieve a GPA of at least 2.0 in each declared area of study. Each GPA major or minor is calculated over all presented courses that apply to the area of study, including those courses contributing to the first 30.

4. The degree is awarded “with distinction” to a student who achieves a GGPA (as defined in item 2, above) of at least 3.5.

**Graduation Requirements**

1. Students wishing to receive an Augustana Faculty degree at an upcoming convocation must apply for graduation on Bear Tracks (https://www.beatracks.ualberta.ca) in accordance with the deadlines specified in Academic Schedule. Also see Graduation. The University of Alberta Augustana Faculty will hold one convocation ceremony each year at Augustana campus, normally scheduled in June. Students registered in Augustana Faculty who are eligible to graduate in Fall may attend the Fall convocation held on North campus.

2. In order to graduate, a candidate must fulfill all program requirements and satisfy the grade point average and residence requirements specified above.

3. If a graduand has not paid all outstanding fees and accounts, the degree parchment and transcripts will be withheld until all amounts owing are paid in full.

**Grievances and Appeals**

A copy of the Augustana Faculty regulations regarding appeals on grades and academic standing may be obtained from the Augustana Learning – Advising – Beyond Office. Certain academic standing decisions made by the Augustana Faculty Academic Appeals Committee may be appealed to the General Faculties Council Academic Appeals Committee. See Appeals and Grievances.

Note: Deadlines exist for submission of appeals. Contact the Faculty for details.

Bachelor of Arts (BA)

Overview

The Bachelor of Arts degree consists of 120 arts and science, including at least 55 arts (see Classification of Courses). The 120 in the program are made up of the Engagement and Knowledge components of the Augustana Core, a major subject, an optional minor, and options, as follows:

The Augustana Core: Engagement

Engagement requirements consist of five different categories. A student must complete 15 from at least three of the five categories with no more than 6 in any one category; courses which satisfy these requirements may overlap with a student’s major:

- Creative & Imaginative Process
- Diversity and Global Studies
- Environmental Sustainability
- Experiential Learning
- Integrating Knowledge

For more detail on which courses may be counted towards these categories, see Augustana Chart 1 Core Engagement Requirements.

The Augustana Core: Knowledge

The 21 Breadth of Knowledge requirements consist of four different categories; the 21 credits counted towards these categories may not overlap with a student’s first major:

- 3 Fine Arts
- 6 Humanities
- 6 Science
- 6 Social sciences

For the actual classification of Augustana courses within these categories, see Classification of Courses.

Note: The same credit may not be counted twice in courses that relate to more than one category within the Engagement and Knowledge components of the Augustana Core; that is, a total of 36 different credits must be earned to fulfill these requirements.

Major subject:

12-60 in one discipline or approved interdisciplinary area (with the minimum number of credits specified by the discipline or approved interdisciplinary area), including no more than 12 at the junior level (except when required in a discipline with a performance component or in an interdisciplinary program that requires junior courses from several different disciplines) and including a minimum of 9 at the 300- and 400-level, of which at least 3 must be at the 400-level. Normally no more than 60 in one discipline will be credited towards the degree. In some cases, a major may also require courses in one or more disciplines outside the major; these may be prerequisites for specific courses in the major and/or courses supporting the major in a more general way (up to a maximum of 24).

Note: A student should be aware that it may not be possible to complete certain combinations of majors, or combinations of majors and minors, without extending the time required to earn the degree.
Optional minor:

A minimum of ★18 in one discipline or approved interdisciplinary area, including at least ★12 at the senior level.

Options:

★0-21 (or more, depending on the amount of overlap between the core and the requirements for the major, and/or minor) of the student’s choice (see General Regulations Governing Course Selections). A student may choose to use options to work toward a minor, or second major but should be aware that a double major normally requires more than ★120 in the degree program.

Residence Requirements

Students registered in a BA program must complete at least ★60 offered by the Augustana Faculty, at least ★54 of which must be at the senior level. However, language or other study abroad may, with special permission of the Associate Dean, Academic, count toward the residence requirement. Note: Students transferring into this degree program within the framework of a Faculty-approved transfer agreement must complete ★60 of the final credits of their degree program with credits offered by the Augustana Faculty.

The minor consists of a minimum of 18 in one discipline or approved interdisciplinary area, including at least 12 at the senior level. General Information

Five majors are available in the Bachelor of Music degree program: Piano, Voice, Comprehensive, Liturgical Arts, Musical Arts:

Piano

Voice

A student whose career interests include performing and teaching piano or voice would choose one of these majors. Combining rigorous musical training, intellectual development in other disciplines, and all-round flexible thinking, the majors are able to not only prepare a student for further studies and careers in a variety of areas in music and music education, but also for entry into such diverse fields as medicine, speech-language pathology, engineering, and law. Third- and fourth-year recitals are required.

Comprehensive

A student who seeks intensive studies in an instrument or voice, but wishes to have greater flexibility in music course selections, should consider this major. Combining rigorous musical training, intellectual development in other disciplines, and all-round flexible thinking, the majors are able not only to prepare a student for further studies and careers in a variety of areas in music – for instance, performance, education, arts administration, and musicology – but also for entry into such diverse fields as medicine, speech pathology, engineering and law. Third- and fourth-year recitals, although optional, are not required.

Liturgical Arts

A student considering professional employment as a church musician, or considering graduate studies, may designate this major at the end of two-years – full-time study or part-time equivalent.

**Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana)**

**Overview**

The Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana) is offered jointly by the Augustana Faculty and the Faculty of Education as an alternative to the BSc followed by a BEd After-Degree (a six-year route). It provides less flexibility in course choice and scheduling than taking the degrees consecutively, because it is designed to meet the minimum requirements of both degrees, as well as teacher certification requirements, in five years.

The program is normally completed in five years, three years in the Augustana Faculty and two years in the Faculty of Education.

**Residence Requirement**

A student in the Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana) normally will be required to complete at least ★60 of the first ★90 of the program at the Augustana Campus while registered in the Augustana Faculty. Of the courses taken at the Augustana campus, at least ★54 must consist of courses from year 2 and year 3 of the program. In addition, at least ★60 must be completed while registered in the Faculty of Education in the final years of the program.

A student may take as many as ★108 at the Augustana Campus, but will be registered as a student in the Faculty of Education for the final ★60 of the program.

**Program Requirements**

The Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana) consists of ★102 arts and science plus ★48 Education. The ★150 in the program are made up of core and general requirements, Education requirements, a major subject, a minor subject, and options, as follows:

**Core Requirements (★36) [Augustana]**

**Part A: The Augustana Core: Foundation (★3)**

The Augustana Foundation requirement is met by the completion of one of the following courses:

- AUIDS 101 - Topics in Liberal Studies OR
- AUIDS 201 - Foundations in Liberal Studies

Note: The courses that satisfy this requirement may not overlap with the Augustana Core: Engagement and Augustana Core: Knowledge requirements in Parts B and C.

---

**Minor in Psychology**

**Requirements**

- AUPSY 103 - Introduction to Psychology

★3 from social/personality/developmental.

- AUPSY 220 - Personality
- AUPSY 240 - Social Psychology
- AUPSY 256 - Developmental Psychology

★3 from cognition/perception/physiological.

- AUPSY 263 - Memory and Cognition
- AUPSY 267 - Sensory Processes and Perception
- AUPSY 275 - An Introduction to the Brain and Nervous System

**Additional Requirements**

- ★9 additional at a senior level in Psychology. AUPSY 213 is recommended.

  - Creative and imaginative process (maximum ★6)
  - Diversity and global studies (maximum ★6)
  - Environmental sustainability (maximum ★6)
  - Experiential learning (maximum ★6)
  - Integrating Knowledge (maximum ★3)

See Augustana Chart 1 Core Engagement Requirements for lists of courses that satisfy these requirements.

Courses that satisfy these requirements may overlap with the student’s major and minor and with prerequisites and supporting courses, but not with the Augustana Core: Foundation and Augustana Core: Knowledge requirements in Parts A and C.

Part C. The Augustana Core: Knowledge (★21)

- ★3 Fine Arts: any AUART except AUART 228; any AUDRA except AUDRA 228, AUDRA 301; any AUMUS except AUMUS 22, AUMUS 375, AUMUS 475.

Options (CE-18)

- 0–18 non-Education options, depending on the number of prerequisites and supporting courses required on the selected major and minor and on the degree of overlap between the core, general, major and minor requirements.

Selection of Courses

1. The following regulations govern the degrees program:
2. A student's program must be approved by an advisor in the appropriate faculty prior to the start of each fall/winter.
3. In the 150 program, a student must complete a minimum of 148 science, 24 arts, and 48 Education. See Classification of Courses.
4. Normally, no more than 68 at the 100-level are permitted in the degree program.
5. If there is overlap between the requirements of the selected major and minor, additional courses must be taken in the area of the major and/or minor such that the total number of credits on the major and minor is 60. This provision does not apply to courses listed as prerequisites or supporting courses. The courses to be taken to compensate for the overlap in requirements between a student's major and minor subjects must be approved by the Chair of the Department of Science.

Additional information for students

Many of the Augustana Faculty's senior science courses are offered only in alternate years, and some are offered only if there is sufficient student demand.

Academic Standing and Graduation

Continuation in the Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana) requires a Fall/Winter Grade Point Average (GPA) of at least 2.3. (See Grade Point Average (GPA) regarding the rules for calculating Grade Point Average.)

A student who fails to meet the continuation requirement must withdraw from the BSc/BEd program. Such a student may transfer to another program in the Augustana Faculty, the Faculty of Education, or another Faculty, if entrance and promotion requirements for that program are met. After transfer, all requirements for the new program must be met. See Academic Standing and Graduation for academic standing regulations pertaining to the Augustana Faculty BA and BSc programs and Academic Standing and Promotional Standards for academic standing regulations for admission to the Faculty of Education BEd program.

Graduation requirements for the Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana) are specified in the Bachelor of Science (BSc)/Bachelor of Education (BEd) (Secondary) Combined Degrees Program (Augustana).

Certificates

Certificate in Community Mental Health: Theory and Practice

The Certificate in Community Mental Health: Theory and Practice is administered by the Augustana Faculty and is available to students with a major in psychology in the Augustana Faculty BA or BSc program.

This certificate will provide students with the necessary understanding and skills to work with mental health or health-related community programs. To this end, the certificate program offers training in principles of psychological health. Certificate in Writing Studies

A Writing Studies Certificate indicates a high level of achievement in written communication. Writing is a fundamental aspect of education that crosses fields, disciplines, departments and programs, and the research-teaching divide. Writing helps develop critical thinking as it allows individuals to reflect upon, understand, and learn complex new ideas. Writing enables the growth of insight into knowledge, and good writing skills are at the heart of clear, concise, and cogent communication.

Writing is, in fact, a cornerstone to nearly all postsecondary academic endeavours, and it is the integral connection between learning and discovery. Enhanced skills in written communication gained through the integration of learning and discovery, and through multidisciplinary endeavours, are necessary for the highest achievements in knowledge acquisition and translation.
