

REHAB SCIENCE GRADUATE STUDENT PROGRESS REPORT

The yearly progress report is an important mechanism for us to learn about your yearly activities, and for you to plan for the coming year. This information is used to summarize outcomes for our program, and to publicize the great work of our students.

Please fill out the form below, and append a short word document about your scholarly activity. In filling out this form, you are responsible for accuracy and completeness of the report. It is recommended that students meet with their supervisor and supervisory committee regarding their planned activities for the next academic year. The completed report, in an electronic form, is due to the Faculty of Rehabilitation Medicine, Office of Graduate Studies by April 1st. Please copy your supervisor.
