POSTDOCTORAL POSITION IN CHEMINFORMATICS
The Metabolomics Innovation Centre

The Metabolomics Innovation Centre (TMIC) is centred on the North Campus of the University of Alberta, in Edmonton, Alberta, Canada. Under the scientific direction of Dr. David Wishart, TMIC is Canada’s core metabolomics facility. A major focus of TMIC is the maintenance and development of new and improved chemical and bioinformatic resources for metabolomics analysis. Informatics resources available include a wide array of custom and commercial software and databases. This post is available immediately.

Skills required:
- PhD in cheminformatics or bioinformatics
- Experience with SMARTS, SMILES, SMIRKS and InChI
- Experience with Ruby on Rails and other web development and prototyping platforms
- Knowledge of R, Python, Perl
- Experience with server system maintenance
- Familiarity with metabolomics
- Experience with data analysis including MS and NMR spectral analysis preferred
- Familiarity with machine learning an asset

Responsibilities:
- work with a team of programmers, developers and trainees
- develop new resources
- improve existing resources
- trouble shoot issues
- draft manuscripts for publications
- mentor graduate students or junior staff
