POSTDOCTORAL POSITION IN KIDNEY HEALTH OUTCOMES RESEARCH

Dr Aminu Bello is an Associate Professor/Nephrologist, Division of Nephrology & Immunology, Faculty of Medicine & Dentistry. He is seeking for a highly-motivated and capable postdoctoral fellow with an interest in any of the following areas of clinical research: health outcomes, health systems or policy, epidemiology or public health. The successful candidate will work with Dr. Bello on several projects on improving outcomes of patients with chronic kidney disease (CKD).

The successful applicant will have relevant skills and expertise in clinical or population health research. Experience in mixed methods research is an asset. The candidate should possess good knowledge or experience of working within the healthcare systems. Experience in community-based participatory research and engagement and/or interest in implementation science is preferred. In particular, experience in working with Indigenous communities and/or Indigenous health research is a strong asset.

The successful candidate will have an opportunity to develop and extend skills in critical appraisal, drafting of grant proposals, creating analytical frameworks, and preparing manuscripts for publication.

Applicants should have a PhD/doctoral degree in epidemiology, biostatistics, health outcomes, health systems, health policy or related fields. Candidates should also have the following:

- Strong quantitative, analytical, and writing skills
- Research experience and/or publication record in the related fields
- Skills in Microsoft Office Suite (Word, Outlook, Excel, & PowerPoint)
- Excellent interpersonal, verbal and written communication skills
- Strong attention to detail, organizational, problem-solving, and decision making skills
- Demonstrated ability to work independently

This is a full-time position, contingent on satisfactory performance, is available for a period of 2 years, with possibility of renewal for a 3rd year. Applicants will be expected to apply for external fellowships (e.g. CIHR). The salary range is $50,000 - $55,000 CDN per annum (including benefits), and the successful candidate will receive university office space, use of appropriate computational services and full access to university libraries.

To Apply:
Interested applicants should submit an application consisting of a cover letter, a curriculum vitae, a sample of your writing, and contact information for three references to: Attn: Dr. Aminu Bello; aminu1@ualberta.ca Ph: 780-492-6690

Closing date:
Position open until filled
We thank all applicants for their interest; however, only those individuals selected for an interview will be contacted.

The University of Alberta is committed to an equitable, diverse, and inclusive workforce. We welcome applications from all qualified persons. We encourage women; First Nations, Métis and Inuit; members of visible minority groups; persons with disabilities; persons of any sexual orientation or gender identity and expression; and all those who may contribute to the further diversification of ideas and the University to apply.
