POSTDOCTORAL POSITIONS IN MALARIA VACCINE RESEARCH

Lab of Dr. Stephanie Yanow

Two postdoc positions are available to work on projects to develop a vaccine against malaria in pregnancy. Applicants will study mechanisms of host immunity to malaria in pregnancy and develop target antigens as vaccine candidates. Seeking applicants with skills in vaccinology, peptide chemistry, epitope mapping, immunology, biochemistry and molecular biology. Experience in malaria research is ideal but not essential.

QUALIFICATIONS:

- PhD, preferably in the biological or biochemical sciences
- Strong track record of publications
- Enthusiasm to work as part of a team
- Experience supervising undergraduate and junior graduate students
- Strong written and oral communication skills

To Apply:
Please forward your CV, transcript and contact information for three references to:
