LAB PLASTIC RECYCLING

PLEASE RECYCLE (CLEANED AND DECONTAMINATED)

Recyclable plastics include:
- Plastics contaminated with chemicals and/or biological waste must be cleaned and decontaminated before being placed in the recycling bin.

DO NOT RECYCLE

Non-recyclable plastics include:
- Items that are smaller than a fist or made with mixed materials are not accepted for recycling.
- Under no circumstance is plastic contaminated with radioisotope hazards to enter the recycle stream.
