

Bachelor of Science in Agricultural / Food Business Management
Major: Agricultural Business Management
2018-2019 Admission Requirements

Program Details: This program is for individuals interested in applying business skills and tools to management of organizations in the agriculture and food industries. Agricultural/Food Business Management graduates develop a strong understanding of business concepts and principles applied to these sectors and have a basic knowledge of the scientific processes involved. The program is offered jointly by the Faculty of Agricultural, Life and Environmental Sciences and the Faculty of Business. This major develops graduates with the abilities required of business professionals working within the agri-food industry. Graduates develop an appreciation of the importance of both scientific and economic relationships involved in agriculture. Graduates also fully understand and appreciate the business management skills needed to manage organizations effectively and efficiently within this sector.

Minimum Standards: A minimum 2.3 Admission Grade Point Average is required in preprofessional course work.

Please note: meeting the minimum standards does not guarantee admission.

Admission Requirements:

- I. Recommended Prerequisite Courses:
The minimum requirements for admission are the satisfactory completion of 24 credits.
The recommended prerequisite courses are:
 - BIOL or CHEM (★3)
 - ECON 101 and 102 (★6)
 - ENGL – Choose two of any junior level (100-level) English courses (★6).
(Students may substitute WRS 101 or WRS 102 for one junior English course).
 - Free Electives (★6)
 - MATH 114 (★3)
 - PL SC 221 (★3)
 - STAT 151 (★3)

Required Alberta High School Prerequisites (or equivalent):

- Biology 30
- Chemistry 30
- Mathematics 30-1

Deadlines:

Application Deadline: March 1, 2018
