

**Bachelor of Science in Forest Business Management
2018-2019 Admission Requirements**

Program Details: This program develops graduates with the abilities required of foresters and of business professionals. Graduates appreciate the need to manage forested areas with due concern for all resources and be capable of managing forested areas as integrated ecological entities, and also fully understand and appreciate the business management skills needed to manage organizations effectively and efficiently within the forest industry. The Forest Business Management degree prepares students for designation as a Registered Professional Forester and is for individuals planning careers focusing on forest practices, but who also seek specialized knowledge in business management practices.

Minimum Standards: For consideration, you need a minimum 2.3 Admission Grade Point Average. Admission to the BSc Forest Business Management program requires a minimum of 24 credits of university transferable courses. You may complete the preprofessional requirements in the BSc Forestry program, other Faculty or program, or other postsecondary institution.

Please note: meeting the minimum standards does not guarantee admission.
