Tips for Creating Your Timetable

- 1. Create a balanced timetable:** Do not register for more than three courses with attached labs; you will have lab assignments and exams in addition to regular coursework.
- 2. Make sure to check prerequisites:** Some classes will need you to present certain prerequisite courses prior to taking them. *This information can be found in the course descriptions on Bear Tracks or in the Calendar.*
- 3. If the class you want is full:** Simply put the class on your "Watch List" (found on Bear Tracks). You will be notified via email or text message if a spot becomes available in the class.
