1.3 Conflict of Interest – Opportunity for Declaration related to Agenda

The Chair made note of the following:

- The University of Alberta has policy and procedure in place for Conflict of Interest and Conflict of Commitment, and Board members make annual disclosures.
- In addition, Board members must declare any conflict related to the Board Agenda of each meeting and, in the event of such conflict, absent themselves from the discussion and voting on the item.
- The Post-Secondary Learning Act, Section 16(5) states that: *The members of the board must act in the best interests of the university.*

The Chair invited members to declare conflicts of interest related to the Open Session Agenda of the meeting. The Chair observed no declarations and declared that the question was duly asked and answered.

1.4 Chair’s Remarks

The Chair recognized and thanked the following retiring Board and External Committee members for their contributions: Dr Ashlyn Bernier; Mr Jim Hole, Mr Colten Yamagishi, Ms Kelly Baptista Wyatt; and Mr Brian Hesje. He noted that Mr Brent Epperson, President, Graduate Students’ Association, had received his Ministerial Order and welcomed him as a voting member of the Board. Mr Petros Kusmu, President, Students’ Union had not received his Ministerial Order so he joined the meeting as an observer.

The Chair congratulated President Samarasekera who had recently received an honorary degree from Western University for being internationally recognized as one of Canada’s leading metallurgical engineers, and devoting her career to advancing innovation in higher education and the private sector. He also
congratulated her for being awarded an American Institute of Mining, Metallurgical and Petroleum Engineers Honorary Membership.

The Chair read the following statement regarding the Tuition freeze and how the Provincial Government's direction will be implemented, asking that the Board Secretary record this statement in the Minutes of the meeting:

“On April 18, 2013, the Provincial Government announced the tuition rate for 2013-2014 would be frozen. I am bringing the Government's direction to the Board who voted to increase tuition at its December 2012 Board meeting. To date, the University of Alberta has not received formal notification regarding the freeze. However, the direction has been set by the Government and now needs to be implemented by the University. The Government has pledged to cover the annual 2.15% tuition increase tied to the annual rate of inflation for the upcoming academic year.”

Board Strategic Planning Retreat Debriefing and Next Steps

Presenter: Doug Goss, Chair, Board of Governors

Discussion:
The Chair thanked members for their passion for the University, and for the time they invested to get to the results achieved during the Board Strategic Planning Retreat. He remarked on the unanimous decision that the Board of Governors stand united in its commitment to excellence across the institution and firmly endorses the University of Alberta’s aspirations to compete with the best public research and teaching intensive universities in the world. The Board charged President Samarasekera to continue to lead the University through a transformative process in fulfillment of the long-term vision and mission of the University. The Retreat provided an opportunity to discuss the strategic direction for the next decade along with the immediate steps university leadership must take to ensure continued excellence in light of the cuts made to the institution’s operating budget.

The Chair also reported that, following the Retreat, he has continued to share the message with Government and community leaders, Senators, other Board Chairs and governors, and Alumni. He encouraged members to continue to send the message about the value of an investment in education being of significant benefit to the public good.

2. Report of the President

Materials before members are contained in the official meeting file.

In addition to her written report, the President provided comments on the following matters:

- The University’s Budget: the Principles for achieving a sustainable budget have been drafted and will go through the bi-cameral governance process for input and approval. The focus is on preserving the strength of the institution and its vision of excellence while achieving a sustainable budget. All decisions will be made in a timely way, and communication with University stakeholders will be frequent and open. The university will honour its mission and its vision as a comprehensive academic research intensive university with national and international impact, and resource allocation will favour those
academic programs with demonstrable excellence in research and undergraduate, professional and graduate education. Jobs losses will be minimized where possible. The University will remain committed to the priorities identified in Dare to Deliver and new resources will be developed in support of its mission. The University will continue to identify efficiencies wherever possible to maximize use of resources.

- Draft Memorandum of Understanding to Government: the Letters of Expectation have been discussed with the Government and it is clear that they will effectively become memoranda of understanding in terms of the roles, responsibilities and mandates for each institution within sectors and the overall system. The institutions have been given the time to redraft the document—at least until the beginning of the new academic year. Presidents have requested a deadline of October 31, 2013. Budget details will be removed from the next draft and circulated for feedback from the community prior to beginning the governance process. The document will be signed by both the President and the Board Chair.

- Meeting with Alberta Post-Secondary Education Presidents: Two productive meetings have taken place, resulting in two important outcomes of these meetings. The Presidents established areas of joint concern, including the need for re-investment; the potential re-opening of the Alberta Post-Secondary Learning Act, the Memoranda of Understanding, transfer and Mobility, and the Campus Alberta Quality Council. The Presidents also agreed on the value of having a collective voice and making joint presentations/recommendations to the Government.

- Update on the Comprehensive Institutional Plan (CIP): the CIP will make its way through the regular governance channels in anticipation of its submission to the Government. In response to the recent budget, the Budget chapter was rewritten, while the rest of the document remains mostly unchanged.

- Recent University of Alberta awards and achievements, including:
  - Killam Award recipients: Lorne Babiuk (Vice-President of Research) and Vitold Pedrycz (Vit-OLD Pet-TRICH) have been named winners of the 2013 Killam Prizes. The Killam Prizes are Canada’s leading awards for career achievements in the fields of health sciences, social sciences, engineering, natural sciences and humanities.
  - Canada Gairdner International Award: Michael Houghton, Li Ka Shing Chair of Virology, and our Canada Excellence Research Chair in Virology, was named recipient of the Canada Gairdner International Award, one of the world’s most prestigious awards in biomedical science.
  - International Award for Academic Information and Communication Technologies (AICT): AICT was recognized for their excellence in IT service management. They received the project of the year award at the 16th annual IT Service Management Conference and Exhibition.
  - Senior Women Academic Administrators of Canada Recognition Award: Dean of Extension, Katy Campbell, received the Senior Women Academic Administrators of Canada Recognition Award for demonstrating innovative leadership in advancing the mission of, and achieving outstanding contributions to, their institution and/or to higher education.
  - Alberta Order of Excellence: Board Chair, Doug Goss, and distinguished scholar in residence in the Alberta Institute of American Studies, Anne McLellan, both received Alberta’s highest honour, the Alberta Order of Excellence.
  - Canada Excellence Research Chairs (CERC) Summit: the University is hosting the 2013 CERC Summit, which will provide a forum for chairholders from across the country to network and present updates on their research. The University has three CERC chairs: Michael Houghton (Virology), Graham Pearson (Arctic Resources) and Thomas Thundat (Oil Sands Molecular Engineering).

The President responded to questions from members regarding the following matters: the timing regarding the Draft Memorandum of Understanding coming before the Board; the deadline for the Comprehensive Institutional Plan; why concerns might exist regarding re-opening the Post-Secondary Learning Act; what were the guiding principles regarding the budget letters recently delivered to the Faculties; and whether the recently announced restructuring of the National Research Council would impact the University.
