5a. *New Budget Model*

Materials before members are contained in the official meeting file.

*Presenter(s):* Steven Dew; Gitta Kulczycki

*Discussion:*

Mr Tobert introduced the item and reviewed consultation on the Budget Model to date, noting that it will be implemented in Fall 2019. He provided an update on how the proposed model allocates funds based on activity levels, where the university currently is in the process, and work still to be done.

The President, Dr Dew, and Ms Kulczycki responded to questions from the Board regarding: how the budget model will affect the university’s efforts to be more interdisciplinary and collaborative, particularly as it relates to cost allocation for space-utilization; how the new model will allow the university to improve quality and focus on centres of excellence; whether it would be possible to summarize risks associated with the new model; whether administration has researched potential impacts on the full university community; whether, in an activity-based model, matrices have been developed to address funding for research; how the Strategic Investment Fund money will be allocated; whether funding would be allocated for community engagement; the increasing number
of online courses and how that may affect public perception and educational space requirements; how this model compares with those of similar provincial, national, and international institutions; whether it would be possible to conduct a SWOT analysis of the new model; how the model will evolve and be assessed going forward; plans to mitigate the possibility of students being squeezed into spaces; and how new legislation on fees and market modifiers will be worked into the budget model going forward.

Following the discussion, Mr Tobert thanked Administration for their work on the new budget model and suggested that they provide an update on implementation of the new model at future Board Finance and Property Committee and Board of Governors’ meetings.

**DISCUSSION & ACTION ITEMS**

6. *Implementation of Recommendations of the 2018 Board Working Group*

6a. **Board Ad Hoc Group on Committee Mandates and Membership:**
   - **ACTION: Principles to Guide Board Committee Composition**
   - **ACTION: Board Standing Committee Composition Frameworks**
   - **ACTION: Board Standing Committee Mandate Statements**
   - **Update: Limitations on delegation by the Board of Governors for Board Standing Committees**

Materials before members are contained in the official meeting file.

**Presenter(s): Michael Phair**

**Purpose of the Proposal:** To seek Board of Governors approval of principles to guide future decisions regarding standing committee composition and of committee composition frameworks and mandate statements to be incorporated into future revised committee Terms of Reference.

**Discussion:**
The Chair reviewed the recommendations of the Board Ad Hoc Group on Committee Mandates and Membership (BAGMM). He briefed the Board on the proposed *Principles for Board of Governors Standing Committee Composition*, indicating that this revised proposal addresses concerns raised at the October Board meeting regarding conditions guiding the selection of committee Chairs.

The motion was moved and seconded.

**Motion 1:** THAT the Board of Governors, on the recommendation of the Board Ad Hoc Group on Committee Mandates and Membership, approve the proposed *Principles for Board of Governors Standing Committee Composition*, as set forth in Attachment 1, effective immediately, to guide decisions regarding the composition of Board standing committees.  

CARRIED

The Chair then reviewed the proposed Board standing committee composition frameworks, noting that recommended changes include less explicit membership categories, reflective of the principles’ commitment to diversity and broad representation, as well as an opportunity for all committees to include external members of the public in their membership, as needed.

The motion was moved and seconded.

**Motion 2:** THAT the Board of Governors, on the recommendation of the Board Ad Hoc Group on Committee Mandates and Membership, approve the proposed Board Standing Committee Composition Frameworks, as set forth in Attachment 2, effective upon future approval of revised committee Terms of Reference (with the exception of the Board Governance Committee for which changes can be effective immediately).  

CARRIED
The Chair then provided an overview of the proposed Board standing committee mandate statements, noting that feedback from the committees’ review of these recommendations had been incorporated into the final proposal. He indicated that each statement reflects the Board-approved future restructuring of its committees as well as the Board’s desire to provide strategic foresight and insight in addition to oversight.

The motion was moved and seconded.

**Motion 3: THAT the Board of Governors, on the recommendation of the Board Ad Hoc Group on Committee Mandates and Membership, approve the proposed Board Standing Committee Mandate Statements, as set forth in Attachment 3, effective upon future approval of revised committee Terms of Reference (with the exception of the Board Governance Committee for which changes can be effective immediately).**

CARRIED

Following approval of those proposals, the Chair provided an update on BAGMM’s work related to Board delegation of authority to its committees. He noted that while BAGMM reviewed and proposed changes to each committee’s limitations of delegated authority, final approval and implementation of any changes would remain a work in progress. He indicated that some changes would come forward for Board approval as part of the revised committee Terms of Reference in Spring 2019, while others were currently being worked on by Administration for Board approval at upcoming meetings.

The President then briefed the Board on work underway regarding certain delegations of authority, noting that at the March Board meeting, Administration planned to bring forward a recommendation regarding financial thresholds for the future approval of tuition and fees.

At this point, the Chair reminded members that the Board Governance Committee Terms of Reference had been approved at the October Board meeting, and thanked those Board members who had agreed to serve as inaugural members of the committee. He noted that the committee would begin meeting in early 2019, and distributed, for members’ review and feedback, an outline of his initial thoughts regarding potential committee membership changes for the other Board standing committees.

Finally, the Chair briefed the Board on next steps in the process, indicating that a consultant would be hired to review and propose changes to current Board Committee Terms of Reference, based on Board-approved principles and documents. He indicated that the proposed Terms of Reference would then go to the standing committees for review, with final Board approval planned for Spring 2019.

**Discussion:**

Ms Somani provided an update on the Board Safety, Health and Environment Committee’s efforts in transitioning its mandates and responsibilities to the Board Audit and Risk Committee (for the environment, safety and security items) and the Board Learning and Discovery Committee (for the student health and wellness items). She informed the Board that over the coming months, the committee would use some of its meeting time to oversee this transfer of responsibilities, and noted the proposed timeline and recommendations outlined in the attached material.
6c. **Update: Review of Process for Board Oversight of Enterprise-wide Risk Management**

*Presenter(s):* Dominique Grégoire

**Purpose of the Proposal:** For information/discussion.

**Discussion:**
Ms Grégoire briefed the Board on progress related to the review of processes for Board oversight of enterprise-wide risk management (ERM). She indicated that she and the committee Vice-Chair were working with administration on a proposal that would include: increased focus on emerging risks and opportunities; changes to Board standing committee engagement in enterprise-wide risk management (ERM) oversight; and opportunities for Board and committee education sessions on the ERM framework, processes, and their governance role.

The Board Chair and Board Audit and Risk Committee Vice-Chair responded to questions from the Board regarding how other committees’ perspectives on specific risks would be integrated into the Board Audit and Risk Committee’s discussions; and how opportunities would be addressed in conjunction with risk.
