The following Motions and Documents were considered by the GFC Academic Planning Committee at its January 11, 2012 meeting:

---

**Agenda Title:** Faculty of Medicine and Dentistry Proposed Changes to Existing Quota Provisions for the Doctor of Medicine (MD) Degree Program

**APPROVED MOTION:** THAT the GFC Academic Planning Committee recommend to the Board of Governors, under delegated authority from General Faculties Council, proposed changes to existing quota provisions for the Doctor of Medicine (MD) Degree Program, as submitted by the Faculty of Medicine and Dentistry and as set forth in Attachment 1, for implementation in 2012-2013.

Final Recommended Item: 4

---

**Agenda Title:** Proposal for a Master of Business Administration (MBA)/Bachelor of Science (BSc) in Pharmacy Combined Degrees Program

**APPROVED MOTION:** THAT the GFC Academic Planning Committee approve, under delegated authority from General Faculties Council, a proposed (new) Master of Business Administration (MBA)/Bachelor of Science (BSc) in Pharmacy Combined Degrees Program, as submitted by the Faculty of Graduate Studies and Research, the Alberta School of Business, and the Faculty of Pharmacy and Pharmaceutical Sciences and as set forth in Attachment 1, to take effect September, 2012.

Final Item: 5

---

**Agenda Title:** Proposal for a Master of Coaching (MCoach) Degree Program Offered by the Faculty of Physical Education and Recreation

**APPROVED MOTION:** THAT the GFC Academic Planning Committee recommend to the Board of Governors, under delegated authority from General Faculties Council, the proposed (new) Master of Coaching (MCoach) degree program, as submitted by the Faculty of Graduate Studies and Research and the Faculty of Physical Education and Recreation and as set forth in Attachment 1, to take effect in September, 2012.

Final Recommended Item: 6

---

**Agenda Title:** School of Dentistry – Proposed New Alternate Name for the Department of Dentistry

**APPROVED MOTION:** THAT the GFC Academic Planning Committee approve, under delegated authority from General Faculties Council, the proposed new alternate name for the Department of Dentistry—the ‘School of Dentistry’—for marketing and branding purposes, as submitted by the Faculty of Medicine and Dentistry and as set forth in Attachment 1, to take effect upon final approval.

Final Item: 7

Notes

The following definition of ‘Rural Applicants’ is extracted from the University of Alberta’s ‘Application for Admission’: “The University of Alberta Medical Program has initiated a rural application process and will be accepting candidates who fit rural criteria as follows. The rural applicants will have lived greater than 5 years in a community with a population of less than 25,000 (and in some cases from 25,000 to 50,000) and a distance of greater than 80 km from a city whose population exceeds 50,000 people.”

Alignment/Compliance

<table>
<thead>
<tr>
<th>Alignment with Guiding Documents</th>
<th>Dare to Discover Values: to provide an intellectually superior educational environment; integrity, fairness, and principles of ethical conduct built on the foundation of academic freedom, open inquiry, and the pursuit of truth</th>
</tr>
</thead>
</table>
| Compliance with Legislation, Policy and/or Procedure Relevant to the Proposal (please quote legislation and include identifying section numbers) | 1. Post-Secondary Learning Act (PSLA): The PSLA gives GFC responsibility, subject to the authority of the Board of Governors, over academic affairs. Further, the PSLA gives the Board of Governors authority over certain admission requirements and rules respecting enrolment.  
2. GFC Policy: Section 50.5 (Enrolment Management/Aboriginal Admissions) of the GFC Policy Manual states: “The University of Alberta is committed to the recruitment, retention and graduation of Aboriginal students’ study towards a degree. The University also recognizes that
Aboriginal applicants have traditionally been underrepresented in higher education and has adopted the Aboriginal Student Policy (see Section 108.13) with a view to having the University’s Aboriginal student population attain a level that is at least proportionate to the Aboriginal population of the province. (GFC 27 MAY 2002) (BG 30 MAY 2002) (GFC 22 MAR 2004)

In order to facilitate appropriate representation of Aboriginal students on campus, additional qualified applicants may be considered over and above the Aboriginal students who are admitted in the regular competition for places in a Faculty. Aboriginal applicants (see Section 11.9) who wish to be considered for such additional places must attain the minimum admission requirements of their chosen program as prescribed by the University and its Faculties and Schools. To assist the University in achieving this overall goal, Faculties are encouraged to set aside places specifically for aboriginal applicants, the number being consistent with the available pool, student interests, and available teaching and learning support services. (GFC 22 MAR 2004)

Aboriginal enrollment in each Faculty will be detailed in an annual report provided by the Registrar’s Office, and monitored and evaluated by the Office of the Provost and Vice-President (Academic). (GFC 22 MAR 2004)

The University shall encourage Faculties to identify other significantly under-represented groups with a view to having the student population broadly representative of the public the University serves.”

3. **GFC Academic Planning Committee (APC) Terms of Reference:**
According to the GFC Academic Planning Committee’s Terms of Reference (Section 3.3.c), APC “recommend[s] to the Board of Governors on changes to existing quotas for individual Faculties or programs.”

4. **Board Learning and Discovery Committee Terms of Reference:**
According to the Board Learning and Discovery Committee’s Terms of Reference (Section 3): “[T]he Committee shall monitor, evaluate, advise and make decisions on behalf of the Board with respect to matters concerning the educational affairs of the University, including proposals coming from the administration and General Faculties Council (the ‘GFC’), and shall consider future educational expectations and challenges to be faced by the University. The Committee shall also include any other matter delegated to the Committee by the Board.

Without limiting the generality of the foregoing[,] [sic] the Committee shall: […]

e. Review and approve the establishment, modification and removal of enrollment quotas and annual review such quotas[,] […]”
Routing (Include meeting dates)

| Consultative Route  | Faculty of Medicine and Dentistry – Discussion;

Alignment/Compliance

| Alignment with Guiding Documents | Aligns with Dare to Deliver and Dare to Discover values: enrich the student experience; foster new joint degree programs that unite academic units/professional schools; promote interdisciplinary collaboration, create learning opportunities for students and creative collaborations to address global challenges and initiatives; provide an intellectually superior educational environment for students; diverse, yet |

1. **Post-Secondary Learning Act (PSLA):** The PSLA gives GFC responsibility, subject to the authority of the Board of Governors, over academic affairs (Section 26(1)). Further, the PSLA gives the Board of Governors authority over certain admission requirements and rules respecting enrolment (Section 60(1)(c) and (d)). The Board has delegated its authority over admissions requirements and rules respecting enrolment to GFC. GFC has thus established an Academic Standards Committee (ASC).

2. **PSLA:** GFC may make recommendations to the Board of Governors on a number of matters including the budget and academic planning (Section 26(1)(o)). GFC delegates its power to recommend to the Board on the budget and on new or revised academic programs to the GFC Academic Planning Committee (APC).

3. **PSLA:** The PSLA gives Faculty Councils power to “provide for the admission of students to the faculty” (29(1)(c)).

4. **PSLA:** The PSLA gives Faculty Councils the authority to “determine the programs of study for which the faculty is established” (Section 29(1)(a)); to “provide for the admission of students to the faculty” (Section 29(1)(c)); and to “determine the conditions under which a student must withdraw from or may continue the student’s program of studies in a faculty” (Section 29(1)(d)).

5. **UAPPOL Admissions Policy:** “Admission to the University of Alberta is based on documented academic criteria established by individual Faculties and approved by GFC. This criteria may be defined in areas such as subject requirements, minimum entrance averages, and language proficiency requirements. In addition to academic requirements for admission, GFC authorizes each Faculty to establish such other reasonable criteria for admission of applicants as the Faculty may consider appropriate to its programs of study, subject to the approval of GFC (e.g. interview, audition, portfolio, etc.) The admission requirements for any Faculty will be those approved by GFC as set forth in the current edition of the *University Calendar*. In addition to the admission requirements, selection criteria for quota programs, where they exist, will also be published in the current edition of the *University Calendar*.

The responsibility for admission decisions will be vested in the Faculty Admission Committees or in the Deans of the respective Faculties, as the councils of such Faculties will determine.”

6. **UAPPOL Admissions Procedure:**

**PROCEDURE**

1. EFFECTIVE DATE OF CHANGES TO ADMISSION REGULATIONS

Following approval by GFC:
a. Where changes to admission regulations may disadvantage students in the current admission cycle, normally implementation will be effective after the change has been published in the University Calendar for one full year (i.e., effective the second year that the information is published in the University Calendar). […]

b. Where changes to admission regulations are deemed by the approving body to be “advantageous to students”, normally the date of implementation will be effective immediately or at the next available intake for the admitting Faculty.

7. UAPPOL Academic Standing Policy: “All current academic standing regulations, including academic standing categories, University graduating standards and requirements for all individual programs will be those prescribed by Faculty Councils and GFC as set forth in the University Calendar.”

8. UAPPOL Academic Standing Regulations Procedures: “All proposed new academic standing regulations and changes to existing academic standing regulations will be submitted by the Faculties or the Administration to the Provost and Vice-President (Academic). Faculties will also submit to the Provost and Vice-President (Academic) any proposed changes to the use and/or computation of averages relating to academic standing, including promotion and graduation.

If the Provost and Vice-President (Academic) determines the proposal to be in good order, the proposal will be introduced to the appropriate University governance process(es). In considering these proposals, governance bodies will consult as necessary with the Faculties and with other individuals and offices.

Normally, changes become effective once they are approved by GFC or its delegate and are published in the University Calendar.”

9. GFC Academic Standards Committee (ASC) Terms of Reference (Mandate): The Office of the Provost and Vice-President (Academic) has determined that the proposed changes are substantial in nature. ASC’s terms of reference provide that “the term ‘substantial’ refers to proposals which involve or affect more than one Faculty or unit; are part of a proposal for a new program; are likely to have a financial impact; represent a definite departure from current policy; involve a quota; articulate a new academic concept” (3.A.ii).

Further, “ASC provides advice or recommends to the GFC Academic Planning Committee (APC) on proposals which involve substantial change to admission/transfer regulations or academic standing.” (3.B.iv)

10. GFC Academic Planning Committee (APC) Terms of Reference (Mandate): GFC delegated the following to GFC APC, the Provost and Vice-President (Academic) and the Dean of FGSR:

“Existing Undergraduate and Graduate Programs:
- Extension and/or Substantive Revision of Existing Programs
- Revisions to or Extension of Existing Degree Designations

All proposals for major changes to existing undergraduate and graduate programs (eg, new degree designation, new curriculum) shall be submitted to the Provost and Vice-President (Academic).

[...] The Provost and Vice-President (Academic), after consultation with relevant Offices, committees or advisors[,] will place the proposal before APC. APC has the final authority to approve such proposals unless, in the opinion of the Provost and Vice-President (Academic), the proposal should be forwarded to GFC with an attendant recommendation from APC. [...]” (3.13.)

11. **PSLA**: “The Campus Alberta Quality Council may inquire into and review any matter relating to a proposal to offer a program of study leading to the granting of an applied, baccalaureate, master’s or doctoral degree other than a degree in divinity.” (Section 109(1))

### Attachments:

- Attachment 1 (pages 1 – 7): Proposal for a Master of Business Administration (MBA)/Bachelor of Science (BSc) in Pharmacy Combined Degrees Program – Template A (with GFC ASC-Recommended Proposed Admission/Transfer and Academic Standing/Graduate Requirements (Highlighted in Yellow))

**Prepared by:** René Poliquin, Vice-Dean, Faculty of Graduate Studies and Research, rene.poliquin@ualberta.ca
Program Approval Template A

Program changes are essential to program viability and maintenance of program quality and service to both the student and society. They flow from institutional vigilance and continued review of the needs of society and students. They are also carefully monitored for quality through established institutional processes (see *Quality Assurance at Alberta’s Universities*).

This template is a common form that will be used for central vetting and approval at Alberta’s public universities, and then submitted to Alberta Advanced Education for approval, in some cases after consultation with the Campus Alberta Quality Council (CAQC). Both reserve the right to ask for further information or clarification. (Note that individual universities have been permitted to develop their own version of the Template, which may list additional questions after the set of common ones.).

This Template applies to

- Program requirement FLE (full-load equivalents) and load weight changes above 5%
- Major/specialization title changes (eg, History to Historical Studies)
- Minor degree title changes (eg, BSc Nutrition to BSc Nutritional Science)
- Short-term suspensions (note: add an enrolment projection table)
- Terminations (note: add an enrolment projection table)
- For-credit certificate and diploma changes

### Basic Information

1. **Title of the program:** The existing pharmacy (BSc) and Master of Business Administration (MBA) programs will be offered as a combined program and will be referred to as the **MBA/BSc in Pharmacy Combined Degrees Program**. If, at some future time, the doctor of pharmacy (PharmD) should supplant the BSc in pharmacy (both degrees involve a 4-year program, the difference is in an additional year of prerequisites for the PharmD), the combined degree program will continue as described in this proposal with the exception of awarding a PharmD instead of BSc.

2. **Proposed start date:** Fall 2012

3. **Length of the program (years):** Five years

4. **University and academic unit:**
   - University of Alberta
     a) Faculty of Pharmacy & Pharmaceutical Sciences; and
     b) Faculty of Graduate Studies and Research, Department: Alberta School of Business

5. **Collaborating partners at other institutions:** N/A

6. **Contact person, with telephone number and e-mail address:**
   - Faculty of Pharmacy & Pharmaceutical Sciences:
     a) Dr. James P. Kehrer, Dean, 780-492-1685, kehrer@pharmacy.ualberta.ca
     b) Theresa Schindel, Associate Dean, 780 492-6134, tschindel@pharmacy.ualberta.ca
   - Alberta School of Business:
     a) Dr. Tom Scott, Acting Dean, 780 492-2350, tomscott@ualberta.ca
     b) Dr. Joan White, Associate Dean, 780 492-5412, jwhite@ualberta.ca

Completed/proposed approval path: 1) School of Business; 2) Faculty of Pharmacy & Pharmaceutical Sciences; 3) Faculty of Graduate Studies and Research; 4) Academic Standards Committee (ASC); 5) Academic Planning Committee (APC) on delegated authority of the General Faculties Council; 5) For notification: Alberta Advanced Education and Technology

7. **Attach proposed program and course University Calendar changes and other supporting documentation. Appendix B.**
Program Impact and Rationale

8. Describe the nature of the change.

The MBA/BSc in Pharmacy program recognizes that there is an increasing demand for pharmacists with management skills and expertise. The combined program combines the four-year pharmacy degree with the Master of Business Administration degree. The combined degree program requires five years of study. Upon successful completion of the combined program, graduates will receive both an MBA and pharmacy degree at the conclusion of the five-year period. There are no changes to the pharmacy degree requirements other than adding an extra year to the overall time; allowing a break between year three and year four of pharmacy studies to allow the student to complete the requirements for the MBA. As with other combined MBA programs (e.g., MD/MBA), the MBA requirements are reduced from 57 credits to 42 credits.

9. What is the rationale for the proposed change?

The MBA/BSc in Pharmacy program targets a select group of pharmacy students who recognize the value of combining pharmacy studies with management skills and expertise. The combined degree program develops pharmacist managers capable of pursuing careers that balance clinical care with managing change in a healthcare environment. Improving patient outcomes in a cost-effective manner is one of the most critical challenges in health care today. Individuals grounded in both business management and clinical skills provide an increasingly important and unique interface between practitioners and managers to balance clinical decision making with bottom line financial realities. Graduates will have the ability to pursue careers in a wide range of healthcare areas, from private businesses, to small clinics, to large tertiary healthcare facilities.

There are no changes to the degree requirements for the pharmacy program. However, by formalizing the combined MBA/BSc in Pharmacy Program, pharmacy students are able to hold their spot to continue their pharmacy studies. Otherwise, pharmacy students who take a leave from their pharmacy studies to pursue the MBA are not guaranteed that they can continue with their pharmacy studies.

The requirements for the MBA degree are reduced from 57 credits to 42 credits. This reduction in credit requirements is already in place for other MBA combined degrees (e.g. MBA/JD, MD/MBA). Currently, under existing Faculty of Graduate Studies and Research policy, there is the option to request, on a case-by-case basis, a credit load reduction. “Up to ¼ of the total units of course weight for the program may be met through transfer credit and/or course exemption” (Calendar §203.5l). However, it is difficult to market the credit reduction due to the case-by-case nature of this option, and it is inefficient to manage.

The MBA degree requirements would include the core business foundations, the MBA capstone and three elective courses.

Each year, one or two students are admitted to the MBA Program who have recently completed their pharmacy studies. A number of inquiries are received each year by both the Faculty of Pharmacy & Pharmaceutical Sciences and the School of Business about the possibility of a combined MBA/BSc in Pharmacy program. Students interested in the combined degree are typically stronger students and would allow the Faculty of Pharmacy & Pharmaceutical Sciences to be more competitive in attracting these exceptional students.

Many institutions have recognized the need for healthcare leaders who are educated in pharmacy and management. The University of Alberta would be the first in Canada to implement a combined MBA/BSc in Pharmacy degree. However, at least 16 universities in the USA have such a program including Minnesota, Ohio State, and North Carolina.

Formalizing the MBA/BSc in Pharmacy program will make it easier to market the program to potential students. We anticipate no growth overall in the pharmacy or MBA programs. Our primary goal is to meet the needs of these students and to attract outstanding students to the programs.

10. Provide the expected enrolment (or other) impact on the academic unit(s) offering the program and other affected units if applicable. Include current enrolment.

No growth is projected in either the pharmacy or MBA program. Pharmacy students are reluctant to take a leave from the pharmacy program to complete the MBA due to the uncertainty in being able to re-join the pharmacy program. In the MBA program, students have typically completed their pharmacy degree prior to entering the MBA Program.
11. Do you anticipate an enrolment (or other) impact on programs at other institutions or regulatory bodies? Describe any consultations that have occurred with other institutions and professional organizations.
N/A

12. Are there any resource implications (budget, information technology (IT), library (Library Impact Statement), laboratory, space, student services, administrative services (e.g. Registrar’s Office) as applicable) for the proposed change? If so, please provide detail and evidence of consultation with affected unit(s) and/or appropriate University officers/committees.
There is no projected increase in enrolment in either the pharmacy or MBA program and, therefore, no changes to resource requirements. A Library Impact Statement is attached (Appendix C.)

<tr>
<td>The Faculty of Pharmacy and Pharmaceutical Sciences and the Faculty of Business offer a program of combined study that permits highly qualified students to earn both the BSc in Pharmacy and the MBA degrees in five years.</td>
<td></td>
</tr>
</tbody>
</table>
Each student must apply to the Faculty of Pharmacy and Pharmaceutical Sciences for admission into the BSc in Pharmacy program. Students that have completed the second year of the regular BSc in Pharmacy program are eligible to apply to the Faculty of Graduate Studies and Research for the Combined Degrees program and must indicate on their online graduate application that they are applying to the combined MBA/BSc in Pharmacy program.

**Entrance Requirements**

Acceptance by the Faculty of Graduate Studies and Research (for admission into the MBA program) and by the Faculty of Pharmacy and Pharmaceutical Sciences (for admission into the BSc in Pharmacy program) separately are prerequisites for admission into the MBA/BSc in Pharmacy Combined Degrees program. Admission into each Faculty will be determined by the same selection process and criteria as for other students. In addition, each student must be admitted into the Combined Degrees program, admission will be determined by a selection committee composed of representatives of the Faculty of Pharmacy and Pharmaceutical Sciences and the Faculty of Business. Because this is a special program, particular attention in the selection process will be given to:

1. the student's past academic achievement;
2. the student's maturity, interest and a rationale of how such a combined program will enhance the student's career and professional skills

(U of A Calendar, §205.9.2)

**Program Requirements**

The first three years are taken entirely within the BSc in Pharmacy program, the fourth year entirely within the MBA program, the fifth year (final year) will be completed entirely in the BSc in Pharmacy program. The pharmacy portion of the program consists of the normal requirements of the BSc in Pharmacy program while the Business portion of the program consists of *42.

**MBA courses:** students who obtain a grade of less than C+ or who fail to complete one of the MBA courses may, upon the recommendation of the Associate Dean (MBA), with the approval of the Faculty of Graduate Studies and Research, retake the course(s) or take an alternate course(s). Students repeating or taking an alternate course(s) must obtain a minimum grade of C+ and must maintain a cumulative grade point average of 2.7 (U of A Calendar, §203.8.2).

Upon the successful completion of the five-year
Calendar Current | Calendar Proposed
--- | ---

program (i.e., successful completion of both the BSc in Pharmacy and the MBA degrees), candidates will receive both the BSc in Pharmacy and the MBA degrees. The MBA degree will not be conferred prior to the completion of the BSc in Pharmacy.

Inquiries regarding the MBA/BSc in Pharmacy Combined Degrees program may be directed to the Associate Dean for Undergraduate Programs in the Faculty of Pharmacy and Pharmaceutical Sciences, or the MBA Office in the Faculty of Business.

**Academic Standing**

A student is subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty in which the student is registered.

If a student withdraws from the MBA program or is required to withdraw because of unsatisfactory academic standing, but wishes to remain in the BSc in Pharmacy degree program, the student may be permitted to continue provided the student retains good academic standing in that program.

**Length of Program**

Students enrolled in the combined program on a full-time basis can complete the program in five calendar years. The duration of the total program must not exceed six consecutive calendar years.

---

140 Faculty of Pharmacy and Pharmaceutical Sciences

143.3 Academic Standing

143.3.1 Academic Standing and Promotion

(3) Promotion and/or Continuation

a. Progression in the program is year by year and not by courses completed. Accordingly, all students in a particular year of the program normally should be registered in the same courses in each term (§144.1.) Students will not normally register in any core (i.e., non-elective) courses from a particular year of the program until they have satisfactorily completed core courses from the previous year of the program.

(3) Promotion and/or Continuation

a. Progression in the program is year by year and not by courses completed. Accordingly, all students in a particular year of the program normally should be registered in the same courses in each term (§144.1.) Students will not normally register in any core (i.e., non-elective) courses from a particular year of the program until they have satisfactorily completed core courses from the previous year of the program.

Students accepted into the MBA/BSc in Pharmacy...
Combined Degrees program will be permitted to delay entrance into the fourth year by one year with no loss in standing. The duration of the total MBA/BSc in Pharmacy Combined Degrees program must not exceed six consecutive calendar years from the time of admission to the Pharmacy program.
OUTLINE OF ISSUE

Agenda Title: Proposal for a Master of Coaching (MCoach) Degree Program Offered by the Faculty of Physical Education and Recreation

Motion: THAT the GFC Academic Planning Committee recommend to the Board of Governors, under delegated authority from General Faculties Council, the proposed (new) Master of Coaching (MCoach) degree program, as submitted by the Faculty of Graduate Studies and Research and the Faculty of Physical Education and Recreation and as set forth in Attachment 1, to take effect in September, 2012.

Alignment/Compliance

| Alignment with Guiding Documents | Aligns with *Dare to Deliver* and *Dare to Discover* values: enrich the student experience; foster new joint degree programs that unite academic units/professional schools; promote interdisciplinary collaboration, create learning opportunities for students and creative collaborations to address global challenges and initiatives; provide an intellectually superior educational environment for students; diverse, yet inclusive, dynamic collegial community that welcomes change. |
| Compliance with Legislation, Policy and/or Procedure Relevant to the Proposal (please quote legislation and include identifying section numbers) | 1. *Post-Secondary Learning Act (PSLA)*: The PSLA gives GFC responsibility, subject to the authority of the Board of Governors, over academic affairs (Section 26(1)). Further, the PSLA gives the Board of Governors authority over certain admission requirements and rules respecting enrolment (Section 60(1)(c) and (d)). The Board has delegated its authority over admissions requirements and rules |
respecting enrolment to GFC. GFC has thus established an Academic Standards Committee (ASC).

2. **PSLA**: GFC may make recommendations to the Board of Governors on a number of matters including the budget and academic planning (Section 26(1)(o)). GFC delegates its power to recommend to the Board on the budget and on new or revised academic programs to the GFC Academic Planning Committee (APC).

3. **PSLA**: The PSLA gives Faculty Councils power to “provide for the admission of students to the faculty” (29(1)(c)).

4. **PSLA**: The PSLA gives Faculty Councils the authority to “determine the programs of study for which the faculty is established” (Section 29(1)(a)); to “provide for the admission of students to the faculty” (Section 29(1)(c)); and to “determine the conditions under which a student must withdraw from or may continue the student’s program of studies in a faculty” (Section 29(1)(d)).

5. **UAPPOL Admissions Policy**: “Admission to the University of Alberta is based on documented academic criteria established by individual Faculties and approved by GFC. This criteria may be defined in areas such as subject requirements, minimum entrance averages, and language proficiency requirements. In addition to academic requirements for admission, GFC authorizes each Faculty to establish such other reasonable criteria for admission of applicants as the Faculty may consider appropriate to its programs of study, subject to the approval of GFC (e.g. interview, audition, portfolio, etc.)

The admission requirements for any Faculty will be those approved by GFC as set forth in the current edition of the *University Calendar*. In addition to the admission requirements, selection criteria for quota programs, where they exist, will also be published in the current edition of the *University Calendar*.

The responsibility for admission decisions will be vested in the Faculty Admission Committees or in the Deans of the respective Faculties, as the councils of such Faculties will determine.”

6. **UAPPOL Admissions Procedure**: "**PROCEDURE**

1. **EFFECTIVE DATE OF CHANGES TO ADMISSION REGULATIONS**

Following approval by GFC:

a. Where changes to admission regulations may disadvantage students in the current admission cycle, normally implementation will be effective after the change has been published in the *University Calendar* for one full year (i.e., effective the second year that the information is published in the *University Calendar*). […]

b. Where changes to admission regulations are deemed by the approving body to be "advantageous to students", normally the date of
implementation will be effective immediately or at the next available intake for the admitting Faculty.”

7. GFC Academic Standards Committee (ASC) Terms of Reference (Mandate): The Office of the Provost and Vice-President (Academic) has determined that the proposed changes are substantial in nature. ASC’s terms of reference provide that “the term ‘substantial’ refers to proposals which involve or affect more than one Faculty or unit; are part of a proposal for a new program; are likely to have a financial impact; represent a definite departure from current policy; involve a quota; articulate a new academic concept” (3.A.ii).

Further, “ASC provides advice or recommends to the GFC Academic Planning Committee (APC) on proposals which involve substantial change to admission/transfer regulations or academic standing.” (3.B.iv)

8. GFC Academic Planning Committee (APC) Terms of Reference (Mandate/Establishment/Termination of Academic Programs):

“NOTE: APC deals with major program matters; minor program matters are dealt with through the GFC-mandated course/program approval process. The Provost and Vice-President (Academic) decides what is major or minor.

a. To approve the establishment of new academic programs at the University of Alberta or those administered in cooperation with other post-secondary institutions. (3.8.)”

9. Board Learning and Discovery Committee (BLDC) Terms of Reference:

“3. MANDATE OF THE COMMITTEE

Except as provided in paragraph 4 hereof and in the Board’s General Committee Terms of Reference, the Committee shall, in accordance with the Committee’s responsibilities with powers granted under the Post-Secondary Learning Act, monitor, evaluate, advise and make decisions on behalf of the Board with respect to matters concerning the teaching and research affairs of the University, including proposals coming from the administration and from General Faculties Council (the “GFC”), and shall consider future educational expectations and challenges to be faced by the University. The Committee shall also include any other matter delegated to the Committee by the Board.

Without limiting the generality of the foregoing the Committee shall:

[…] c. review and approve recommendations of GFC for major changes in instructional and research programs and other academic matters[.] […]

4. LIMITATIONS ON DELEGATION BY THE BOARD

This general delegation of authority by the Board to the Committee shall
be limited as set out in this paragraph. Notwithstanding the general
delegation of authority to the Committee as set out in paragraph 3, the
Board shall make all decisions with respect to: […]

b. program approvals involving the creation or abolition of a degree
program (but not specializations of an existing degree).”

10. **PSLA**: “The Campus Alberta Quality Council may inquire into and
review any matter relating to a proposal to offer a program of study
leading to the granting of an applied, baccalaureate, master’s or doctoral
degree other than a degree in divinity.” (Section 109(1))

### Attachments:

Attachment 1 (pages 1 – 25): Proposed Master of Coaching Degree Program to be Offered by the Faculty of Physical Education and Recreation – Template C (with GFC ASC-Recommended Proposed Admission/Transfer Requirements (Highlighted in Yellow))

*Prepared by:* René Poliquin, Vice-Dean, Faculty of Graduate Studies and Research, rene.poliquin@ualberta.ca
Program Approval Template C

Program changes are essential to program viability and maintenance of program quality and service to both the student and society. They flow from institutional vigilance and continued review of the needs of society and students. They are also carefully monitored for quality through established institutional processes (see Quality Assurance at Alberta’s Universities).

This Template is a common form that will be used for central vetting and approval at Alberta’s public universities, submitted to the Minister of Alberta Advanced Education for system coordination review and subsequent referral to the Campus Alberta Quality Council (CAQC) for its review and recommendation. Council will also expect the University’s request and rationale for a fully-expedited review (in advance or at the same time as the system coordination submission). If the Ministry and/or Council determines that more information is required and/or a partially-expedited review is necessary, that will be communicated to the University as soon as possible. Note that individual universities will develop their own version of the Template, which may list additional questions after the set of common ones.

This Template applies to
- New degree programs in a new discipline or level that involve new program structures and/or significant faculty, course offerings, or other resource expansion (e.g., BA in German at Athabasca University).

Basic Information
1. Title of the program: Master of Coaching (MCoach)
2. Proposed start date: September 2012
3. Length of the program (years): Two years if full-time, up to six years if part-time
4. University and academic unit: University of Alberta, Faculty of Physical Education and Recreation (FPER)
5. Collaborating partners at other institutions: NA
6. Contact person, with telephone and e-mail address: Stewart Petersen, Associate Dean (Graduate), 780-492-0996, stewart.petersen@ualberta.ca
7. Completed/proposed approval path: Faculty Council (FPER), Faculty of Graduate Studies and Research (FGSR) Council, Academic Standards Committee (ASC) Sub-committee on Standards (SOS), Full ASC, Academic Planning Committee, Board Learning and Discovery Committee
8. Attach proposed program and course University Calendar descriptions, overall program structure and requirements, and other supporting documentation.

8.1 Proposed Calendar Description

Please refer to Appendix A for full and detailed changes to section 150 (Physical Education and Recreation) and section 205 (Faculty of Graduate Studies and Research) of the UA Calendar resulting from this degree.

Calendar section 150 (Faculty of Physical Education and Recreation)
In this section of the UA Calendar, only minor changes are made to include the MCoach degree as an option for graduate study in the Faculty of Physical Education and Recreation. Other minor changes include addition of the faculty website and updating some language to be consistent with current terminology.

Calendar section 205 (Faculty of Graduate Studies and Research)
In this section of the UA Calendar, reference to the MCoach program is included in various sections as an option for graduate study in the Faculty of Physical Education and Recreation.

Matters such as entrance requirements and financial assistance are consistent with our other masters’ degrees.

Under a new section entitled The Degree of MCoach, there is a full description of the degree. It is a course-based degree, distinguished by the requirement to complete a coaching practicum under the supervision of a mentor coach.

Students entering the MCoach program must possess a bachelor’s degree. An undergraduate degree in physical education, kinesiology or related field is recommended.
The requirements of the degree include the completion of 30 credits (*30), including *18 of required courses and *12 of optional courses. The required courses include one of two courses in research methodology, a graduate seminar on coaching issues, the coaching practicum and the capping exercise.

MCoach students may choose, as optional courses, relevant graduate courses offered by other faculties. All optional courses must be approved by the academic supervisor.

There is no residency requirement for the MCoach degree program. The time required to complete the program will vary according to factors such as the previous training of the applicant, the availability of courses and the nature of the project undertaken. Normally a minimum of two years is required to complete the program. MCoach candidates must complete all the requirements within six years of the term in which they first register.

8.2 Course Descriptions (with explanatory notes enclosed in [ ])

8.2.1 Required Courses (*18)

**PERLS 580 (*3) Scientific Inquiry and Quantitative Research Methodology**
(either term). A study of basic philosophical issues, methodology and methods used by researchers in physical activity, sport, recreation and leisure. The emphasis of this course will be on quantitative inquiry.

[This course was formerly PEDS 580. The new course title and description will appear in the 2012-2013 UA Calendar]

**Or**

**PERLS 581 (*3) Scientific Inquiry and Qualitative Research Methodology**
(either term). An examination of philosophical issues and contemporary research methodologies in the fields of physical activity, sport, recreation, and leisure. The emphasis of this course will be on qualitative inquiry.

[The course title and description were recently changed and will appear as above in the 2012-2013 UA Calendar]

**PEDS 572 (*6) Coaching Practicum**
(two term, variable). Students will be required to coach for a complete season as head coach or assistant coach with major responsibilities in High Performance program approved by the student’s Coaching Mentor. The purpose of the practicum is to provide students with practical experience of running their own High Performance program for an entire duration of 1 annual cycle that will include 1 competitive season. Note: a minimum of 250 hours of outside-classroom time is required. Prerequisite: consent of the Faculty.

**PERLS 582 (*3) Graduate Seminar: A Seminar in Current Factors, Problems and Issues**
(either term). Coaching Issues

[Note that PERLS 582 is a seminar course that allows exploration of special topics. The course designation is also used to pilot new graduate courses. The Coaching Issues course has been offered as a pilot course under the PERLS 582 designation. It is expected that a new course proposal will follow]

**PERLS 900 (*6) Directed Research Project**
(variable, unassigned). A significant piece of scholarly writing. This course used by course-based Master’s students.

8.2.2 Optional Courses (*12)

*Highly Recommended Courses*

**PEDS 511 (*3) Exercise Testing and Exercise Prescription**
(either term). The theory and practice of exercise tests, interpretation, and exercise prescription for selected populations.

**PEDS 540 (*3) The Psychology of Performance Enhancement in Sport and Physical Activity**
(either term). This seminar focuses on the role of psychology as it relates to performance enhancement in the areas of sport and physical activity. Performance constructs and skills along with mental skills training programs will be discussed and evaluated.

**PEDS 541 (*3) Positive Youth Development Through Sport and Physical Activity**
(either term). Positive Youth Development (PYD) is a strength-based conception of childhood and adolescence. From the PYD Perspective, youth are viewed as ‘resources to be developed’ rather than ‘problems to be managed.’ Through this course the potential for promoting positive youth development through sport and physical activity will be explored. Prerequisites: PEDS 403, or equivalent, or permission of the instructor.
PEDS 544 (*3) Psychosocial Dimensions of Athletic Behaviour in the Competitive Sport Environment
(either term). A theoretical analysis of psychosocial constructs in sport including competitive anxiety, motivation, perfectionism, burnout, aggression, moral reasoning, enjoyment, and sport injury. Frequently examines the construct validation processes that researchers employ in the development of latent constructs and associated nomological networks.

PERLS 575 (*3) Coaching Knowledges
(either term). A critical examination of the construction of coaches’ knowledge and what makes coaches effective.

PERLS 582 (*3) Graduate Seminar: A Seminar in Current Factors, Problems and Issues
(either term). Sport Physiology

[note that PERLS 582 is a seminar course that allows exploration of special topics. The course designation is also used to pilot new graduate courses. Sport Physiology was offered as a pilot course in the fall of 2010. It will be offered again in Fall 2012 as a pilot course under the PERLS 582 designation and then it is intended that a new course proposal will follow]

PERLS 582 (*3) Graduate Seminar: A Seminar in Current Factors, Problems and Issues
(either term). Communication Skills and Strategies in Sport and Physical Activity

[note that PERLS 582 is a seminar course that allows exploration of special topics. The course designation is also used to pilot new graduate courses. The Communication Skills course has been offered as a pilot course under the PERLS 582 designation. It is expected that a new course proposal will follow]

Other Relevant Courses Offered by FPER

PEDS 512 (*3) Selected Topics in Advanced Exercise Physiology
(either term). Covers the acute and chronic response to exercise through an increased understanding of the mechanisms and adaptations that occur within the human body. Invited guest speakers will present topics of current interest that may include different sport modalities, different populations or different disease states to assist in the exploration of the field of exercise science. Lectures are the same as for PEDS 412, but with additional assignments and evaluation appropriate to graduate studies. This course may not be taken for credit if credit has already been obtained in PEDS 412. Prerequisite: Consent of Faculty.

PEDS 518 (*3) Hormonal Response to Exercise
(either term). Designed to increase the student’s knowledge about normal endocrine physiology and the normal response to acute and chronic exercise. Variables that influence the hormonal response to exercise and its subsequent measurement in circulation will be addressed. The use of hormonal analysis for monitoring health, body composition and training status of athletes will also be discussed. Offered in alternate years.

PEDS 530 (*3) Adapted Physical Activity
(either term). Seminar on current theoretical, practical and research issues in adapted physical activity.

PERLS 506 (*3) Socio-cultural Perspectives on the Body and Health
(either term). Examines contemporary socio-cultural discussions and debates regarding the body as a social phenomenon, with a particular focus on understanding intersections of the body, physical activity, exercise and health. In doing so, questions regarding social construction, representation and regulation of bodies as well as experiences of embodiment will be examined.

PERLS 507 (*3) Sport and Popular Culture
(either term). An examination of the place of sport in contemporary Canadian popular culture, with three principal aims: 1) To offer an introduction to Cultural Studies and its key concepts; 2) To give students a chance to think about how social difference and inequality work in contemporary Canadian society, and how it is reflected in the world of sport and leisure; and 3) To examine the effects of both cultural and economic globalization on sport and Canadian society.

PERLS 550 (*3) Sport and Leisure Organizations and the Public Sector
(either term). Emphasis is on the role of the federal, provincial and municipal governments in Canada in amateur sport and leisure including the interorganizational relations between the public sector and nonprofit/voluntary amateur sport and leisure organizations.
PERLS 551 (*3) Organizational Analysis of Sport and Leisure
(either term). Concepts and perspectives in organizational theory are examined in relation to sport and leisure organizations in the public, nonprofit/voluntary, and commercial sector to help students understand and analyze the complexity of managing sport and leisure organizations effectively. Topics include, but are not limited to, organizational design, organizational environments, strategy and decision-making, organizational culture, power and politics, and conflict and change.

PERLS 577 (*3) Sport and Ethics
(either term). An examination of ethical problems in sport. Prerequisite: PEDS 401 or consent of Faculty.

PERLS 582 (*3) Graduate Seminar: A Seminar in Current Factors, Problems and Issues
(either term). [Note there are typically several PERLS 582 courses offered each year by various professors. Topics span all disciplines and many of these courses may be suitable for coaching students).

PERLS 590, 591 and 599 (*3) Directed Studies and Research
(either term). [Master of Coaching students will normally be eligible to enroll in a maximum of two directed study courses].

Optional Courses from Other Faculties
MCoach students may choose, as optional courses, relevant graduate courses offered by other faculties. All optional courses must be approved by the academic supervisor.

Rationale and Quality
9. Provide an overview of the program, including distinctive features relative to existing offerings, the modes of program delivery available, and any experiential components.

Program Overview
The MCoach degree program will require *30 credits of course weight. All students must complete one of two research methodology courses (either PERLS 580 or PERLS 581, each *3), PEDS 572 (Coaching Practicum, *6), PERLS 582 (Coaching Issues, *3) and PERLS 900 (*6), the capping exercise. The remaining credits may include graduate courses from within or outside of FPER. Optional course choices must be approved by the academic supervisor.

Distinctive features
Admission to the MCoach degree program will have the same requirements as for other degrees (e.g., GPA, references, match with a supervisor) but in addition, recommendations for admission will be based on the ability to provide both an academic supervisor and a mentor coach.

Experiential Components
The MCoach degree is the only graduate program in FPER to provide a practicum course under the supervision of a mentor coach. Other students in our other masters’ degree programs will not have access to the practicum.

10. What is the rationale for the proposed new program?
Approximately a decade ago, the Faculty of Physical Education and Recreation (FPER) designed a series of courses to allow graduate students to complete the course-based MA degree while “specializing” in the field of coaching. At the risk of oversimplification, the program was designed to provide opportunities for the development of career coaches. Several courses were developed to provide specific opportunities for these students (e.g., PEDS 570, PEDS 571, PEDS 572). Apparently, the original intent was to make this program an actual specialization option within the course-based MA program (e.g., Coaching Specialization), however this was not done.

Demand has been consistently high with approximately 10 – 12 applications specifically for this option within the course-based MA. Normally, about three or four applications each year come from International students. Approximately six new students are admitted each year. Completion rate has been very high and importantly, most of the graduates have been successful in obtaining full-time coaching positions, usually at post-secondary institutions. At the time of writing, there are nine students enrolled. Of the 20 students who have completed, 16 are known to be working as coaches and two are enrolled in doctoral studies.

Coach education and development is a priority for FPER and as such, the development of a professional graduate degree in coaching is consistent with our vision of the future. In essence, this proposal focuses on translating a very successful initiative within an existing degree program (course-based MA) into a more appropriately named degree program (Master of Coaching).
11. Outline the University’s demonstrated expertise and capacity in this program area. For graduate programs -
address the experience of the unit in advanced work and your ability to deliver a quality program by commenting
on your depth in the discipline. Provide a list of the names and expertise of faculty members and, where
available, the progress of students who have already graduated.

FPER is uniquely positioned for leadership in this area of graduate study. We house the most successful inter-
university sports program in Canada. While the Golden Bears and Pandas teams win many championships, the
success of the program goes far beyond medals. Our program was a pioneer in appointing full-time coaches and
developing a career path for varsity coaches that is similar in many ways to the professorial career path. We were
likely the first and remain one of the few programs with a formal Coach Evaluation Committee (CEC) process that is
modeled on the Faculty Evaluation Committee (FEC) process.

Our varsity coaches make formal contributions to the academic programs within FPER and many of our professors
and graduate students provide “sport science” support to the teams. Our Faculty is very proud of the integrated
model and continued development of integration is a high priority for the future. Finally, the sport and academic
components of the Faculty are complemented by several centres (e.g., Canadian Athletics Coaching Centre) that
offer unique educational and professional development opportunities.

It should be pointed out that many graduate students in FPER complete thesis-based MA or MSc degrees in
complementary areas of study such as sport psychology, sport physiology, athlete health and coaching. The
professionally-oriented course-based students share the same courses as the research trainees, which makes for
a very rich learning environment. There is a large group of professors, graduate students and coaches who meet
regularly as the Coaching Research Group.

Faculty members who may contribute to the MCoach program through teaching and/or academic supervisory roles:
Dr. Pierre Baudin, Faculty Service Officer, Associate Director of Coaching and Sport Science, biomechanics and
technical coach for Pandas volleyball
Dr. Gordon Bell, Professor, exercise physiology
Dr. Loren Chiu, Assistant professor, biomechanics and sport fitness and injury prevention
Dr. Jim Denison, Associate professor, coaching theory, Director, Canadian Athletics Coaching Centre
Dr. John Dunn, Professor, sport psychology and consultant to elite athletes
Dr. Vicki Harber, Professor, female athlete development and member of Canadian Sport for Life expert group
Dr. Nicholas Holt, Associate Professor, youth development in sport and sport psychology consultant
Dr. Michael Kennedy, Assistant Professor, athlete health, sport scientist for varsity swimming, field hockey and
cross country ski coach
Dr. Dan Mason, Professor, sport management and team/club operations
Dr. Kerry Mummary, Professor and Dean, sport psychology, coaching studies and former professional swim coach
Dr. Stewart Petersen, Professor and Associate Dean (Graduate) exercise physiology
Dr. Ian Reade, Faculty Service Officer, sport management, research in coach education, and Director, Golden
Bears and Pandas Athletics
Dr. Wendy Rodgers, Professor and Vice-Dean, health psychology, coaching research group
Dr. William Stran, Professor, sport psychology and communication
Dr. Dan Syrotiuk, Professor, strength and conditioning, exercise physiology and football coach
Coaches who may contribute to the program as mentors for the coaching practicum:
Terry Danyluk, head coach Golden Bears volleyball
Owen Dawkins, head coach Golden Bears and Pandas wrestling
Howie Draper, head coach Pandas hockey
Scott Edwards, head coach Pandas basketball
Laurie Eisler, head coach Pandas volleyball
Greg Francis, head coach Golden Bears basketball
Bill Humby, head coach Golden Bears and Pandas swimming
Rob Krepps, head coach Golden Bears and Pandas curling
Liz Jepsen, head coach Pandas soccer
Stan Marple, acting head coach Golden Bears hockey
Matt Parrish, head coach Pandas rugby
Georgette Reed, head coach Golden Bears and Pandas track and field and cross-country
Jeff Stead, head coach Golden Bears football
Len Vickery, head coach Golden Bears soccer

Administrative staff interested in supporting the MCoach program:
Dr. Joan Matthews-White, Head Athletic Therapist, athlete health
Progress of some graduates of the MA program:
Serge Lajoie, head coach N.A.I.T. hockey
Brad Poplawski, head coach Grant MacEwan University volleyball
Dawn Sharp, coach University of Calgary rugby
Aaron Schulha, head coach Red Deer College volleyball
Erin McAleenan, Alberta Provincial head coach basketball
Corinna Storey, coach Royal Glenora Club skating
Tim Enger, Technical Director, Football Alberta
Cathy Butlin, high school and Alberta provincial basketball team coach
Cliff Roeven, high school basketball coach
Vanessa Bray, synchronized swimming coach
Alexander Dickson, Golden Bears and St. Francis Xavier Academy soccer coach
Jason Lafferty, Academic APO, FPER and assistant coach Golden Bears football

12. How will the program expose the learner to a high-quality learning experience? 
The FPER has been recognized (Unit Review, 2011) as the leading Faculty in Canada in the Physical Education and Recreation domain. FPER has a long-standing reputation for excellence and leadership in sport, research and undergraduate and graduate education. This reputation would not be possible without the long-standing tradition of high-quality learning environments.

FPER has one of the largest cohorts of physical education and recreation graduate students of any Canadian University. Approximately 25% of the cohort are international students. MCoach students will enrol in graduate courses populated by research trainees (MSc and MA students) from related fields (e.g., exercise physiology, sport psychology). While the MCoach is not a research degree per se, we believe that it is important for the professionally-oriented students to develop an appreciation for the research process and understand where knowledge comes from.

As noted, a distinctive feature of this degree is the opportunity to put theory into practice through the coaching practicum under the supervision of a mentor coach. Normally, the mentor coach is one of the head coaches from the Golden Bears and Pandas Athletics program, the flagship athletics program in the country.

Finally, we take pride in the success of the graduates from the coaching option within the course-based MA program. As noted, most of the graduates have been successful at obtaining and maintaining employment as professional coaches. This fact is a powerful endorsement of coach education in our faculty.

13. Provide a brief demonstration of external support regarding the value of the program.
Letters of support have been requested from the Coaching Association of Canada, two National Sport Organizations (Volleyball Canada and Curling Canada), the Alberta Volleyball Association and the Canadian Athletics Coaching Centre.

14. Describe how this new program is reflected in the University’s strategic and academic plans (eg, Dare to Discover, Dare to Deliver), business plan, and accessibility plan.
This degree program will foster the development of high quality coach education and will eventually impact the level of coaching in Canada. We have had significant interest in our coach education initiatives from countries such as Korea, China, Japan and the Czech Republic. With the named-degree designation, the program will highlight the expertise and talented people in FPER. The program will become, we believe, the first choice for graduate level coach education in Canada.

15. Give information on quality assessment, including criteria to be used for continuous evaluation. How will learner outcomes be measured?
MCoach students are admitted only after meeting all admission requirements, achieving a match with a willing academic supervisor, and confirming the ability to provide an appropriate mentor coach to supervise the practicum. We follow similar procedures in our other degree programs and the effort invested before admission has historically minimized problems once the student begins their program.

MCoach students are held to the same academic standards as other graduate students. Students are evaluated by professors in their graduate courses and receive grades according to their absolute achievement and relative standing within the individual classes. Students are also evaluated by the mentor coach during the practicum.
The coaching practica are organized and overseen by the Associate Director of Coaching and Sport Science. Each student completes a capping exercise which is a directed research project that reflects the knowledge and skill of the students. Students work closely with the academic supervisor to develop a project proposal and to ensure that the final work product meets expected academic standards. The capping exercise is graded as pass/fail by the student’s academic supervisor and another academic faculty member.

The existing degree program (coaching option within the course-based MA) has been in place for approximately 10 years and during that time has undergone minor changes to improve quality. This proposal focuses on translation of that success to a more appropriately named degree program (Master of Coaching).

**Demand and Administration**

16. Outline the expected impact of the new program in terms of professional and academic opportunities for current and prospective students.

As noted, the graduates from the coaching option within the current course-based MA have generally been very successful at obtaining and keeping professional coaching positions. We believe that the MCoach designation will enhance the attractiveness of the program to high-quality prospective students and may assist in the marketability of graduates.

It is understood that students currently enrolled in the course-based MA program (coaching option) may apply to transfer to the MCoach program once the new degree has been approved.

17. Provide the expected enrolment (or other) impact on the academic unit(s) offering the program and other affected units. Include current enrolment where applicable.

As explained in the rationale (#10), the program has been in existence informally through the course-based MA degree. This proposal is intended to formalize and recognize the field of coaching studies within our Faculty. Therefore, no impact is anticipated because the same number of students studying coaching in the course-based MA will move to the MCoach program. There will be no significant impact on library resources as the array of books and journals already held in our library system is adequate to support the program.

**Student Numbers**

Historically, approximately six students have been admitted each year and it is expected that this trend will continue as it has proven to be sustainable. In any given year, we expect to admit approximately 6 – 8 students to the Master of Coaching program. It should be stressed that admission is based on several factors beyond the ability of the student to meet the admission requirements, including a suitable match with an academic supervisor and the ability of the Faculty to provide an appropriate mentor coach.

18. Do you anticipate an enrolment (or other) impact on programs at other institutions or regulatory bodies? Describe any consultations that have occurred with other institutions and professional organizations.

We do not anticipate any significant impact on other programs or regulatory bodies. Graduate education in coaching is a priority for FPER and we have been, and intend to continue to be, leaders in this field. The MCoach program will complement other programs in Canada.

There is no similar program in Alberta. The University of Western Ontario (UWO) offers a course-based master’s program in coaching studies that is very similar to the current MA in FPER. The geographical separation between UWO and the University of Alberta is significant enough to suggest that the programs probably do not compete for the same pool of applicants. The University of Victoria (UVIC) offers a course-based Master of Education (MEd) in Coaching Studies (CS). This is a summer-based program that is traditionally populated by teachers. The program is well subscribed however there are some essential differences. The UVIC program differs from our current and proposed programs in that the CS students are segregated from the research trainees and take a defined program of courses. The differences are substantive enough to suggest that the two programs are not in direct competition.

19. Provide a program implementation plan by academic year (start to maturity). Include the impact on any programs being phased out, particularly with regard to resources and support.

As noted several times previously, approximately six new students are expected each year. This is well supported by the historical admission of students electing to study coaching within the course-based MA.

The currently available option to study coaching within the course-based MA will transition to the Master of Coaching program. Therefore, students “lost” to the course-based MA will be “found” in the MCoach program. No impact is expected.
20. Describe how the proposed program fits within the broader Alberta post-secondary system. Is it unique to the province, the country? Does it compete with or complement other programs in the system? If the program is similar to or duplicates an existing program, is the duplication warranted? How does the program advance Campus Alberta?

Please see #18 above. There is no similar program in Alberta. The transition of the very successful coaching option within the course-based MA to a named professionally-oriented degree is viewed as a progressive step.

21. Describe the current student demand for the new program.

See #10 and #17 above.

22. Is there labour market demand for this program? What steps were taken to assess labour market demand? The demand analysis should be supported with relevant data.

As noted above, 18 of 20 graduates from the currently available program of graduate coaching studies in FPER have successfully obtained professional coaching positions or have gone on to doctoral studies. We view this as a powerful endorsement of the demand for graduates in this field.

23. Explain the level and kind of support that will be provided by professional organizations, regulatory bodies, employers, and industry. Provide evidence of consultation and support.

Letters of support from external organizations were requested after the proposal was approved by FPER Faculty Council. Discussion has occurred with the Coaching Association of Canada, representative National Sport Organization (Volleyball and Curling), a representative Provincial Sport Organization (Volleyball), and the Canadian Athletics Coaching Center. In addition, we have requested letters of support from two other Universities (Victoria and Western Ontario) that offer masters degrees in coaching studies.

24. Provide evidence that employers will provide sufficient placements to support the clinical, coop and work experience requirements of the program.

The experiential component of the program (coaching practicum) is normally completed within the Faculty (Golden Bears and Pandas Athletics) and therefore the reliance on external agencies will be minimal. The ability to provide a suitable practicum environment is an important consideration prior to admission. Cases where a student required a mentor coach from outside our Faculty would be viewed as exceptional and would be dealt with on an individual basis prior to admission.

25. Describe the opportunities graduates will have for progression to further study in this field or in professional fields. Provide evidence of consultation.

The professional nature of the course-based MCoach is not designed to facilitate entry into research-based doctoral programs, which would be the normal avenue for further progression in the academic realm. An earned graduate degree is considered a requirement for coaching positions at many Canadian and American universities, and therefore, this degree will contribute to placement of graduates in these positions.

26. Are there any resource implications (budget, information technology (IT), library (Library Impact Statement), laboratory, computers, space, practicum liability insurance, student services, administrative services (eg, Registrar’s Office), as applicable) for the proposed change, and, if so, where will those resources come from? Provide a budget for any long-term or one-time implementation costs. Provide detail and evidence of consultation with affected unit(s) and/or appropriate University officers/committees.

The resource implications associated with this proposal are absolutely minimal and potentially nil. There is currently the option to study coaching within the course-based MA program, which has been in place for approximately 10 years. The MCoach program will replace this option with a named, professional degree. As such, there is no net growth in our graduate program but in effect, the number of students within the existing option of the MA will transition to an equivalent number of students within the MCoach.

We have made it clear that there are no expectations for substantial growth in student numbers. While there has been a very healthy demand for graduate education in coaching, enrolment has been, and will continue to be, constrained by several factors such as the ability to match applicants with academic supervisors and mentor coaches. The administrative infrastructure to support the program is already in place within FPER, primarily within the Graduate Program and through the office of the Associate Director of Coaching and Sport Science.

A Library Impact Statement has been provided (Appendix B). It should be emphasized that the resources to support this program are already in place within our library system. No additional demand on the University of Alberta Library will result from this proposal.
19. How will this proposal distinguish the University of Alberta from other post-secondary institutions? There is no similar program in Alberta, and only a few in Canada. The U of A is already recognized nationally and internationally for leadership in this field. The implementation of the MCoach degree will contribute to continued recognition in the field.

20. How will research, scholarly work, and teaching be integrated to enhance student learning? Completion of *18 credits of graduate courses (including a course in research methodology) will contribute to student learning. The capping exercise (PERLS 900, *6, Directed Research Project) introduces the student to applied research in their chosen field of coaching studies and requires the completion of a substantial scholarly work product.

21. Further to Question #15 above, when should a thorough evaluation of the program (if applicable) be conducted? What should be the composition of the evaluation team that conducts a thorough evaluation (enter information on types of personnel and not actual names)? How will feedback from students, employers, and other interested parties be integrated?

Consistent with past practice in FPER, the program should be reviewed approximately five years after implementation. We suggest that an internal review panel should consist of stakeholders including the Associate Dean (Graduate), the Associate Director of Coaching and Sport Science, the Director of Athletics, and representatives from the professorial and coaching members of Faculty Council. The review panel could include representatives from another academic unit on campus and possibly from an external agency such as the Coaching Association of Canada or a Provincial or National Sport Organization (e.g., Volleyball Canada). Feedback from program administrators, academic supervisors, course instructors, mentor coaches, students and employers is viewed as essential to the review process.

Students wishing to be considered for scholarships must apply before January. The deadline for applications is March 1. Normally students are expected to start their program in September.

**Entrance Requirements**

The Faculty's minimum admission requirements are an undergraduate degree with an average of at least 3.0 in the last 60 of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized Institution.

In addition to the above, all non-Canadian students who did not complete an undergraduate degree from an English language institution must pass, with a minimum score of 600 (paper-based) or 88 (internet-based) on the Test of English as a Foreign Language (TOEFL) or 90 on the Michigan English Language Assessment Battery (MELAB), before formal admission approval can be given. (See §203.2 of the Calendar for further information on English language examinations.)

The requirements for entry into the relevant master's program is the BPE or BA Recreation Administration degree from the University of Alberta or its equivalent. All students not meeting this entrance requirement will be considered on an individual basis. The normal requirement for admission to the PhD is the MA, MSc, or MA (Recreation and Leisure Studies) degree with a thesis from the Faculty, or the equivalent.

**Financial Assistance**

A number of graduate assistantships and scholarships are available each year to graduate students.

205.58.2 The Degree of MA

Both a thesis-based and a course-based option are available in the MA degree program. While both are research-oriented programs, the thesis program requires fewer courses and places more emphasis on the development of research skills.

Students entering the course-based MA route must possess a bachelor of physical education or recreation degree or equivalent.

**Program Requirements**

The minimum requirements for the thesis-based MA are the completion of 12 in addition to the thesis. All students must successfully complete either PEDS 580 or PERLS 581, as well as an ethics and integrity training requirement of eight hours.
The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Students enrolled in the course-based MA degree program must complete as a minimum, the equivalent of 12 credits. Students must successfully complete at least one of PERLS 580 or PERLS 581. In addition, students must successfully complete a capping exercise. This will take the form of a completed research project, an internship within the Faculty, or successful completion of a comprehensive examination.

There is no residency requirement for the course-based degree program.

Length of Program

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken. Normally a minimum of two years is required to complete the program. Thesis-based master's candidates must complete all the requirements within four years of the term in which they first register. Course-based master's candidates must complete all the requirements within six years of the term in which they first register.

205.58.3 The Degree of MA in Recreation and Leisure Studies

Both thesis-based and course-based options are available in the MA(RLS) program. While both are research-oriented programs, the thesis program requires fewer courses and places more emphasis on the development of research skills.

Program Requirements

The minimum requirements for the thesis-based MA(RLS) are the completion of 12 credits in addition to the thesis. All students must successfully complete RLS 510 and a graduate level research course, PERLS 581 recommended. In addition, students will complete an ethics and integrity training requirement of eight hours.

Students must complete a residence requirement of two four-month terms of full-time attendance at the University of Alberta.

Students enrolled in the course-based MA(RLS) degree program must complete as a minimum, the equivalent of 24 credits. All students must successfully complete RLS 510 and a graduate level research course, PERLS 581 recommended. In addition, students must successfully complete a capping exercise. This will take the form of a completed research project or successful completion of a comprehensive examination.

There is no residency requirement for the course-based degree program.
course-based degree program.

Length of Program

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken. Normally a minimum of two years is required to complete the program. Thesis-based master’s candidates must complete all the requirements within four years of the term in which they first register. Course-based master’s candidates must complete all the requirements within six years of the term in which they first register.

205.58.4 The Degree of MSc

Program Requirements

The minimum requirements for the MSc degree are the completion of 12 in addition to the thesis. As part of the degree requirements, students must successfully complete PEDS 580 and an ethics and integrity training requirement of eight hours.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken. Normally a minimum of two years is required to complete the program. Candidates must complete all the requirements within four years of the term in which they first register.

New

205.58.5 The Degree of MCoach

The Master of Coaching degree is a course-based program which includes a practicum under the supervision of a mentor coach.

Students entering the MCoach program must possess a bachelor’s degree. An undergraduate degree in physical education, kinesiology or related field is recommended.

Program Requirements

Students enrolled in the MCoach degree program must complete as a minimum, the equivalent of 30. Students must successfully complete either PERLS 580 or PERLS 581 (each
205.58.5 The Degree of MBA with Specialization in Leisure and Sport Management

The Faculty of Business in conjunction with the Faculty of Physical Education and Recreation, offers a program leading to an MBA with specialization in Leisure and Sport Management. The purpose of this applied administrative studies Master's program is to prepare graduate students to become practising managers/leaders in leisure and sport management. For further details please refer to §205.8 under Business.

205.58.6 The Degree of PhD

Program Requirements

The PhD degree is a research degree; however, a number of specific courses may be required within the various areas of specialization. Please consult the staff within each specified area for further details. All courses must be approved by the Faculty of Physical Education and Recreation. Emphasis is on research leading to the dissertation rather than coursework. All students will complete an ethics and integrity training requirement of at least eight hours.

The minimum period of residence is two academic years of full-time attendance at the institution. There is no residency requirement for the MCoach degree program.

Length of Program

The time required to complete the program will vary according to factors such as the previous training of the applicant, the availability of courses and the nature of the project undertaken. Normally a minimum of two years is required to complete the program. MCoach candidates must complete all the requirements within six years of the term in which they first register.

205.58.7 The Degree of PhD

Program Requirements

The PhD degree is a research degree; however, a number of specific courses may be required within the various areas of specialization. Please consult the staff within each specified area for further details. All courses must be approved by the Faculty of Physical Education and Recreation. Emphasis is on research leading to the dissertation rather than coursework. All students will complete an ethics and integrity training requirement of at least eight hours.

The minimum period of residence is two academic years of full-time attendance at the institution. There is no residency requirement for the MCoach degree program.
academic years of full-time attendance at the University of Alberta.

**Length of Program**

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken. Normally a minimum of three years is required to complete the program. The maximum time permitted is six years from the date of the first registration.

**205.58.7 Graduate Courses**
Appendix B – Library Impact Statement
NEW ACADEMIC PROGRAM LIBRARY IMPACT STATEMENT CERTIFICATION

Submitted to the Academic Development Committee

The Library has examined the proposal for the MCoach program to be offered by the Faculty of Physical Education & Recreation (PER). We anticipate that the new program will not incur any additional costs for Library acquisitions.

Since this program is replacing an existing program (MA with a specialization in coaching) with a named, professional degree program (MCoach), and there will be no growth in the numbers of graduate students admitted to the FPER as a result of this transition, the introduction of this program will have little if any impact on the library.

We support the changes proposed and look forward to working with its instructors and students in the years to come.

Appendix C – Letters of Support
Dear Professor Petersen:

It gives me great pleasure to offer my support for the new degree proposed by the Faculty of Physical Education and Recreation in coaching. As a longtime coach educator it is a pleasure to see the coaching profession being given its due credit through the establishment of a named degree. In the last decade research around the science and art of coaching has expanded significantly as coaches have become increasingly recognized as critical members of society and the sport system. This criticalness not only involves the development of high-performance athletes capable of winning medals for nations at Olympic Games, but also as educators who have the opportunity to shape and develop positive, healthy experiences for people of all ages, backgrounds and experiences who want to participate in sport.

As Director of the Canadian Athletics Coaching Centre I have seen firsthand the impact that advanced coach education can have across society. For example, when young children are introduced to sport by well-trained professional coaches who understand the complexities that comprise skill development, maturation and socialization the possibilities are far greater that sensitive and context specific programs will result that are far more likely to encourage and support lifelong physical activity. Similarly, at the elite level, where winning performances are far more difficult to produce given the advances across a range of sports science disciplines, a coach must be fully committed to the craft of coaching to be able to maximize individuals’ potential and develop athletes who can be competitive on the world stage.

The proposed Masters of Coaching degree from the Faculty of Physical Education and Recreation is positioned perfectly, I believe, to be relevant and impactful. As a national and international leader in physical education, the Faculty is again being innovative in its program development by recognizing the growing professionalization of coaching. The staff and resources at the Faculty have a track record of success in graduating coaches who have gone on to successful careers. Therefore, the proposed degree would only strengthen that track record and enable the Faculty to advance even further the outstanding and well-balanced curriculum they are proposing.

To conclude, I endorse this degree completely as an important and well-needed development around the study of sport and physical education as an integral aspect of contemporary society. If there is any additional information I can provide please do not hesitate to contact me. Again, congratulations to the Faculty of Physical Education and Recreation for initiating this exciting degree. I look forward to hiring future graduates to work at the Canadian Athletics Coaching Centre.

Kind Regards,

Jim Denison, Ph. D.
Associate Professor Faculty of Physical Education and Recreation
Director, Canadian Athletics Coaching Centre
University of Alberta
Faculty of Physical Education and Recreation
E4-77 Van Vliet Centre
University of Alberta
Edmonton, Alberta  T6G 2H9

Attention: Dr. Stewart Petersen – Associate Dean/Graduate Professor

Dear Dr. Petersen

Subject: Master’s Degree in Coaching Volleyball, letter of support

I am very excited to hear that the University of Alberta is considering the opportunity to offer a Master of Coaching degree in Volleyball. This specialized degree will be of great value to high performance coaches wanting to further their education and studies in volleyball. I’m confident that we will see a significant improvement in the development of many athletes and coaches in our system, as a result of this new program.

Alberta Volleyball fully supports this endeavour as the Faculty of Physical Education and Recreation continues with this proposal. We would make every effort to provide the necessary resources and assistance to help make this a successful graduate program in our province.

Feel free to contact me if there is anything the Faculty requires to move this project forward.

Sincerely,

Jim Plakas
Technical Director
Alberta Volleyball

cc: Dr. Pierre Baudin
November 7, 2011

Stewart Petersen, PhD.
Associate Dean (Graduate)
Faculty of Physical Education and Recreation
University of Alberta
Edmonton, AB T6G 2H9

Dr. Petersen,

I am writing this letter in support of the Master of Coaching degree that you are proposing at the University of Alberta.

One of the mandates of Volleyball Canada is to oversee coaching education for our sport in Canada and we see this degree as being another means for persons serious about coaching volleyball to achieve their goals. The proposed degree has particular value for those persons wishing to make coaching volleyball a career because the vast majority of the paid coaching positions in volleyball in Canada are at post-secondary institutions. A coach presenting a master’s degree in their curriculum vitae will have a significant advantage when applying for these jobs as most colleges and universities prefer their staff to have some graduate education.

I am very pleased to see that this degree has a very significant practical component that will enable the graduate student coach to work with some of Canada’s top volleyball coaches that are presently coaching at the University of Alberta. We would also hope to be a part of this experience by providing appropriately prepared students with the opportunity to work with Canada’s National Volleyball teams as guest coaches. Three of your present and graduated MA students have already worked with our indoor and beach programs and we feel that it has been a positive experience for them and helped enhance our programs.

I also understand that this degree will enable a coaching student to specifically study the advanced technical and tactical aspects of their chosen sport at a graduate level. There is very little opportunity for volleyball to be studied at this level anywhere else. Also, there are many questions that need to be researched in volleyball and most of our coaches do not have any training in conducting research but your proposed program requires the graduate students to take a course in research methodology. This should provide your graduates and our future coaches with the ability and confidence to help volleyball answer some important questions.

In closing I would like to reiterate my support of your proposed Master of Coaching degree. I believe it will provide a great opportunity for coaches to enhance their education in their chosen sport.

Sincerely,

[Signature]

Julien Boucher
High Performance Director
Volleyball Canada
November 22, 2011

Dr. Stewart Petersen
Associate Dean (Graduate)
Faculty of Physical Education and Recreation
University of Alberta

Dear Stew:

I am writing this letter in response to your request to provide support for your Master of Coaching graduate program proposal. As Director of the School of Exercise Science, Physical and Health Education and current supervisor of the Masters of Education in Coaching Studies at the University of Victoria, I applaud your efforts to formalize this graduate program that will provide another opportunity for coaches to enhance their knowledge about coaching in Canada. The academic rigor of this graduate program, as with others throughout the country, will undoubtedly contribute to improving the development of athletes in Canada.

As you point out in the proposal, although this is another graduate program for coaches and might influence decisions of prospective students to enroll in our graduate program at the University of Victoria, offering the program during the regular academic year will appeal to a very different graduate student population. Best wishes to you and the rest of the graduate faculty involved in this program as it proceeds through the various approval processes.

Sincerely,

Dr. Rick Bell
Director,
School of Exercise Science, Physical and Health Education

*Notes:

The MCoach program effectively replaces the currently available coaching option within the course-based MA program with no net gain or loss of students anticipated.

Admission to the MCoach program will be constrained by the same factors that currently define enrolment in the course-based MA program (coaching option) such as availability of academic supervisors and mentor coaches. Graduation is dependent on how quickly the students complete and that is beyond our control.

The student numbers shown above are simply estimates based on historical experience with enrolment in the MA program:

- We typically admit about 6 students each year.
- The majority are full-time but some choose the part-time alternative
- It is possible to complete the program in two years of full-time study but some students take longer

Re: Letter of Support for the new Master of Coaching Degree (MCoach) Program proposal by the Faculty of Physical Education and Recreation

I have read the document (that was sent to me by Professor Stewart Petersen) and I strongly support the proposal to establish a new degree designation (MCoach). I have been the Graduate Chair for 4.5y in the School of Kinesiology at the University of Western Ontario. After our Coaching Stream had languished on our books for many years, approximately 6 years ago it was resurrected and the policies and procedures overhauled. Professor Bob LaRose, who is the coordinator of this program, spear-headed that initiative. Bob was receiving increasing interest from both recent undergraduates and professional (employed) coaches for this type of degree specialization. His insights were on target and we have had significant activity and growth in our Coaching Stream to the point that we cannot now accommodate all the requests due mainly to the challenges of finding enough practicum and placement experiences. Thus there is interest and need for these programs and it is obvious from the document that U of A is, and has been well-placed to support a continuing and excellent program in graduate level coaching. This update proposal will help to further enhance and solidify the program at U of A in the coming years.

Five years ago we had fewer than 5 students and now we are close to 20 students in the two-year program. We offer a MA or MSc thesis in coaching (fewest students), a MA course-based degree, or course-based Professional MA degree (the latter two are of similar numbers: 8-9 each). The Professional route is designed for coaches who currently are employed and thus they do not receive our funding support package. All categories require a coach mentor and practicum in addition to either a research thesis or research paper for course-based. Several students have completed the program in their 5th term (2 years is 6 terms) and most are, or go into a coaching/teaching situation at Colleges, Universities or High Schools in Canada and the U.S. Some work with provincial or regional sport organizations. The usual sports, plus golf and rowing are represented in our program, but no one sport dominates and many are interested in strength and conditioning coaching. Those who take the thesis based degree usually go on to a PhD in a related area (Psychology, Philosophy,
Sociology, Biomechanics). Some students have asked about a PhD in Coaching but we do not currently have sufficient resources - mainly in personnel - to move in that direction, but likely there is need and interest.

It is clear that U of A has a strong program in this field and likely is the only other program in Canada similar to ours. However I do not see us direct competitors mainly due to geographic distance, but regardless, (at least for us) the pool of applicants seems to be strong and growing. Indeed, there is a healthy need and interest across the country and job or career prospects are excellent for these students.

The MCoach is a very sensible and practical designation and should help to further attract and serve the needs and interest of many prospective students. It perhaps simplifies what we here at UWO have spread over our several various routes and may be something we should consider as our program continues to develop. A particular strength I note from the U of A program is a varied and strong selection of courses many of which are designed specifically for the coaching degree. This is something too that we need to address here at Western. In addition I note importantly that the U of A program has a large cadre of well-qualified professors with interest and expertise to support the coaching program as it solidifies the MCoach designation. Therefore I have no doubt the program at U of A will continue to thrive and be highly recognized; and as perhaps the only other similar program in Canada certainly we are supportive.

Sincerely,

Charles L. Rice, PhD
Graduate Chair of Kinesiology
Associate Professor of Kinesiology, and Anatomy & Cell Biology
OUTLINE OF ISSUE

Agenda Title: School of Dentistry – Proposed New Alternate Name for the Department of Dentistry

Motion: THAT the GFC Academic Planning Committee approve, under delegated authority from General Faculties Council, the proposed new alternate name for the Department of Dentistry—the ‘School of Dentistry’—for marketing and branding purposes, as submitted by the Faculty of Medicine and Dentistry and as set forth in Attachment 1, to take effect upon final approval.

RE: Request for GFC-approved Alternate Name for Department of Dentistry

Dear Dr. Amrhein:

I request the name School of Dentistry be approved as a GFC-approved Alternate Name for the Department of Dentistry, for specified purposes including marketing and external-related activities.

Background:
In 1995 the Faculty of Dentistry was merged into the Faculty of Medicine. Under the new governance structure, Dentistry became the Department of Dentistry in the Faculty of Medicine and Dentistry (FoMD). The Chair of the Department of Dentistry was also appointed as the Associate Dean. In 2009 the FoMD adopted a “virtual Schools” structure. Dentistry was named as one of the 8 virtual schools. The Chair of the Department of Dentistry was also named the Lead of the School of Dentistry. As the only Department in the virtual School of Dentistry, the Associate Chair, Academic and the Associate Chair, Research served as the leads on the Faculty Learning Committee and Research Committee.

There are 9 Dental Programs in Canada and 61 Dental Programs in the USA. The University of Alberta is the only program using the name Department of Dentistry. The majority of American universities use the term “School of Dentistry” with the remainder using the term “College of Dentistry”. Within Canada, University of Western Ontario operates as the Schulich School of Dentistry (with a Director as head of the School) in the Schulich School of Medicine and Dentistry. The remaining 7 Universities have Dentistry as a Faculty.

Rationale:
The rationale for requesting approval for the use of the name “School of Dentistry” is:

- The Department of Dentistry is functionally and operationally unique among the Departments in the FoMD. The Canadian Dental Accreditation Commission (CDAC) requires significant budgetary, administrative and educational autonomy for the Dentistry Unit. This has been recognized and supported by the FoMD. The way in which we operate and the program and services we offer align with those fundamental to a school.

- The Department of Dentistry operates a major clinical facility which requires extensive external communication. Furthermore the Department has direct communication with other Dental Schools and professional organizations (including regulatory and examining bodies) at the provincial, national and international levels. The Chair of the Department of Dentistry serves as a full participant at the Canadian and American “Deans” meetings.
• The Department of Dentistry is active in fundraising as a visible entity and officially changing the terminology to the School of Dentistry may change the perception around fund raising campaigns associated with giving money to a school rather than a department.

• The Vision for the Department of Dentistry is to be “Recognized as a top-tier Dental School within Canada and beyond”. Having the School of Dentistry as a GFC-approved alternate name, will allow us to be seen as equal among our peers. It will increase our credibility as we seek to recruit highly qualified academic staff, post-doctoral fellows and graduate students.

• While the primary objective is to use the name “School of Dentistry” for marketing and external communication such as our website, consistency of branding including signage is very important.

• Staff and students identify with the term ‘School’ and use it in their everyday language, which makes changing the name an easy cultural fit.

• The governance of Dentistry within the FoMD will not change under this proposal.

Support:
This request has been discussed with and is supported by the Interim Dean and Vice Deans of the FoMD. Feedback and support has also been provided from the Alberta Dental Association and College as well as the College of Registered Dental Hygienists of Alberta. Department of Dentistry Council has overwhelmingly supported the request for use “School of Dentistry” as a GFC-alternate Approved Name.

Sincerely,

Paul Major, DDS, MSc, FRCD(C)
Lead, School of Dentistry
Professor and Chair

Dr. C.G. Amrhein  
Provost and Vice-President (Academic)  
2-10 University Hall  
University of Alberta  
Edmonton, AB T6G 2J9

Dear Dr. Amrhein:

The College of Registered Dental Hygienists of Alberta (CRDHA) has been informed that the Department of Dentistry is requesting General Faculty Council approval to use the name “School of Dentistry” as an alternate name for the purpose of branding, marketing and external communication.

As the regulatory authority for the dental hygiene profession in Alberta, the CRDHA has close affiliations with the Department of Dentistry and its Dental Hygiene Program. CRDHA is pleased to be involved with the Department of Dentistry as a member of the Department’s admissions committee, curriculum committee and various staff selection committees. CRDHA has also participated in all site visits conducted by the Commission on Dental Accreditation of Canada. CRDHA works closely with the staff in Continuing Dental Education to ensure relevant continuing education opportunities for our registrants and we fund numerous student awards and scholarships to recognize the academic achievements of our future registrants.

CRDHA is writing in support of the Department of Dentistry’s request to use the alternate name “School of Dentistry” in order to be more consistent with the titles of other dental programs across North America, and to better reflect the actual operational structure of this educational unit within the Faculty of Medicine and Dentistry. We are optimistic that this new title for branding, marketing and external communications will have a positive impact on academic staff and graduate student recruitment, fundraising activities and overall recognition by external agencies including other dental programs.

Yours truly,

Brenda Walker  
Registrar

University of Alberta
Edmonton AB T6G 2-9

Dear Dr. Amrhein,

RE: School of Dentistry

It is with collegial recognition that the Alberta Dental Association and College (ADA+C) supports the Department of Dentistry request for General Faculty Council approval to use the name “School of Dentistry” as an alternate name for the purpose of branding, marketing and external communication.

Our two organizations have worked in partnership for nearly one hundred years to educate and supply the public with many of the best educated and most respected oral health professionals in the country. The term “School of Dentistry” exemplifies these attributes and holds the University of Alberta dentistry graduates at the high level that they should be placed.

The ADA+C is a member of the Departments admissions committee, curriculum committee and various staff selection committees. The ADA+C works closely with the Continuing Dental Education division of the Department to ensure that the profession has provincial based continuing professional education opportunities. The ADA+C financially supports the Department with student awards and scholarships. We have partnered in establishing the Fund for Dentistry research endowment and the ADA+C established two endowed positions in Geriatric Oral Health and Clinical Dental Research.

The name “School of Dentistry” is more consistent with the titles of other dentistry programs throughout North America and the expectations of the public, public, industry and other Universities. It is our opinion that this title will enhance the external profile of the dentistry program and facilitate fundraising opportunities.

Sincerely,

Dr. Robert Huff
President

Cc: Dr. Paul Major, Professor and Chair, Department of Dentistry
