The Purpose of the Proposal is (please be specific) The proposal is before the committee to approve the revised terms of reference for the GFC Academic Planning Committee

Executive Summary (outline the specific item – and remember your audience) The Report of the ad hoc Committee on Academic Governance including Delegated Authority, endorsed by GFC on April 21, 2017, contained recommendations of a general nature applying to all standing committees and recommendations specific to the Academic Planning Committee. In addition, through discussion by APC, a number of other gaps in the terms of reference were identified.

1. Added to terms of reference:
   - Clear reference to research within the terms of reference to clarify the responsibilities of the committee to this area.
   - Delegated authority to approve of program terminations.
   - Under responsibilities: Internationalization, Indigenous, and Information Technology policies and initiatives

2. Changes to terms of reference:
   - Change in delegation: It has been recognized that the key decision making point in program termination is actually at the time of program suspension. The terms of both APC and Academic Standards Committee (ASC) reflect a new pathway for suspensions that would progress with recommendations from ASC to APC to GFC and then the Board. APC would then be the final approver of terminations on the recommendation of ASC.
   - Change in delegation: Removal of APC recommending to the Board on certificates requiring government approval. This did not align with the approval authority for other programs wherein APC is the final approver.
   - Change in responsibility: The responsibility to recommend to GFC on policy directions for teaching and learning will be moved to the terms of the Committee on the Learning Environment (CLE) rather than having CLE recommend to APC and APC recommend to GFC.
   - Change in responsibility: The responsibility for the establishment of or change to general university admission or transfer policies
affecting students will lie with ASC to recommend to GFC for approval rather than ASC recommending to APC who recommends to GFC
- As an expanded responsibility, ASC will be reviewing new, and revisions to existing, programs and providing comments to APC.
- Enrollment and Planning has been revised to reflect current activities.

Changes to committee composition:
- Removal of cross representative from Executive to Academic Planning Committee
- Addition of one elected faculty member from GFC
- The recommendation to move the Vice-President (Finance and Administration) from an ex-officio member was rejected as the budget remains an important part of the committee’s mandate
- The Vice-Provost and University Registrar moves from a resource member to an ex-officio member to align voting status with that on GFC

Items that remain in the terms of reference pending further work:
- There were a number of recommendations from the ad hoc Committee Report related to the many components of program approval. On January 14, 2019 the GFC Executive Committee established an ad hoc committee to review current approval processes and propose revised pathways. Approved recommendations from this review will be incorporated into the APC terms of reference next year.
- Proposals from the Centre collegial de l’Alberta (CCA) remain in the terms of reference for the time being.

<td>The Report of the ad hoc Committee on Academic Governance including Delegated Authority noted that it was important to ensure that sufficient attention and priority is dedicated to research as an area of policy that is central to the university’s success and stature as a major research-intensive university. The report recommended that APC’s terms of reference be amended to clarify in more detail its delegated authority with regard to research-related issues, to clarify (for GFC and the university community) the place of research policy in governance, and to enhance the extent to which the committee would be more proactive in taking up research-related issues. A name change to the Academic and Research Planning was one of the ways suggested to accomplish this.</td>
<td>Since the report was endorsed in April 2017, APC has discussed and revised the proposed terms at many meetings.</td>
</tr>
<tr>
<td>Over the development of the proposed terms of reference, the structure and sub-titles of the document were revised to clearly articulate ‘research and research policy’ along with the committee’s delegated authority and responsibilities in this area. These additions address the spirit of the ad hoc committee’s recommendations by clarifying the role of APC on research-related issues, clearly placing research policy within governance, and positioning APC to be more proactive in taking up</td>

research-related issues.

At the March 13, 2019 meeting, members discussed whether it was necessary to refer specifically to research in the committee name as research is part of academic affairs. On March 25, the proposed terms of reference went to GFC for early consultation. Members at that meeting also questioned the need to include research in the name as it is part of academic affairs.

With this feedback in mind, and with the revisions to the format and content of the terms of reference, APC recommends that the name of the committee remain as the Academic Planning Committee.

Section 26(1)(o) provides that GFC may make recommendations to the Board of Governors on a number of matters, including "the budget" and "academic planning." GFC has thus established an Academic Planning Committee (GFC APC), as set out below. GFC delegates certain of its powers to the GFC Academic Planning Committee.

To recommend to the Board of Governors on matters regarding planning and use of physical facilities where these facilities are deemed to have a significant academic and/or financial impact on the University. (The determination of what constitutes a "significant academic and/or financial impact" will be made by the Provost and Vice-President (Academic).

b. To consider advice or recommendation from the GFC ASC on proposals which involve substantial change to admission/transfer regulations or to academic standing regulations.

8. Establishment/Termination of Academic Programs

a. To approve the establishment of new academic programs at the University of Alberta or those administered in cooperation with other post-secondary institutions.

b. To recommend to GFC on the termination of academic programs at the University of Alberta or those administered in cooperation with other post-secondary institutions. (GFC 27 MAY 2002)
c. To receive advice and comment from FDC on any facilities-related matter which may affect academic programs normally before an academic program proposal is considered by APC. Facilities-related matters may include requests for additional space or major new construction projects.

d. Where additional funding and/or space is required to support the offering of a proposed certificate and/or if, in the opinion of the Provost and Vice-President (Academic) the certificate required Government approval, ASC would provide a recommendation on the (proposed) initiative to APC. APC, in turn, would have the GFC delegated authority to give final approval for the proposal in those cases where Government approval of the certificate is not required; in cases where Government approval is required, APC would provide recommendation on the proposal to the Board of Governors (or delegate body). (GFC 31 MAY 2005).

All proposals for establishment of graduate degree specializations shall be submitted to the Dean of the Faculty of Graduate Studies and Research. The Dean, after consultation, may approve proposals which do not involve base operating or capital funds; the Dean will report these approvals to APC. Proposals which constitute new programs and/or which do involve base operating or capital funds will be considered and decided upon by APC.

13. Existing Undergraduate and Graduate Academic Programs:
   - Extension and/or Substantive Revision of Existing Programs
   - Revisions to or Extension of Existing Degree Designations

All proposals for major changes to existing undergraduate and graduate programs (eg, new degree designation, new curriculum) shall be submitted to the Provost and Vice-President (Academic). (Minor program changes are circulated for challenge to interested parties as set out in Section 37 of this Manual.) In cases where it is not clear if a change is major or minor, the Vice-President (Academic) will decide.

The Provost and Vice-President (Academic), after consultation with relevant Offices, committees or advisers will place the proposal before APC. APC has the final authority to approve such proposals unless, in the opinion of the Vice-President (Academic), the proposal should be forwarded to GFC with an attendant recommendation from APC. The Provost and Vice-President (Academic) may seek the advice of FDC on space-related matters inherent to the proposal prior to its consideration by APC.
Where additional funding and/or space is required for new non-credit programs and program expansions in the Faculty of Extension, the GFC ASC will recommend to APC.

14. Diploma Programs Offered by Centre collège de l'Alberta de l'University of Alberta

The Purpose of the Proposal is (please be specific)
The proposal is before the committee because the School of Library and Information Studies wants to reduce the course-load for the thesis-based MLIS program by *9 in elective courses, reducing the total course-load from *39 to *30 plus submission of a thesis.

Executive Summary (outline the specific item – and remember your audience)
The longstanding 39 course-load in the MLIS thesis-based program is no longer in the best interests of MLIS students given developments in higher education and the global academic enterprise.

The load change for the course-based MLIS (from *48 to *39) was approved by Advanced Education on February 8, 2019.

An email (March 2, 2019) received from the Director of American Library Association, Office of Accreditation, acknowledged the course reduction for the thesis-based MLIS “as an appropriate decision” (see attached email).

Proposal Template: Load Change

This template is for the presentation of proposals for changes in specialization load characteristics, including Program Length, Terms, Instructional Credits/Hours and Practicum Credits/Hours.

For degree programs, substantive changes to curriculum resulting in load changes may require referral to the Campus Alberta Quality Council.

1. Specify the change(s) to load characteristics being proposed. In cases where load changes reflect changes to existing curriculum, please attach revised course lists including calendar-level information (course titles, descriptions, weights).

   The School of Library Information Studies proposes to reduce the course-load of the MLIS thesis-based program from the current 39 credits of coursework to 30 credits, by reducing the number of required elective courses by 9 credits. This change will require students to take 10 3-credit courses rather than 13 3-credit courses. The 9 credit reduction will only apply to elective courses.

   Note: This change only applies to the thesis-based MLIS program and does not apply to the combined MA/MLIS program.

2. Describe the institution’s approval process for the proposed change(s).

   The proposal for the reduction of course-load from the current 39 credits of coursework to 30 credits was approved by the School of Library and Information Studies Academic Council and School Council on February 14, 2019. (See Appendix A)

3. Provide a rationale for the proposed change(s). (Factors may include, but need not be limited to changes in the relevant body of knowledge and/or technology, changes in regulatory and/or professional standards, feedback from students or employers, or alignment with similar/related programs at other institutions.)
Rationale: The longstanding 39 course-load in the MLIS thesis-based program is no longer in the best interests of MLIS students given developments in higher education and the global academic enterprise (e.g., institutional, pedagogical, economic, cultural, political, and so on). In order to sustain the time-honoured rigour and quality in our MLIS program, evidenced in part by continuous accreditation status, and the concomitant educational experiences of our students, a reduction of course-load from 39 to 30 is recognized as favourable. Conditions that support this favourability include but are not limited to:

- Our MLIS program is assessed, sustained and valued by measures of rigour and quality.
- Professional graduate education is deepened by experiential learning and professional development activities. SLIS believes that the reduction of required credits will allow students to benefit from a wider range of professional development activities and experiential learning opportunities.
- Numerous graduate professional programs in the Faculty of Education and more broadly at the University of Alberta require lower than 30 credits.
- Other ALA accredited Masters’ programs offer less than 39 credits (and some have reduced their required credits) and maintained their accreditation status without issue.
- The MLIS program currently allows students to take up to three 3-credit courses outside the program in order to diversify and enhance their knowledge base and professional development.

Student feedback: A survey was conducted to collect feedback from MLIS students registered in both online and on-campus teaching offerings. More than 84% of the surveyed students (190 students) support the credit reduction change to the MLIS program.

4. Describe anticipated impacts on students, and plans to ameliorate any such impacts.

This impact will affect current students. This change will allow active students the choice of whether to complete their MLIS early, with the new change of reduced electives, or continue their program with the existing credits. We will continue to work closely with individual students that want the reduced electives and guide them through the process. Then we will continue with our faculty advisors who will actively help students work through these changes and help them select appropriate courses to achieve their goals.

SLIS has made effective use of online and on-campus forums and the department website to inform current/prospective students of this change.

5. Where appropriate, provide evidence of consultation with external stakeholders (e.g. employers, professional/ regulatory organizations) and describe any anticipated impacts on those stakeholders.
SLIS School Council consists of Library and Information Studies academic staff and representatives of other stakeholder groups with voting privileges as follows:

- The President of the University, or designate;
- The Dean of the Faculty of Education, or designate;
- The Chair of SLIS, who shall be Chair of SLIS School Council; and
- All continuing full-time members of SLIS academic staff drawn from Academic Council.
- At the University of Alberta academic staff is interpreted to mean all continuing academic staff
- The Chief Librarian of the University, or designate;
- The Chief Executive Officer of the Edmonton Public Library (EPL), or designate;
- The Provincial Archivist of the Provincial Archives of Alberta or President of ARMA,
- Edmonton Chapter (rotating vote);
- The Director, Public Library Services, Library Services Branch, Municipal Affairs; and
- One representative for all SLIS Sessional Instructors and SLIS Adjunct Faculty (includes only teaching sessional instructors and teaching adjunct faculty for current academic year).
- One SLIS Alumnus/Alumna from the Library and Information Studies Alumni Association (LISAA) (President or designate);
- Two master’s level SLIS student representatives from the Library and Information Studies Student Association (LISSA) (normally the President & Vice-president, or otherwise nominated); and
- One SLIS doctoral student representative (subject to PhD enrolment at SLIS).
- Digital Humanities Program of the Faculty of Arts (Appointed by the Dean);
- Faculty of Education (Appointed by the Dean)
- MBA Program, Alberta School of Business (Associate Dean, MBA)

We have representatives from the School of Library and Information Studies Student Association on the School Council, and they had an opportunity to provide input on the reduction of the number of credits in the program. In addition, a student survey was conducted in September 2018 to gather feedback from all students registered in the MLIS program. (See Appendix B)

6. Discuss any anticipated impacts of the proposed change(s) on institutional operations and resources (e.g. operating budget, staffing, student services, information technology, library, classroom and lab space).

SLIS does not anticipate any impact on student services, information technology, library, classroom and lab space. It is anticipated that the proposed changes will enhance efficiency and operation of the program and will have a positive impact on staffing. Impact on elective course delivery and sessionals will be that SLIS will save financial and human resources by reducing the number of sessionals teaching elective courses.

Subject: [slis-faculty] SLIS School Council Motion for MLIS Credit Reduction

Good Afternoon

Please see below for a message from SLIS Chair Toni Samek about the motion to reduce the thesis-based MLIS, followed by the motion itself.

Dear School Council 2018-19,

Happy New Year!

Thank you again for your unanimous vote supporting credit reduction in the MLIS program (see minutes of our October 12, 2018 meeting). We are now in the process of channeling our work forward in a series of steps through the Faculty of Graduate Studies (FGSR) for vetting and then the University’s Academic Planning Committee (APC) for vote.

After vetting approval from FGSR, in December 2018, we presented a motion to APC for the course-based credit reduction (from 48 to 39) and received unanimous support. It was a very positive experience and we were green-lighted to follow up with a sister motion for the thesis-based MLIS (from 39 to 30), as thesis-based and course-based routes are considered separate streams by FGSR.

Only 3% of our MLIS students have pursued the thesis route in the last five years, however it is an educational lane we intend to keep open for the future. By its nature, the thesis-based MLIS has always had a smaller course-load than the course-based degree. A course-load reduction for the thesis-based MLIS has the same implication as with the course-based MLIS: three less elective courses. FGSR recommends the motion as phrased below for clarity.

Thus, we now, by electronic ballot, seek your support on this sister motion, encouraged by both the Faculty of Graduate Studies and the Academic Planning Committee.

Toni Samek, PhD
Professor and Chair
School of Library and Information Studies

Motion for the MLIS thesis-based route credit reduction change:
To reduce the course-load of the MLIS thesis-based program from the current 39 credits of coursework to 30 credits, by reducing the number of required elective courses by 9 credits.

An electronic vote will be sent via Google Form to all voting School Council members following this email. Voting members should submit their vote by the end of February 14, 2019. And for all, please do not hesitate to contact us should you have any questions.

Thank You

TO: Toni Samek, Professor and Chair, School of Library and Information Studies, Faculty of Education, University of Alberta

Dear Dr. Samek:

This is to acknowledge as an appropriate decision by the Faculty of Education of the School of Library and Information Studies to bring forward for approval a reduction of credit load from 39 to 30 for the thesis-based option of the accredited Master's of Library and Information Studies program. It is understood that this involves a reducing in the number of elective courses.
