## Proposed by

- Melissa Padfield, Interim Vice-Provost and Registrar
- Lesley Cormack, Dean, Faculty of Arts

## Presenter(s)

- Tammy Hopper, Vice-Provost (Programs) and Chair, GFC Academic Standards Committee

## Details

### Responsibility

Provost and Vice-President (Academic)

### The Purpose of the Proposal is *(please be specific)*

See individual item for detail on proposed changes submitted by Faculties and the Office of the Registrar.

### Executive Summary *(outline the specific item – and remember your audience)*

The Office of the Provost and Vice-President (Academic) has determined that the proposed changes are editorial in nature. ASC's terms of reference provide that "the term 'routine and/or editorial' refers to proposals which do not involve or affect other Faculties or units; do not form part of a proposal for a new program; and do not involve alteration of an existing quota or establishment of a new quota. Editorial or routine changes include any and all changes to the wording of an admissions or academic standing policy" (3.A.i).

### Entrance Requirements

The minimum admission requirements for the LLM are an undergraduate JD degree with an average of 3.0 in the last two years of the JD at the University of Alberta, or an equivalent qualification from a recognized institution. The minimum admission requirements for the PhD are an LLM degree or its equivalent with an average of 3.0 in the last two years of graduate and undergraduate work.

In addition, a minimum TOEFL score of 600 (paper-based) or 100 (Internet-based, with at least 25 in each section), an IELTS (Academic) score with a minimum overall band score of 7.0, with at least 5.5 on each band, or a PTE (Academic) overall minimum score of 68 where applicable is required (see English Language Requirement). Specific requirements are found below under the appropriate degree heading.

For the LLM, the Faculty’s minimum admission requirements are an undergraduate JD or LLB degree with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

For the PhD, the Faculty’s minimum admission requirements are an LLM degree with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

Where applicable, applicants must provide proof of English Language Proficiency (refer to English Language Requirement). Any one of the following is acceptable:

- a minimum TOEFL score of 100 (Internet-based, with at least 25 in each section), or equivalent
- an IELTS (Academic) score with a minimum overall band score of 7.0, with at least 5.5 on each band,
- a PTE (Academic) overall minimum score of 68

Applicants are also required to submit the following:

- Chronological resume or curriculum vitae
- Three reference forms and letters of recommendation completed and submitted by the referees
- a Statement of Motivation. Please follow the Statement of Motivation Instruction Form.
- a Research Proposal. See Admissions on the Department website for further information.
The deadline for all applications to be submitted is December 1.

Justification: FGSR Compliance Project
- Ensuring all entrance requirements, including required supporting documentation and application deadlines are in the calendar
- Clarification of Program Requirements

Note: the calendar change for the PD requirement for all programs in Law is going through a separate approval process.

All changes reflect current practice

**Entrance Requirements**
The minimum admission requirements of the Faculty are an undergraduate degree in pharmacy with an average of 3.0 in the last two years of undergraduate (or graduate) work at the University of Alberta or an equivalent qualification from a recognized institution. Individuals with previous degrees in fields other than pharmacy will also be considered.

Where applicable (see English Language Requirement), applicants must obtain a minimum score of 550 (paper-based) or a total score of 88 with a score of at least 20 on each of the individual skill areas (Internet-based) on the TOEFL test, or a minimum overall band score of 6.5, with at least 5.5 on each band on the International English Language Testing System (IELTS).

**Entrance Requirements**
The Faculty's minimum admission requirements are an undergraduate degree with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

Applicants should normally be graduates in pharmacy, however the Faculty will accept qualified applicants with degrees in related fields.

Where applicable, applicants must meet the minimum English Language Requirement. NOTE: English language scores that are more than two years old will not be accepted.

Applicants must have a qualified faculty member agree to provide supervision before applying for admission. See Application Process on the Faculty website for further information.

Applicants are required to submit the following:
- Curriculum vitae or resume
- Three letters of reference

For Canadian citizens and permanent residents, the application deadlines are August 1 for Fall term admission, and November 15 for Winter term admission.

Applicants are required to submit the following:
- Curriculum vitae or resume
- Three letters of reference

For Canadian citizens and permanent residents, the application deadlines are August 1 for Fall term admission, and November 15 for Winter term admission.
For International students, the application deadlines are June 1 for Fall term admission, and October 1 for Winter term admission.

**Academic Standing Requirement**
Students are required to maintain a minimum cumulative grade point average of 3.0, with no grade less than C+, throughout the course of the program. Failure to maintain the required cumulative GPA will normally result in a recommendation by the Assistant Dean - Graduate Studies to FGSR that the student be placed on academic probation or required to withdraw.

Justification:
FGSR Calendar compliance. The following revisions have been made to the existing regulations in the Calendar:

#### Entrance Requirements

Minimum admission requirements for this program are a four-year undergraduate degree with a grade point average of at least 3.0 on a 4-point scale, or the equivalent, in the last two years of previous relevant studies.

Where applicable, a TOEFL score in excess of 600 (paper-based) or 100 (Internet-based) is required (see English Language Requirement).

**Students** must hold a bachelor’s degree in Computing Science, Electrical Engineering or Computer Engineering, or in a related field in Science or Engineering with some relevant experience. Industrial experience may also be considered as a factor when considering admission of students close to these boundaries.

It should be noted that these are minimum requirements only.

#### Entrance Requirements

The Department’s minimum admission requirements are an undergraduate degree with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

**Applicants** must hold a bachelor’s degree in Computing Science, Electrical Engineering or Computer Engineering, or in a related field in Science or Engineering with some relevant experience. Industrial experience may also be considered as a factor when considering admission of students close to these boundaries.

Where applicable, **applicants must provide proof of English Language Proficiency** (refer to English Language Requirement). Any one of the following is acceptable:

- a TOEFL score in excess of 100 (Internet-based) or equivalent;
- a minimum IELTS score of 6.5 with at least 5.5 on each band;
- an equivalent score on an English Language Proficiency test approved by the Faculty of Graduate Studies and Research.

It is strongly recommended that applicants submit a 3-4 page document outlining a capstone project proposal. See [Applying for the MINT Program](#) on the Internetworking website for further details. While this is not compulsory, it may improve one’s chances of a successful application.

It should be noted that these are minimum requirements only. **Admission is competitive and applicants will be ranked with all applicants in a given admission year.**

### Entrance Requirements

**Current:**

The Department’s minimum admission requirements are a four-year undergraduate degree with a grade point average of 3.0 in the last two years of undergraduate (or graduate) work from the University of Alberta, or an equivalent qualification from a recognized institution.

Candidates should normally be graduates in chemistry, however the Department will accept qualified applicants with degrees in related fields (cf., biochemistry or other bioscience programs from candidates who wish to pursue the chemical biology PhD program, and mathematics and/or physics background compensating for deficiencies in chemistry from those who wish to enter the chemical physics PhD program.)

English language proficiency requirements are a minimum TOEFL score of 550 (paper-based) or 88 (internet-based) or equivalent, where applicable (see English Language Requirement). To qualify as a Teaching Assistant, candidates must have a TOEFL score of at least 570 (paper-based) or 88 (internet-based) or equivalent.

**Proposed:**

The Department’s minimum admission requirements are an undergraduate degree with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

Where applicable, applicants must meet the minimum English Language Requirement.

Students are also required to submit the following:

- A Department Package in which applicants detail relevant academic and professional background and statement of purpose. A link to this document is found on the online application form.
- Three letters of reference.

The deadline for submitting applications for admission is February 1 for September admission.

Applicants are judged not only on their academic record but also by their professional promise as indicated in three letters of reference (letters to support application for graduate admission), statement of purpose, and curriculum vitae.

Admission offers are made from a review of complete applications received by the School by February 1. A complete application includes the application form and its supporting materials, transcripts, and three letters of reference (letters to support application for graduate admission). Where fewer than three academic referees are available, one professional/supervisor referee is acceptable for one of the references. All must be received before applications can be reviewed for admission to the MLIS program. Applicants considered will receive notification of a decision on their application no later than March 31. Once the School’s acceptance limit is reached, subsequent acceptable applicants may be placed on a waiting list.

Decisions on internal scholarships and awards are normally made by June 1. Students are encouraged to seek out opportunities for scholarships and awards and to apply for these prior to and during the course of their programs.

Students who are offered admission to the MLIS program may have their admissions deferred to the following fall term if the School is notified in writing before the beginning of the Fall term.

**Entrance Requirements (Degree Programs)**

The minimum requirements for admission into the degree programs are:

**For the MSc,** a bachelor's degree or equivalent or a previous graduate degree in a rehabilitation discipline or related field from a recognized postsecondary institution.

**For the PhD,** a master's degree in a rehabilitation discipline or a related field from a recognized academic institution or an Honors BSc degree (or equivalent) in rehabilitation or a related field from a recognized academic institution.

A minimum grade point average of 3.0 on a 4-point scale (or equivalent) in the most recent two years of study.

For the PhD, evidence of research potential as demonstrated by scholarly work.

Proof of English language proficiency, where applicable (see English Language Requirement).

**For the MSc,** the Faculty’s minimum admission requirements are a bachelor's degree or a previous graduate degree in a rehabilitation discipline or related field with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

For the PhD, the Faculty’s minimum admission requirements are a master's degree in a rehabilitation discipline or a related field or an Honors BSc degree in rehabilitation or a related field with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

Where applicable, applicants must provide proof of English Language Proficiency (refer to English Language Requirement). Any one of the following is acceptable:

- a minimum TOEFL score of 100 with at least 25 on each of the individual skill areas (internet-based) or equivalent;
- a minimum overall IELTS score of 7.5 with at least 7.0 on each test band;
- a minimum Pearson Test of Academic English score of 70, with at least 70 on each band.

Applicants must identify faculty member(s) within the Faculty of Rehabilitation Medicine who have agreed to supervise them.
References from members of an academic community who are knowledgeable about the applicant's academic and research capabilities.

Applicants are also required to submit the following:

- three reference letters from members of an academic community who are knowledgeable about the applicant's academic and research potential and capabilities;
- a current curriculum vitae; and
- a research statement describing the research interests discussed with the potential supervisor, the applicant's academic, vocational or research background, and career goals.

The application deadlines are April 15 for Fall entry and September 15 for Winter entry.

**Academic Standing Requirement**

Students are required to maintain a minimum cumulative grade point average of 3.0, with no grade less than C+, throughout the course of the program. Failure to maintain the required cumulative GPA will normally result in a recommendation by the Associate Dean, Graduate Studies to FGSR that the student be placed on academic probation or required to withdraw.

Justification:

1. **FGSR Calendar compliance**
   - Ensuring all entrance requirements, including required supporting documentation and the requirement to obtain a supervisor, are listed in the Calendar
   - Ensuring Academic Standing, Ethics and Professional Development requirements are in the calendar
   - Clarifying Program requirements according to the FGSR calendar checklist

   These changes all reflect current practice.

2. **Raising minimum ELP requirements**
   The motion “that the English language admission requirements for Rehabilitation Sciences applicants be increased to IELTS 7.5, and no band score lower than 7; TOEFL internet score of 100 with no individual score lower than 25; Pearson Test of Academic English, no score lower than 70” was passed by Executive in April 2019.
   This change is proposed for implementation for Fall 2020 admissions.

**Entrance Requirements**

Minimum requirements include a four-year baccalaureate degree (see Note) or equivalent from a recognized academic institution with a grade point average of at least 3.0 in the most recent 60.

The selection process is competitive and will be based on the GPA in the most recent 60 taken prior to January of the admission year. Applicants are initially rank ordered according to their Admission GPA. Applicants who have completed 30 over two consecutive terms will be ranked above those who have taken fewer than 30.

Activity courses in Physical Education, studio courses in Fine Arts, and practicum courses are not considered part of the required 60 admission requirements and are not included in the calculation of the admission GPA.

The Department's minimum admission requirements are a four-year baccalaureate degree with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

The selection process is competitive and will be based on the GPA in the most recent 60 taken prior to January of the admission year. Applicants are initially rank ordered according to their admission GPA. Applicants with the same GPA who have completed 30 over two consecutive terms will be ranked above those who have taken fewer than 30.

Activity courses in Physical Education, studio/performance courses in Fine Arts, practicum courses, pass/fail courses and seminar/research/thesis/individual studies courses are not considered part of the required 60 admission requirements and are not included in the calculation of the admission GPA.

One Statistics course (3) and one human anatomy course (3), completed within the last ten years, by June
find it to their advantage to have taken a human physiology course prior to entering the program.

Where applicable, applicants must provide proof of English Language Proficiency. Any one of the following is acceptable:

- a minimum TOEFL score of 100 with a score of at least 25 on each of the individual skill areas (Internet-based), or equivalent;
- a minimum Academic IELTS overall score of 6.5, with at least 5.5 on each band;
- a minimum PTE Academic overall score of 59.

All applicants are also required to submit the following:
- a curriculum vitae in a pre-set format (available for download with the Online Application for Graduate Admission),
- two letters of recommendation,
- a description/evidence of suitability for this program and profession.

In addition, applicants are required to complete an online situational judgement test as part of the application package.

All components of the application package will be considered in the admission decision. Outstanding applicants will be recommended for early acceptance. The remaining applicants will be advised of their status by June 30 of the admission year.

[...]
Students are required to pass all courses and to maintain a minimum cumulative grade point average of 3.0 throughout the course of the program.

The first failure of an MScOT academic or fieldwork course, or failure to maintain the required cumulative GPA may result in a recommendation by the Graduate Coordinator to FGSR that the student be placed on academic probation or required to withdraw.

[...]

Justification:

Adopted new formatting as per FGSR's recommendation.

Inserted standard wording in entrance requirements, ELP requirement, academic standing, program requirements, and length of program.

Added standard wording for ethics and PD requirements (Note: the MScOT is exempt from the PD requirement).

Clarification of courses to be excluded from Admission GPA Calculation (Physical Activity, Pass/Fail/Studio/Seminar/Research/Thesis/Individual Studies).

Clarification of Academic Standing: Probationary status implemented for students with GPA falling below 3.0.

Updated course requirements to reflect removal of INTD 410 (3*) and addition of three 1* courses related to interprofessional practice (REHAB 501, REHAB 502 and one other 1* course as directed by Department).

**Entrance Requirements**

The Department generally does not accept students with less than an honors grade (3.3 at the University of Alberta) in the last two years of their undergraduate degree, or an equivalent qualification from another recognized institution.

Where applicable, a minimum TOEFL score of 600 (paper-based) or 96 (Internet-based) is required.

The Department’s minimum admission requirements are an undergraduate degree in a related discipline with an admission GPA of at least 3.3 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

It is highly recommended that international applicants hold a Master's degree in a related area of Basic Science; applicants without this credential should specifically address the suitability of their undergraduate training to our program.

Where applicable, applicants must provide proof of English Language Proficiency (refer to English Language Requirement). Any one of the following is acceptable:

- a minimum TOEFL score of 96 (Internet-based) or equivalent
- an equivalent score on an English Language Proficiency test approved by the Faculty of Graduate Studies and Research.

Applicants are also required to submit

- Curriculum Vitae
- Statement of Interest – maximum two page personal statement indicating motivation for pursuing graduate studies
- Three letters of reference, preferably from Professors familiar with applicants’ research experience

Evidence of research experience in a laboratory setting is advantageous.
We also require international students applying to our program to hold a Master's degree in a related area of Basic Sciences, but may grant waivers in cases where the applicants specifically address the suitability of their undergraduate training to our program.

Application Deadlines
For Canadian citizens and permanent residents, applications are due by July 1st for September intake and November 1st for January intake.

For International students, applications are due by April 1st for September intake and August 1st for January intake.

Academic Standing Requirement
Students are required to maintain a cumulative GPA of at least 2.7 with no grade less than B-; however, students wishing to proceed to a later PhD in the Department must maintain a cumulative GPA of at least 3.0 with no grade less than B-.

Candidacy Exam
After completion of required coursework, students must pass an oral candidacy examination in order to continue in the program. The candidacy exam consists of a written research proposal and oral defense of that proposal. Students must complete MMI 605 prior to their candidacy exam. The candidacy exam must be completed within the first 30 months of the student’s program.

Academic Standing Requirement
Students are required to maintain a cumulative GPA of at least 3.0 with no grade less than B-.

Justification: FGSR is working with all programs to update their calendar entries to utilize recommended language and have similar types of content. The changes here are reflective of this recommended language.

FGSR Calendar compliance. The following revisions have been made to the existing regulations in the Calendar:
- Ensuring all entrance requirements are in the calendar, including all supporting documentation and application deadlines
- Clarification of all program requirements
- Updating formatting and inserting standard calendar wording

For the PhD program, the Department’s minimum admission requirements are an MSc or MD degree with an admission GPA of at least 3.0 on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

International candidates, except those applying from the USA, are not accepted directly to a PhD program (except under exceptional circumstances). These candidates may change program category to a PhD program after 12 months in the MSc program, following presentation of their PhD proposal and upon recommendation from their thesis advisory committee.

Since research in Physiology generally requires a broad background from several fields, completion of courses in the following areas is highly recommended for all applicants:

- Physiology 210 or 212, or an equivalent full year course in Human Physiology.
- Biochemistry 200 and one of 310, 320 or 330, or an equivalent full year course in Biochemistry.
- Introductory courses in basic Physics and Calculus are recommended.
An introductory course in Statistics is recommended.

Where applicable, applicants must provide proof of English Language Proficiency (refer to English Language Requirement). Any one of the following is acceptable:
- verified completion of an undergraduate or graduate degree with an English curriculum;
- TOEFL score of at least 100 with at least 22 per section (Internet-based), or equivalent
- IELTS score of 7.5 or higher with at least 6.5 on each band

The Department of Physiology requires that applicants identify a supervisor who has committed to supervise the student for the duration of their program.

All applicants are also required to submit the following:
- a CV
- a statement of interest
- three letters of reference (with at least two from academic referees)

Additional application information can be found on the Department of Physiology website.

All applicants must apply for admission online prior to the following cut-off dates:
- July 1 for September admission
- November 1 for January admission
- March 1 for May admission
- May 1 for July admission

**Academic Standing Requirement**
Graduate students in the Department of Physiology must maintain a minimum cumulative grade point average of 3.0 throughout their program. Failure to maintain the required cumulative GPA will normally result in a recommendation by the Graduate Coordinator to FGSR that the student be placed on academic probation or required to withdraw.

Justification:
General Information: Additional information added regarding areas of research, added links to Graduate Administrator, The Department’s Graduate Manual and Website. Removed sentence suggesting that interested individuals should contact the Head of Department.
Entrance Requirements: Included additional information on requirements for admission that include: GPA, language requirements, requirement for obtaining commitment from a supervisor. The language requirement has increased in line with an upcoming move from FGSR.

Academic Standing: We have now included in the Calendar the requirement that students need to maintain a GPA of 3.0 to remain in the program. This has been in our Departmental Graduate Manual for some time.

Financial Assistance: Additional information regarding scholarships (& funding sources) added, availability of teaching and research assistantships clarified; tuition fees mentioned & linked.

Program requirements: We have added sections that clearly define all program requirements, including: courses, candidacy, academic standing, residency, length of program and Department Seminar Program. Course requirements have been updated to be consistent with Department requirements. The previous Calendar entry suggesting 9 and 6 course credits for the MSc and PhD degrees were recommendations by FGSR but never part of the Dept of Physiology requirements. The Dept did not have course requirements until ~5 years ago, when, at the advice of FGSR, we introduced 3 and 6 credit requirements for the MSc and PhD degrees, respectively. The focus of the Department programs is on research – courses are assigned on an individual basis to address deficits in necessary background.

Times to completion of the various requirements have been amended to meet FGSR requirements.

**General Information**

**Entrance Requirements**

For Master's programs, the Department’s minimum admission requirements are an undergraduate degree with an admission GPA of at least **3.0** on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

For Doctoral programs, The Department’s minimum admission requirements are a research-based master's degree with an admission GPA of at least **3.3** on the 4-point scale from the University of Alberta, or an equivalent qualification and standing from a recognized institution. The admission GPA will be calculated on the last 60 of graded coursework completed, or on the equivalent of the last two years of full-time graded coursework.

The Research Training Committee will determine if a student has sufficient research
experience to be admitted directly to the PhD program.

Where applicable, applicants must meet the minimum English Language Requirement.

Where applicable, applicants must provide proof of English Language Proficiency (refer to English Language Requirement).

- Applicants must have a minimum overall Academic IELTS score of 7.0, with a minimum of 6.5 on each band.

**Executive Summary (outline the specific item – and remember your audience)**

The proposed changes to the Augustana Faculty academic probation regulations will allow students a more flexible and accessible pathway to complete their academic probation conditions and regain satisfactory standing within the Faculty. The proposed changes would extend the period of time in which students have to complete their academic probation conditions from one academic year to the time it takes them to complete *24 with a minimum GPA of 2.0. By extending the timeline, this allows for students who, for a number of reasons, may be more successful taking less credits during a term, such as students who require accessibility support.

The current academic probation conditions require students to complete a minimum of *9-13 each Fall and Winter term (with a maximum of *3 during the 3 week course period and a maximum of *10 during the 11 week course period) with a minimum GPA of 2.0 during one academic year of probation. The change would allow students to complete a maximum of *3 in the 3 week course period and a maximum of *10 in the 11 week course period. Once they complete *24, they would receive an academic standing in the term they completed their final credits.

Students who attend for only one term of Fall/Winter are eligible if they complete at least ★9 with a minimum GPA of 3.7.

2. **Satisfactory Standing:** Satisfactory standing is given to a student who achieves a GPA of at least 2.0. Students with satisfactory standing are academically eligible to continue studies in Augustana Faculty.

3. **Marginal standing:** Marginal standing is given to a student who achieves a GPA of 1.7 to 1.9. Students with marginal standing will be placed on academic warning and will normally have one Fall/Winter of assessment to return to satisfactory standing. Students failing to return to satisfactory standing will be required to withdraw from Augustana Faculty. Students with marginal standing will also be required to withdraw if they have previously had unsatisfactory or marginal standing at the end of any period of assessment at Augustana Faculty or have previously been required to withdraw from Augustana, another Faculty, or another postsecondary institution.

4. **Unsatisfactory standing:** Unsatisfactory standing is given to a student who obtains a GPA less than 1.7. Students with unsatisfactory standing will be required to withdraw from Augustana Faculty.

**Other Regulations Related to Academic Standing**

1. A student who has been required to withdraw from Augustana or any other Faculty, or from another postsecondary program, will not be considered for readmission until at least one full year has elapsed.

**d. Unsatisfactory standing:** Unsatisfactory standing is given to a student who obtains a GPA less than 1.7. Students with unsatisfactory standing will be required to withdraw from Augustana Faculty.

**3. Probation**

Students who have been required to withdraw and who have successfully appealed that decision will be placed on Probation (See also Academic Warning, Academic Probation, Required to Withdraw).

**a. Probationary students complete a minimum of ★24 with a GPA of 2.0 or higher or ★18**
2. A student who has been required to withdraw from Augustana or any other Faculty after having previously been required to withdraw from Augustana, another Faculty, or from another postsecondary institution will not be considered for readmission except by special permission of the Associate Dean, Academic.

Documentation of Academic Standing

At the end of each academic year, a statement of grades is available on Bear Tracks (https://www.beartracks.ualberta.ca).

b. Probationary students may not take any more than ★13 in each of Fall and Winter Terms (no more than *3 3-week courses and no more than *10 11-week courses).

c. Probationary students may take more than one set of Fall/Winter Terms to complete probation, (courses taken in the Spring or Summer terms will be included in the GPA calculation).

d. Probationary students may also be subject to other requirements as specified by the Associate Dean, Academic.

Note: The probationary GPA for students who take longer than one Fall/Winter to complete probationary requirements and who take more than ★24 during the period of probation may be based on more than ★24. Grades for all courses completed during the probationary period are used.

Probationary students who fail to attain the GPA and other requirements for probation as specified by the Associate Dean will fail Probation and will be required to withdraw from the Augustana Faculty without appeal.

A maximum of two periods of Probation are allowed while registered in the Augustana Faculty. Students who have cleared their second Probation and whose GPA at the end of a subsequent Fall/Winter falls below 2.0 will not be permitted to continue on Academic Warning, nor will they be allowed a third period of Probation. Such students are required to withdraw from the Augustana Faculty.

Subsequent to having been required to withdraw, students may be required to successfully complete ★18 transferable to the University with an AGPA of 2.7 or ★24 transferable to the University with an AGPA of 2.0 at another post secondary
institution, after which they may apply for readmission to a Faculty.

4. Other Regulations Related to Academic Standing

A student who has been required to withdraw from Augustana or any other Faculty, or from another postsecondary program, will not be considered for readmission until at least one full year has elapsed, except in the case of students granted Probation due to a successful appeal to the Associate Dean, Academic.

5. Documentation of Academic Standing

At the end of each academic year, a statement of grades is available on Bear Tracks (https://www.beartracks.ualberta.ca).

<tbody>
<tr>
<td>The Purpose of the Proposal is <em>(please be specific)</em></td>

</tr>
</tbody>
</table>

1. To approve the suspension of nine current majors in the Bachelor of Arts program at Augustana Faculty (Visual Arts, Drama, Economics, English, History, Modern Languages, Music, Philosophy and Religion, and Political Studies), and

2. To consider proposals by Augustana Faculty for the adoption of a new Liberal Arts and Sciences project-based Core, and the creation of new multi-disciplinary fields of study as second-level specializations within the Augustana Bachelor of Arts in Interdisciplinary Studies program, and to recommend these proposals for approval to the GFC Academic Planning Committee.
In 2017, Augustana Faculty Council committed to an in-depth review of the curriculum of its majors and core in order to address a variety of overlapping issues including the disproportionate number of course offerings with overly large and overly small enrollments, the need for increased engagement of tenure-track staff to meet current curriculum requirements, and a lack of differentiation between programs offered by Augustana Faculty compared to other University of Alberta Faculties. This challenge was met by initially creating the Augustana Ad Hoc Curriculum Review Research Committee (CRRC) and subsequently, in August 2018, the creation of the Augustana Ad Hoc Curricular Innovation Coordinating Committee (CICC).

The work of CICC has resulted in the following proposals being adopted by Augustana Faculty Council during its Spring Workshop sessions on May 9, 2019:

**Suspensions - BA Majors**
To facilitate the realization of a new and dynamic curriculum at Augustana, the Faculty proposes to suspend admission into nine current majors:

- Visual Art
- Drama
- Economics
- English
- History
- Modern Languages
- Music
- Philosophy & Religion
- Political Studies

**Liberal Arts and Sciences Core Changes**
A new liberal arts and sciences core with a focus on project-based learning that complements and expands upon the knowledge and skills offered in the Bachelor of Arts, Bachelor of Management, and Bachelor of Science programs in Augustana Faculty, particularly the proposed new second-level specializations in the Bachelor of Arts Interdisciplinary Studies major.

**Bachelor of Arts in Interdisciplinary Studies – New Second-Level Specializations (Concentrations)**

The development of three new multi-disciplinary learning opportunities within the structure of the current Bachelor of Arts in Interdisciplinary Studies major (with more likely to follow in the near future):

- Law, Crime and Justice
- Creativity and Culture
- Ethics and Global Studies
Current students will be able to finish their studies and receive the Bachelor of Arts in the major that they were admitted into or have the option of switching to the new BA-IDS programs. Assuming these programs are approved in time to accept applications for the 2020/2021 academic year, students enrolled in the suspended majors would be asked to complete all program requirements by April 30, 2024.

As of July 1, 2019, ASC’s mandate will include reviewing new program proposals and substantial revisions to programs, and providing recommendations to the GFC Academic Planning Committee (APC). Motion II relates directly to this expanded mandate as APC will see this proposal in fall 2019.

SECTION A: PROGRAM SUSPENSION

SECTION 1: RATIONALE

1.1 Identify the purpose for the suspension with supporting rationale and evidence (e.g., low student demand, declining labour market demand, institutional capacity, need for program redevelopment, quality assurance review recommendation, etc.).

In 2017, Augustana Faculty Council committed to an in-depth review of the curriculum of its majors and core in order to address a variety of overlapping issues including the disproportionate number of course offerings with overly large and overly small enrollments, the need for increased engagement of tenure-track staff to meet current curriculum requirements, and a lack of differentiation between programs offered by Augustana Faculty compared to other University of Alberta Faculties.

This challenge was met by initially creating the Augustana Ad Hoc Curriculum Review Research Committee (CRRC) and subsequently, in August 2018, the creation of the Augustana Ad Hoc Curricular Innovation Coordinating Committee (CICC).

In May 2019, CICC presented a report to Augustana Faculty Council which resulted in a number of recommendations, including the creation of several new second-level specializations within the structure of the current Bachelor of Arts in Interdisciplinary Studies major (BA-IDS); the implementation of a new liberal arts and sciences core curriculum with a focus on project-based learning to develop additional skills to compliment the new learning opportunities embedded in new specializations, and the suspension of several first-level specializations (majors) currently offered as part of the Augustana Bachelor of Arts program which require significant resources to maintain for proportionately low student enrollments.
These recommendations were all approved by significant margins at the May Faculty Council meetings.

One of the majors approved for suspension is the Bachelor of Arts in Visual Arts. Currently, Augustana offers a Bachelor of Arts in Visual Art as a first-level specialization, with students given the option of completing one of two available second-level specializations in either Art Studio, or Art History and Visual Culture.

While the program has produced a number of excellent graduates, the Visual Art program requires intensive teaching demands, particularly in the Studio specialization, and the continuing enrollments make it difficult to justify the resources dedicated in this area. One of the newly-adopted second-level specializations offers broad-ranging multi-disciplinary learning opportunities in fine arts, languages, and literature, which will enable students interested in Visual Art the ability to still pursue and develop the core skills of the current Visual Art major, while enhancing these with a greater range of knowledge within a wider fine arts and humanities context.

1.1.1  Document enrolments (by FLE and headcounts) for the most recent 5-year period, including the current academic year if available.

1.1.3  Explain how the proposed end date of the suspension was determined.

The standard five year period was used in formulating the proposal.
1.1.4 Provide specific information about which internal governance body approved the suspension, and provide date of approval.

- Augustana Faculty Council – May 9, 2019
- GFC Academic Planning Committee – June 19, 2019
- GFC Academic Standards Committee – June 20, 2019

1.2 Check the applicable box to specify the longer-term plan.

- [ ] To terminate the program.
- [ ] To reactivate the program.

SECTION 2: ACCESS

2.1 Identify potential student access considerations and risks for Campus Alberta that the suspension of this program could pose (include both (a) information about related programs available to prospective students internally at your institution; and (b) externally at other Alberta institutions).

All students in the program at the time of suspension will be given the option to either complete their existing program, or transition into a new BA-IDS second-level specialization. Advisors in the Augustana Learning, Advising and Beyond (LAB) Office will assist students with course selection and planning. Essential courses will still be on offer.

Augustana will notify each of the students enrolled in the BA in Visual Arts of the cancellation of the program and of the continued commitment to providing them with assistance in completing their degrees. Information will be disseminated via Augustana websites, social media, and other relevant forums about the suspension, as well as the opportunities to access the new multi-disciplinary programs.

2.1.1 If the program or specialization is unique in the province, describe consultation within Campus Alberta to investigate feasibility of program/specialization transfer.
Students in the Bachelor of Arts in Visual Art program would be able to find a few comparable programs at other post-secondary institutions in Alberta, and the majority of the courses in the program have active transfer agreements in the ACAT system.

2.2 Describe the consultation process that occurred with students at your institution regarding this programming change.

Prior to the Faculty Council decisions taken on May 9, 2019, the extensive consultation and discussions occurred at both the Department level and several preceding Faculty Council meetings. All three Augustana Department Councils (Fine Arts and Humanities, Science, and Social Sciences) have voting student representatives who were part of the discussion process.

The Augustana Students’ Association President and four other student representatives are voting members of Augustana Faculty Council and were present for much of the consultation at six Faculty Council meetings during the 2018-2019 year (in October, November, December, February, March and April).

The Augustana Student Association President was also a member of the Ad Hoc Curricular Innovation Coordinating Committee (CICC), with full opportunity to engage, contribute and critique the evolving proposals and processes.

There were a couple of meetings with the entire Augustana Students’ Association Executive, once in the middle of the Winter term with the 2018-2019 Executive Group, and once near the end of the Winter term, with the incoming 2019-2020 Executive, who in both instances updated the entire Augustana Students’ Association Council.

Student input and response was supportive throughout the process and generally understanding of the changes being proposed and the reasoning behind the recommendations.

2.3 Describe your institution’s plans to assist active students, if any remain, in completing graduation requirements during the suspension period, including information about formal communication and student advising plans.

Advisement staff in LAB will be meeting with the members and administrators in the Visual Arts discipline in order to plan for supporting students in the affected programs.

Augustana’s academic departments will aim to meet with affected students to advise them of the suspension and to explain the impacts and options of finishing the current program or exploring the new BA-IDS opportunities. Advisement Staff will be part of those meetings to help ease student concerns and provide planning and course selection information.
Advisement staff and administrators will work with the academic units to find suitable degree exceptions where limitations are faced on courses being offered within the suspended major programs in order to enable students remaining in the suspended program the ability to complete their programs as expeditiously as possible.

2.4 Describe your institution’s plans to accommodate stop-out students, if any have been identified, including information about formal communication plans.

Augustana’s approach has always been to readily accommodate formal student requests in these sorts of situations and there is no anticipation of that changing.

SECTION 3: IMPACT

3.1 Identify which stakeholder groups were consulted:

- Faculty
- Regulatory and other Accreditation Bodies
- Employers and Professional Associations
- Advisory Committee(s)
- Other (identify below)

3.1.1 Describe the consultation process conducted with these stakeholders and summarize the feedback received.

The creation of the Faculty Ad Hoc Curriculum Review Research Committee in 2017 led to a thorough review of the Augustana Curriculum, including faculty consultation sessions and regular updates at monthly Augustana Faculty Council meetings during the 2017-2018 year, culminating in the creation of the Ad Hoc Curricular Innovation Coordinating Committee (CICC) in August 2018 with a mandate to bring recommendations for changes to the currently liberal arts and sciences core and coordinate the development of new multi-disciplinary programs that could be offered within the current BA-IDS program.

CICC subsequently met regularly throughout the 2018-2019 academic year, again bringing regular updates and offering opportunities for consultation/feedback at monthly Faculty Council meetings, as well as holding several drop-in planning and curricular development/feedback sessions for faculty in the Winter 2019 term. Members of CICC also facilitated numerous discussions at the 3 Augustana Department Councils during the 2018-2019 year, and worked closely with the Standing Augustana Curriculum Committee.
Many of the consultation sessions featured vibrant discussions, with initial proposals being regularly modified and shaped by the feedback offered. At the May 9, 2019 Faculty Council, the initial new second-level specializations proposed (3 in total, with more currently in the planning stage) were approved with an average 77% approval rate, and the suspension proposal was passed with an 83% approval rate.

3.2 Identify financial impacts and plans for reallocation of internal resources, particularly staff and classroom and lab space.

One of the primary mandates of the Augustana curricular review was to offer opportunities to optimize enrollment in a revised curriculum to take better advantage of the current faculty and staff complement. As such, the proposed changes will not require additional staff or resources, but rather enable Augustana to more efficiently utilize the staff and space currently available. Over time, these changes should also enable a decreased dependency on contract academic teaching staff.

SECTION B: SUSPENSION EXTENSION

SECTION 1: RATIONALE

1.1 Describe the rationale for original suspension request. (Attach ministry approval letter for the original suspension.)

1.1.1 Explain why the extension is needed and include supporting evidence (e.g., active students have not completed graduation requirements).

1.2 If there are students still in the program, describe how they will be supported to complete graduation requirements while the suspension is in place.

1.3 Explain how the duration of the suspension extension was determined.

Advisement staff in LAB will be meeting with the members and administrators in the Visual Arts discipline in order to plan for supporting students in the affected programs.

Augustana’s academic departments will aim to meet with affected students to advise them of the suspension and to explain the impacts and options of finishing the current program or exploring the new BA-IDS opportunities. Advisement Staff will be part of those meetings to help ease student concerns and provide planning and course selection information.
Advisement staff and administrators will work with the academic units to find suitable degree exceptions where limitations are faced on courses being offered within the suspended major programs in order to enable students remaining in the suspended program the ability to complete their programs as expeditiously as possible.

**2.4 Describe your institution’s plans to accommodate stop-out students, if any have been identified, including information about formal communication plans.**

Augustana’s approach has always been to readily accommodate formal student requests in these sorts of situations and there is no anticipation of that changing.

**SECTION 3: IMPACT**

3.1 Identify which stakeholder groups were consulted:

- Faculty
- Regulatory and other Accreditation Bodies
- Employers and Professional Associations
- Advisory Committee(s)
- Other (identify below)

3.1.1 Describe the consultation process conducted with these stakeholders and summarize the feedback received.

The creation of the Faculty Ad Hoc Curriculum Review Research Committee in 2017 led to a thorough review of the Augustana Curriculum, including faculty consultation sessions and regular updates at monthly Augustana Faculty Council meetings during the 2017-2018 year, culminating in the creation of the Ad Hoc Curricular Innovation Coordinating Committee (CICC) in August 2018 with a mandate to bring recommendations for changes to the currently liberal arts and sciences core and coordinate the development of new multi-disciplinary programs that could be offered within the current BA-IDS program.

CICC subsequently met regularly throughout the 2018-2019 academic year, again bringing regular updates and offering opportunities for consultation/feedback at monthly Faculty Council meetings, as well as holding several drop-in planning and curricular development/feedback sessions for faculty in the Winter 2019 term. Members of CICC also facilitated numerous discussions at the 3 Augustana Department Councils during the 2018-2019 year, and worked closely with the Standing Augustana Curriculum Committee.
Many of the consultation sessions featured vibrant discussions, with initial proposals being regularly modified and shaped by the feedback offered. At the May 9, 2019 Faculty Council, the initial new second-level specializations proposed (3 in total, with more currently in the planning stage) were approved with an average 77% approval rate, and the suspension proposal was passed with an 83% approval rate.

3.2 Identify financial impacts and plans for reallocation of internal resources, particularly staff and classroom and lab space.

One of the primary mandates of the Augustana curricular review was to offer opportunities to optimize enrollment in a revised curriculum to take better advantage of the current faculty and staff complement. As such, the proposed changes will not require additional staff or resources, but rather enable Augustana to more efficiently utilize the staff and space currently available. Over time, these changes should also enable a decreased dependency on contract academic teaching staff.

SECTION B: SUSPENSION EXTENSION

SECTION 1: RATIONALE

1.1 Describe the rationale for original suspension request. (Attach ministry approval letter for the original suspension.)

1.1.1 Explain why the extension is needed and include supporting evidence (e.g., active students have not completed graduation requirements).

1.2 If there are students still in the program, describe how they will be supported to complete graduation requirements while the suspension is in place.

1.3 Explain how the duration of the suspension extension was determined.

SECTION A: PROGRAM SUSPENSION

SECTION 1: RATIONALE

1.1 Identify the purpose for the suspension with supporting rationale and evidence (e.g., low student demand, declining labour market demand, institutional capacity, need for program redevelopment, quality assurance review recommendation, etc.).

In 2017, Augustana Faculty Council committed to an in-depth review of the curriculum of its majors and core in order to address a variety of overlapping issues including the disproportionate number of course offerings with overly large and overly small enrollments, the need for increased engagement of tenure-track staff to meet current curriculum requirements, and a lack of differentiation between programs offered by Augustana Faculty compared to other University of Alberta Faculties.

This challenge was met by initially creating the Augustana Ad Hoc Curriculum Review Research Committee (CRRC) and subsequently, in August 2018, the creation of the Augustana Ad Hoc Curricular Innovation Coordinating Committee (CICC).

In May 2019, CICC presented a report to Augustana Faculty Council which resulted in a number of recommendations, including the creation of several new second-level specializations within the structure of the current Bachelor of Arts in Interdisciplinary Studies major (BA-IDS); the implementation of a new liberal arts and sciences core curriculum with a focus on project-based learning to develop additional skills to compliment the new learning opportunities embedded in new specializations, and the suspension of several first-level specializations (majors) currently offered as part of the Augustana Bachelor of Arts program which require significant resources to maintain for proportionately low student enrollments.
These recommendations were all approved by significant margins at the May Faculty Council meetings.

One of the majors approved for suspension is the Bachelor of Arts in English, currently offered as a first-level specialization. While the program has produced a number of excellent graduates, the English program requires intensive teaching demands over a wide range of time periods and genres, and the continuing enrollments make it difficult to justify the resources dedicated in this area.

One of the newly-adopted second-level specializations offers broad-ranging multidisciplinary learning opportunities in fine arts, languages, and literature, which will enable students interested in English the ability to still pursue and develop the core skills of the current English major, while enhancing these with a greater range of knowledge within a wider fine arts and humanities context.

1.1.1 Document enrolments (by FLE and headcounts) for the most recent 5-year period, including the current academic year if available.

1.1.3 Explain how the proposed end date of the suspension was determined.

The standard five year period was used in formulating the proposal.
1.1.4 Provide specific information about which internal governance body approved the suspension, and provide date of approval.

- Augustana Faculty Council – May 9, 2019
- GFC Academic Planning Committee – June 19, 2019
- GFC Academic Standards Committee – June 20, 2019

1.2 Check the applicable box to specify the longer-term plan.

☐ To terminate the program.

☐ To reactivate the program.

SECTION 2: ACCESS

2.1 Identify potential student access considerations and risks for Campus Alberta that the suspension of this program could pose (include both (a) information about related programs available to prospective students internally at your institution; and (b) externally at other Alberta institutions).

All students in the program at the time of suspension will be given the option to either complete their existing program, or transition into a new BA-IDS second-level specialization. Advisors in the Augustana Learning, Advising and Beyond (LAB) Office will assist students with course selection and planning. Essential courses will still be on offer.

Augustana will notify each of the students enrolled in the BA in English of the cancellation of the program and of the continued commitment to providing them with assistance in completing their degrees. Information will be disseminated via Augustana websites, social media, and other relevant forums about the suspension, as well as the opportunities to access the new multi-disciplinary programs.

2.1.1 If the program or specialization is unique in the province, describe consultation within Campus Alberta to investigate feasibility of program/specialization transfer.

Students in the Bachelor of Arts in English program would be able to find comparable programs at other post-secondary institutions in Alberta, and the majority of the courses in the program have active transfer agreements in the ACAT system.
2.2 Describe the consultation process that occurred with students at your institution regarding this programming change.

Prior to the Faculty Council decisions taken on May 9, 2019, the extensive consultation and discussions occurred at both the Department level and several preceding Faculty Council meetings. All three Augustana Department Councils (Fine Arts and Humanities, Science, and Social Sciences) have voting student representatives who were part of the discussion process.

The Augustana Students’ Association President and four other student representatives are voting members of Augustana Faculty Council and were present for much of the consultation at six Faculty Council meetings during the 2018-2019 year (in October, November, December, February, March and April).

The Augustana Student Association President was also a member of the Ad Hoc Curricular Innovation Coordinating Committee (CICC), with full opportunity to engage, contribute and critique the evolving proposals and processes.

There were a couple of meetings with the entire Augustana Students’ Association Executive, once in the middle of the Winter term with the 2018-2019 Executive Group, and once near the end of the Winter term, with the incoming 2019-2020 Executive, who in both instances updated the entire Augustana Students’ Association Council.

Student input and response was supportive throughout the process and generally understanding of the changes being proposed and the reasoning behind the recommendations.

2.3 Describe your institution’s plans to assist active students, if any remain, in completing graduation requirements during the suspension period, including information about formal communication and student advising plans.

Advisement staff in LAB will be meeting with the members and administrators in the Visual Arts discipline in order to plan for supporting students in the affected programs.

Augustana’s academic departments will aim to meet with affected students to advise them of the suspension and to explain the impacts and options of finishing the current program or exploring the new BA-IDS opportunities. SECTION A: PROGRAM SUSPENSION

SECTION 1: RATIONALE

1.1 Identify the purpose for the suspension with supporting rationale and evidence (e.g., low student demand, declining labour market demand, institutional capacity, need for program redevelopment, quality assurance review recommendation, etc.).

In 2017, Augustana Faculty Council committed to an in-depth review of the curriculum of its majors and core in order to address a variety of overlapping issues including the disproportionate number of course offerings with overly large and overly small enrollments, the need for increased engagement of tenure-track staff to meet current curriculum requirements, and a lack of differentiation between programs offered by Augustana Faculty compared to other University of Alberta Faculties.

This challenge was met by initially creating the Augustana Ad Hoc Curriculum Review Research Committee (CRRC) and subsequently, in August 2018, the creation of the Augustana Ad Hoc Curricular Innovation Coordinating Committee (CICC).

In May 2019, CICC presented a report to Augustana Faculty Council which resulted in a number of recommendations, including the creation of several new second-level specializations within the structure of the current Bachelor of Arts in Interdisciplinary Studies major (BA-IDS); the implementation of a new liberal arts and sciences core curriculum with a focus on project-based learning to develop additional skills to compliment the new learning opportunities embedded in new specializations, and the suspension of several first-level specializations (majors) currently offered as part of the Augustana Bachelor of Arts program which require significant resources to maintain for proportionately low student enrollments.
These recommendations were all approved by significant margins at the May Faculty Council meetings.

One of the majors approved for suspension is the Bachelor of Arts in Modern Languages. Currently, Augustana offers a Bachelor of Arts in Modern Languages as a first-level specialization, with students given the option of completing one of six available second-level specializations by combining the study of two of four available language/language groups – French, German, Scandinavian and Spanish.

While the program has produced a number of excellent graduates, the Modern Languages program requires intensive teaching demands, particularly in upper-level language courses over all four specializations, and the continuing enrollments make it difficult to justify the resources dedicated in this area. One of the newly-adopted second-level specializations offers broad-ranging multi-disciplinary learning opportunities in fine arts, languages, and literature, which will enable students interested in Modern Languages the ability to still pursue and develop the core skills of the current Modern Languages major, while enhancing these with a greater range of knowledge within a wider fine arts and humanities context.

1.2 *Check the applicable box to specify the longer-term plan.*

- ☒ *To terminate the program.*
- ☐ *To reactivate the program.*

**SECTION 2: ACCESS**

2.1 *Identify potential student access considerations and risks for Campus Alberta that the suspension of this program could pose (include both (a) information about related programs available to prospective students internally at your institution; and (b) externally at other Alberta institutions).*

All students in the program at the time of suspension will be given the option to either complete their existing program, or transition into a new BA-IDS second-level specialization. Advisors in the Augustana Learning, Advising and Beyond (LAB) Office will assist students with course selection and planning. Essential courses will still be on offer.

Augustana will notify each of the students enrolled in the BA in Modern Languages of the cancellation of the program and of the continued commitment to providing them with assistance in completing their degrees. Information will be disseminated via Augustana websites, social media, and other relevant forums about the suspension, as well as the opportunities to access the new multi-disciplinary programs.

2.1.1 *If the program or specialization is unique in the province, describe consultation within Campus Alberta to investigate feasibility of program/specialization transfer.*
Students in the Bachelor of Arts in Modern Languages program would be able to find comparable programs offering instruction in similar languages at other post-secondary institutions in Alberta, and the majority of the courses in the program have active transfer agreements in the ACAT system.

2.2 Describe the consultation process that occurred with students at your institution regarding this programming change.

Prior to the Faculty Council decisions taken on May 9, 2019, the extensive consultation and discussions occurred at both the Department level and several preceding Faculty Council meetings. All three Augustana Department Councils (Fine Arts and Humanities, Science, and Social Sciences) have voting student representatives who were part of the discussion process.

The Augustana Students’ Association President and four other student representatives are voting members of Augustana Faculty Council and were present for much of the consultation at six Faculty Council meetings during the 2018-2019 year (in October, November, December, February, March and April).

The Augustana Student Association President was also a member of the Ad Hoc Curricular Innovation Coordinating Committee (CICC), with full opportunity to engage, contribute and critique the evolving proposals and processes.

There were a couple of meetings with the entire Augustana Students’ Association Executive, once in the middle of the Winter term with the 2018-2019 Executive Group, and once near the end of the Winter term, with the incoming 2019-2020 Executive, who in both instances updated the entire Augustana Students’ Association Council.

Student input and response was supportive throughout the process and generally understanding of the changes being proposed and the reasoning behind the recommendations.

2.3 Describe your institution’s plans to assist active students, if any remain, in completing graduation requirements during the suspension period, including information about formal communication and student advising plans.

Advisement staff in LAB will be meeting with the members and administrators in the Visual Arts discipline in order to plan for supporting students in the affected programs.

Augustana’s academic departments will aim to meet with affected students to advise them of the suspension and to explain the impacts and options of finishing the current program or exploring the new BA-IDS opportunities. Advisement Staff will be part of those meetings to help ease student concerns and provide planning and course selection information
Advisement staff and administrators will work with the academic units to find suitable degree exceptions where limitations are faced on courses being offered within the suspended major programs in order to enable students remaining in the suspended program the ability to complete their programs as expeditiously as possible.

2.4 Describe your institution’s plans to accommodate stop-out students, if any have been identified, including information about formal communication plans.

Augustana’s approach has always been to readily accommodate formal student requests in these sorts of situations and there is no anticipation of that changing.

SECTION 3: IMPACT

3.1 Identify which stakeholder groups were consulted:

- Faculty
- Regulatory and other Accreditation Bodies
- Employers and Professional Associations
- Advisory Committee(s)
- Other (identify below)

3.1.1 Describe the consultation process conducted with these stakeholders and summarize the feedback received.

The creation of the Faculty Ad Hoc Curriculum Review Research Committee in 2017 led to a thorough review of the Augustana Curriculum, including faculty consultation sessions and regular updates at monthly Augustana Faculty Council meetings during the 2017-2018 year, culminating in the creation of the Ad Hoc Curricular Innovation Coordinating Committee (CICC) in August 2018 with a mandate to bring recommendations for changes to the currently liberal arts and sciences core and coordinate the development of new multi-disciplinary programs that could be offered within the current BA-IDS program.

CICC subsequently met regularly throughout the 2018-2019 academic year, again bringing regular updates and offering opportunities for consultation/feedback at monthly Faculty Council meetings, as well as holding several drop-in planning and curricular development/feedback sessions for faculty in the Winter 2019 term. Members of CICC also facilitated numerous discussions at the 3 Augustana Department Councils during the 2018-2019 year, and worked closely with the Standing Augustana Curriculum Committee.
Many of the consultation sessions featured vibrant discussions, with initial proposals being regularly modified and shaped by the feedback offered. At the May 9, 2019 Faculty Council, the initial new second-level specializations proposed (3 in total, with more currently in the planning stage) were approved with an average 77% approval rate, and the suspension proposal was passed with an 83% approval rate.

3.2 Identify financial impacts and plans for reallocation of internal resources, particularly staff and classroom and lab space.

One of the primary mandates of the Augustana curricular review was to offer opportunities to optimize enrollment in a revised curriculum to take better advantage of the current faculty and staff complement. As such, the proposed changes will not require additional staff or resources, but rather enable Augustana to more efficiently utilize the staff and space currently available. Over time, these changes should also enable a decreased dependency on contract academic teaching staff.

SECTION B: SUSPENSION EXTENSION

SECTION 1: RATIONALE

1.1 Describe the rationale for original suspension request. (Attach ministry approval letter for the original suspension.)

1.1.1 Explain why the extension is needed and include supporting evidence (e.g., active students have not completed graduation requirements).

1.2 If there are students still in the program, describe how they will be supported to complete graduation requirements while the suspension is in place.

1.3 Explain how the duration of the suspension extension was determined.

OTHER CONSIDERATIONS

Please indicate if there are additional factors you would like the Ministry to consider when reviewing this proposal.

SECTION A: PROGRAM SUSPENSION

SECTION 1: RATIONALE

1.1 Identify the purpose for the suspension with supporting rationale and evidence (e.g., low student demand, declining labour market demand, institutional capacity, need for program redevelopment, quality assurance review recommendation, etc.).

In 2017, Augustana Faculty Council committed to an in-depth review of the curriculum of its majors and core in order to address a variety of overlapping issues including the disproportionate number of course offerings with overly large and overly small enrollments, the need for increased engagement of tenure-track staff to meet current curriculum requirements, and a lack of differentiation between programs offered by Augustana Faculty compared to other University of Alberta Faculties.

This challenge was met by initially creating the Augustana Ad Hoc Curriculum Review Research Committee (CRRC) and subsequently, in August 2018, the creation of the Augustana Ad Hoc Curricular Innovation Coordinating Committee (CICC).

In May 2019, CICC presented a report to Augustana Faculty Council which resulted in a number of recommendations, including the creation of several new second-level specializations within the structure of the current Bachelor of Arts in Interdisciplinary Studies major (BA-IDS); the implementation of a new liberal arts and sciences core curriculum with a focus on project-based learning to develop additional skills to compliment the new learning opportunities embedded in new specializations, and the suspension of several first-level specializations (majors) currently offered as part of the Augustana Bachelor of Arts program which require significant resources to maintain for proportionately low student enrollments.
These recommendations were all approved by significant margins at the May Faculty Council meetings.

One of the majors approved for suspension is the Bachelor of Arts in Music, currently offered as a first-level specialization. While the program has produced a number of excellent graduates, the Music program requires intensive teaching demands, particularly in the Applied Music area, and the continuing enrollments make it difficult to justify the resources dedicated in this area.

One of the newly-adopted second-level specializations offers broad-ranging multi-disciplinary learning opportunities in fine arts, languages, and literature, which will enable students generally interested in Music the ability to still pursue and develop the core skills of the current Music major, while enhancing these with a greater range of knowledge within a wider fine arts and humanities context. Students interested in a thorough Music education at Augustana also continue to have the option of completing a Bachelor of Music degree.

These recommendations were all approved by significant margins at the May Faculty Council meetings.

One of the majors approved for suspension is the Bachelor of Arts in Philosophy and Religion. Currently, Augustana offers a Bachelor of Arts in Philosophy and Religion as a first-level specialization, with students given the option of completing one of two available second-level specializations in either a General, or Philosophy route.

While the program has produced a number of excellent graduates, the Philosophy and Religion program requires intensive teaching demands, particularly in upper-year courses, and the continuing enrollments make it difficult to justify the resources dedicated in this area. One of the newly-adopted second-level specializations offers broad-ranging multi-disciplinary learning opportunities in fine arts, languages, and literature, which will enable students interested in Philosophy and Religion the ability to still pursue and develop the core skills of the current Philosophy and Religion major, while enhancing these with a greater range of knowledge within a wider fine arts and humanities context.

1.1.2 Indicate when admissions into program/specialization will be or were closed.

October 1, 2019

1.1.3 Explain how the proposed end date of the suspension was determined.

The standard five year period was used in formulating the proposal.
1.1.4 Provide specific information about which internal governance body approved the suspension, and provide date of approval.

Augustana Faculty Council – May 9, 2019
GFC Academic Planning Committee – June 19, 2019
GFC Academic Standards Committee – June 20, 2019

1.2 Check the applicable box to specify the longer-term plan.

☐ To terminate the program.

☐ To reactivate the program.

SECTION 2: ACCESS

2.1 Identify potential student access considerations and risks for Campus Alberta that the suspension of this program could pose (include both (a) information about related programs available to prospective students internally at your institution; and (b) externally at other Alberta institutions).

All students in the program at the time of suspension will be given the option to either complete their existing program, or transition into a new BA-IDS second-level specialization. Advisors in the Augustana Learning, Advising and Beyond (LAB) Office will assist students with course selection and planning. Essential courses will still be on offer.

Augustana will notify each of the students enrolled in the BA in Political Studies of the cancellation of the program and of the continued commitment to providing them with assistance in completing their degrees. Information will be disseminated via Augustana websites, social media, and other relevant forums about the suspension, as well as the opportunities to access the new multi-disciplinary programs.

2.1.1 If the program or specialization is unique in the province, describe consultation within Campus Alberta to investigate feasibility of program/specialization transfer.

Students in the Bachelor of Arts in Political Studies program would be able to find comparable programs at other post-secondary institutions in Alberta, and the majority of the courses in the program have active transfer agreements in the ACAT system.
2.2 Describe the consultation process that occurred with students at your institution regarding this programming change.

Prior to the Faculty Council decisions taken on May 9, 2019, the extensive consultation and discussions occurred at both the Department level and several preceding Faculty Council meetings. All three Augustana Department Councils (Fine Arts and Humanities, Science, and Social Sciences) have voting student representatives who were part of the discussion process.

The Augustana Students’ Association President and four other student representatives are voting members of Augustana Faculty Council and were present for much of the consultation at six Faculty Council meetings during the 2018-2019 year (in October, November, December, February, March and April).

The Augustana Student Association President was also a member of the Ad Hoc Curricular Innovation Coordinating Committee (CICC), with full opportunity to engage, contribute and critique the evolving proposals and processes.

There were a couple of meetings with the entire Augustana Students’ Association Executive, once in the middle of the Winter term with the 2018-2019 Executive Group, and once near the end of the Winter term, with the incoming 2019-2020 Executive, who in both instances updated the entire Augustana Students’ Association Council.

Student input and response was supportive throughout the process and generally understanding of the changes being proposed and the reasoning behind the recommendations.

2.3 Describe your institution’s plans to assist active students, if any remain, in completing graduation requirements during the suspension period, including information about formal communication and student advising plans.

Advisement staff in LAB will be meeting with the members and administrators in the Visual Arts discipline in order to plan for supporting students in the affected programs.

Augustana’s academic departments will aim to meet with affected students to advise them of the suspension and to explain the impacts and options of finishing the current program or exploring the new BA-IDS opportunities. Advisement Staff will be part of those meetings to help ease student concerns and provide planning and course selection information.

Advisement staff and administrators will work with the academic units to find suitable degree exceptions where limitations are faced on courses being offered within the suspended major programs in order to enable students remaining in the suspended program the ability to complete their programs as expeditiously as possible.
2.4 Describe your institution’s plans to accommodate stop-out students, if any have been identified, including information about formal communication plans.

Augustana’s approach has always been to readily accommodate formal student requests in these sorts of situations and there is no anticipation of that changing.

SECTION 3: IMPACT

3.1 Identify which stakeholder groups were consulted:

- Faculty
- Regulatory and other Accreditation Bodies
- Employers and Professional Associations
- Advisory Committee(s)
- Other (identify below)

3.1.1 Describe the consultation process conducted with these stakeholders and summarize the feedback received.

The creation of the Faculty Ad Hoc Curriculum Review Research Committee in 2017 led to a thorough review of the Augustana Curriculum, including faculty consultation sessions and regular updates at monthly Augustana Faculty Council meetings during the 2017-2018 year, culminating in the creation of the Ad Hoc Curricular Innovation Coordinating Committee (CICC) in August 2018 with a mandate to bring recommendations for changes to the currently liberal arts and sciences core and coordinate the development of new multi-disciplinary programs that could be offered within the current BA-IDS program.

CICC subsequently met regularly throughout the 2018-2019 academic year, again bringing regular updates and offering opportunities for consultation/feedback at monthly Faculty Council meetings, as well as holding several drop-in planning and curricular development/feedback sessions for faculty in the Winter 2019 term. Members of CICC also facilitated numerous discussions at the 3 Augustana Department Councils during the 2018-2019 year, and worked closely with the Standing Augustana Curriculum Committee.

Many of the consultation sessions featured vibrant discussions, with initial proposals being regularly modified and shaped by the feedback offered. At the May 9, 2019 Faculty Council, the initial new second-level specializations proposed (3 in total, with more currently in the planning stage) were approved with an average 77% approval rate, and the suspension proposal was passed with an 83% approval rate.
3.2 Identify financial impacts and plans for reallocation of internal resources, particularly staff and classroom and lab space.

One of the primary mandates of the Augustana curricular review was to offer opportunities to optimize enrollment in a revised curriculum to take better advantage of the current faculty and staff complement. As such, the proposed changes will not require additional staff or resources, but rather enable Augustana to more efficiently utilize the staff and space currently available. Over time, these changes should also enable a decreased dependency on contract academic teaching staff.

SECTION B: SUSPENSION EXTENSION

SECTION 1: RATIONALE

1.1 Describe the rationale for original suspension request. (Attach ministry approval letter for the original suspension.)

1.1.1 Explain why the extension is needed and include supporting evidence (e.g., active students have not completed graduation requirements).

1.2 If there are students still in the program, describe how they will be supported to complete graduation requirements while the suspension is in place.

1.3 Explain how the duration of the suspension extension was determined.

OTHER CONSIDERATIONS

Please indicate if there are additional factors you would like the Ministry to consider when reviewing this proposal.

- At least ★6 in each of the two chosen languages must be taken in an immersion setting. See additional information for students, below.

Additional information for students

1. A student considering an after-degree program in Education, or graduate studies, should obtain a minimum of ★36 in one language.
2. An online placement test must be taken before registering in AUFRE 201 for the purpose of advising the student of the appropriate level at which they should begin university French studies. Advanced placement is possible for a student with previous experience in the language.
3. A student who has chosen French as an area of study is required to take senior offerings (★6 senior), in an immersion setting such as the Summer Language Bursary Program offered by the Government of Canada or the Perpignan Year Program.

A student who has chosen German as an area of study is required to take senior offerings (★6 senior) in an immersion setting such as the Canadian Summer School in Germany (Kassel) or Waterloo in Germany.

A student who has chosen Scandinavian Studies as an area of study is required to take senior offerings (★6 senior) in an immersion setting such as the Oslo International Summer School, University
of Bergen Summer Program or Scandinavian Studies in Telemark Program.

A student who has chosen Spanish as an area of study is required to take senior offerings (★6 senior) in an immersion setting such as the Augustana-in-Cuba program or the Puebla-Alberta Community Service Exchange program.

4. A French student is strongly encouraged to take AULAT 101 and AULAT 102.

5. Other recommended courses:
   - AULAN 101 - Introduction to Linguistic Analysis
   - AUPSY 373 - Psychology of Language
   - AUSOC 105 - Social Anthropology

6. Some senior courses in French, German, Scandinavian Studies, and Spanish are not offered every year.

**Recommended first-year program**

Bachelor of Arts, Music Major

Overview

The Bachelor of Arts, Music Major is more general and flexible than the BMus degree program, as it is less performance-oriented and a much broader base of academic study. A Music Minor is also available for the student having a major in another discipline. More information on the BMus is available in Bachelor of Music (BMus).

Major in Music [Augustana]

Admission Requirements

See Augustana Faculty. Each student who wishes to be exempt from taking AUMUS 100 must complete the Music Theory Placement Exam (MTPE); a student who scores lower than 70% must register in AUMUS 100. For further information about entrance into the Music program, contact the Department of Fine Arts and Humanities, Augustana Faculty.

Requirements

1. Theoretical and Analytical Studies
   Musicianship Skills: AUMUS 160, AUMUS 162, AUMUS 260, AUMUS 262

2. Music History and Literature, Music in Society: AUMUS 170, AUMUS 224, AUMUS 225, AUMUS 226, and ★1 from AUMUS 322, AUMUS 330, AUMUS 422 or AUMUS 430.

3. Applied Music (instrumental/vocal lessons) and Ensemble courses: ★9 (with at least ★4 in each category).

5. AUMUS 495 and AMUS 496 or ★3 from AUMUS 495 and AMUS 496 or AUMUS 496 or AUMUS 430 (Popular Music).
   Note: This is an overlapping requirement with (2) and (3).

6. The set of courses selected in (2) – (5) above must include at least ★12 credits at the 300- and 400-levels.

8. Successful completion of the Recital
Attendance Requirement (RAR). For every year in a Music program at Augustana, a student must attend a minimum of 10 RAR-designated events per year. Failure to achieve this minimum in a given year will require withdrawal from any Music program (BMus. or BA). A minimum of 40 recitals or concerts is required for graduation unless transferring in from another institution or program.

Additional information for students
1. A student considering graduate studies in Music is encouraged to take elective courses that examine cultural and critical theory.
2. A student considering graduate studies in Music should note that certain graduate programs require a reading knowledge of one or more of French, Italian, and German. In addition, the student should include other courses such as AUMUS 261, AUMUS 263, AUMUS 361, AUMUS 369, and another course from Music History and Literature, Music in Society. To facilitate entry into a graduate program with an academic emphasis, a student should include additional courses from Music and other disciplines, including those which encourage interdisciplinary perspectives. To facilitate entry into a graduate program with a performance emphasis, a student should include third- and fourth-year recitals, ensembles, conducting, and other courses relevant to the area of emphasis.
3. A student considering further studies in Music Education should include AUMUS 231, AUMUS 235, AUMUS 236, and AUMUS 336, as well as further courses in ensembles and/or applied Music.
4. A student should prepare to pass the Keyboard Skills Proficiency Examination (KSPE) in third or fourth year.
5. Senior Music courses are offered in alternate years only.

Bachelor of Science (BSc)

Overview
The Bachelor of Science degree consists of 120 arts and science, including at least 66 science (see Classification of Courses). The 120 in the program are made up of the Foundation, Engagement and Knowledge components of the Augustana Core, a major subject, an optional minor, and options, as follows:

The Augustana Core: Foundation
The Augustana Foundation requirement is met by the completion of one of the following courses:

- AUIDS 101 - Topics in Liberal Studies
- AUIDS 201 - Foundations in Liberal Studies

The Augustana Core: Engagement
Engagement requirements consist of five different categories. A student must complete 12 from at least three of the five categories up to the maximum indicated; courses which satisfy these requirements may overlap with a student's major:

- Creative & Imaginative Process (maximum 6)
- Diversity and Global Studies (maximum 6)
- Environmental Sustainability (maximum 6)
- Experiential Learning (maximum 6)

Introduction to the Proposed new Augustana Faculty Bachelor of Arts Interdisciplinary Studies major Second-Level Specializations (Concentrations)

As part of the Augustana Faculty Ad hoc Curricular Innovation Coordinating Committee (CICC) report presented to Augustana Faculty Council on May 9, 2019, there was a recommendation to approve the creation of three new second-level specializations in the Bachelor of Arts Interdisciplinary Studies major. These ‘concentrations’ came to Faculty Council as the result of a great deal of work by many faculty members over the 2018-2019 academic year, with ‘concentration’ being the term suggested by CICC as a way to envision the new programs.

Shortly after its inception in August 2018, CICC challenged faculty members at Augustana to envision the creation of new integrative and multi-disciplinary programs – ‘concentrations’. In order to assist in the envisioning discussions, CICC provided a set of guidelines that could serve as a general framework for what a new concentration might look like. The framework included the premises that a concentration should consist of:

• 60-69 credit in total within the concentration
• Multidisciplinary (a maximum of 36 credits in any 1 discipline)
• Meaningful distribution requirement (i.e., embed the current 21-credit ‘Knowledge’ component of the Augustana Core - with required credits in each of Fine Arts, Humanities, Social Sciences, and Science – within the concentration, thus simplifying the degree completion process for students)
• Scaffolded approach
• Quantitative reasoning component
• Experiential learning component
• Writing component
• Speaking component
• Critical thinking component
• Research and methods component

At the same time, CICC worked with the Augustana Faculty Curriculum Committee to design a streamlined version of the remaining Augustana Core (the Foundation and Engagement components), with a vision of building a project-based model for student skill development.

The three concentrations approved on May 9 represent the initial consultations and discussions. These are not intended as a culmination of the project, as further revisions and additional concentrations are likely forthcoming, as additional faculty members and disciplines continue to engage in the curricular renewal project.

The concentrations approved on May 9 are:

- Creativity and Culture
- Ethics and Global Studies
- Law, Crime, and Justice

See below for a brief description and outline of requirements for each of the new concentrations.
Creativity and Culture

The University of Alberta’s concentration in Creativity and Culture combines the study of literature, visual art, drama, music, and language.

Who is this concentration for? This is an ideal course of study for students interested in any facet of literature, language and the fine arts, from appreciation to analysis and creation.

What does this concentration offer? This concentration offers students the opportunity to develop skills in critical thinking, research and communication. For students interested in pursuing creative practices, this concentration allows them to develop skills in languages, visual art, drama, music, or creative writing. Our graduates will complete integrated humanities-based undergraduate degrees that will equip them with the analytical skills to reflect critically not simply on the text—broadly understood as any work of cultural production that can be read—but also on the construction of identity and the processes of knowledge production. With regard to success after graduation, Creativity and Culture prepares students to succeed in a range of career paths.

Why pursue this concentration? The focus on analyzing and using words, images, and sound trains students to grapple with the diverse information landscapes of the twenty-first century. This concentration also prepares students to thrive in our changing world by teaching them to think critically and flexibly, design and execute complex projects, and share their ideas clearly and effectively. With these skills, our students will go on to succeed in any number of career paths, whether they aspire to work in the arts, in non-profit or for-profit organizations, or to pursue graduate or professional degrees.

Where is this concentration offered? This concentration is offered at the University of Alberta’s Augustana Campus, located in Camrose. The small-town setting provides students with plenty of opportunities for community service learning, while proximity to Edmonton means that students can easily take advantage of cultural events and institutions in Alberta’s capital. Field trips to Edmonton and travel courses are offered regularly. Recent courses include travel to Italy, Greece, Austria, and Germany.

How does the concentration work? Students complete requirements in four areas: 1. The Core Curriculum; 2. Text and Theory; and 3. Creative Practice and 4. Languages. Those who want to focus on creative practices or languages take additional courses in their field of interest (Visual Art, Drama, Modern Languages, Music or Creative Writing). Students achieve depth by moving from introductory courses in methods (in Step 1) to senior seminars (in Step 4), while also pursuing options that give them flexibility and breadth. While some of the credits must be completed in steps, others can be pursued at any stage of the degree. See the table below for details.

Ethics and Global Studies

Purpose:
Ethics and Global Studies surveys the various human experiences in the modern world and trains students in the skills to make it better. The goal is to develop the student into a well-rounded person, the defining characteristics of which are the capacity for local resilience and global citizenship.

Scaffolding:
- YR 1 introduces students to the constitutive elements of both private and public life through the scholarship on Religion, Philosophy, History, and Politics as well as what it means to be a scholar (IDS 101). They will gain the concepts, approaches, and skills to answer the question, Who am I?
- YR 2-3 allows students to pursue and develop their respective interests on these constitutive elements. During these years, students will hone their research skills and gain cross-cultural experience. Students study both the context and construction of individuals, communities, and nations as well as problematic relationships between them in order to answer the questions, Where am I? and What is wrong with the world?
- YR 4 focuses on integrating the various aspects of modern life they’ve learned through focusing on a specific problem with the world. Through the capstone, and in conjunction with the skills and opportunities provided by the project-based core, students will learn to recognize equitable relations and propose an intervention in some particular area of their study in order to answer the question, How can I make things better?

Objectives:
Upon completion of their degree, students will be able to:
- Identify causal patterns of social and political behavior.
- Describe and compare a variety of religious and political traditions and organizations.
- Articulate the historical, religious, philosophical, and political causes of global conflicts.
- Analyze and communicate their own social context as well as that of people from different traditions or cultures.
- Evaluate ethical issues in both private and public settings.
- Construct alternative measures or approaches to ethical issues in traditions, institutions, or organizations.

Skills and Experiences:
- Cultural literacy developed through cross-cultural experiences (Semester abroad; travel course; or modern language
- Qualitative research method (e.g. AUSOC 236)
- Writing, speaking, and critical thinking are integrated throughout Concentration courses. Additionally, a writing-intensive component is taught to ensure students write at least one 3000-word paper during their education
- Experiential learning will be provided through the Concentration courses that have CSL components (eg. AUHIS 261, 369; AUREL 345, 290; etc)
Degree Plan: Red = Core; Blue = Concentration; Green = options

Year 1
- AUIDS 101 (FYS)
- AUREL 100
- AUPHI 101 or 102
- AUHIS 121
- AUPOL 103
- 3 cr in Ethics and Global Studies Concentration

Law, Crime and Justice Studies

Learning Objectives:
Upon completing their degree, students will be able to:

- Articulate how historical and contemporary social, political and legal contexts have shaped justice and social inequality in Canada.
- Explain the causes and consequences of criminal behavior and socio-political responses to crime.
- Understand and analyze the law and crime, integrating political, historical, sociological and psychological perspectives.
- Design and conduct research using qualitative and quantitative methods.
- Communicate effectively in written and oral formats to a variety of audiences

Scaffolding:
- Year 1 will introduce students to key concepts and approaches (CRI 160 and PSY 103), as well as important skills (IDS 100)
- Years 2 & 3 will see students develop a strong foundation in social sciences methods (both qualitative in SOC 236 and quantitative in PSY 213). Students will also develop their knowledge within their two chosen streams and take required courses in ethics, gender, indigenous studies, and criminology.
- Year 4 focuses on higher-level learning and skill development. Specifically, through the capstone, students will conduct original research that brings together their areas of study.

Core Skills:
- Quantitative reasoning is taught through PSY 213 (statistics).
- Research methods are developed in SOC 236 and PSY 213 and the capstones.
- Writing, speaking and critical thinking are very integrated into this concentration with all courses in the streams engaging in skill development in these areas.
- Experiential learning occurs in various ways, but primarily through AUSOC Fieldwork and AUHIS 467 Collaborative Research Seminar.
