5. **GFC Committee on the Learning Environment (CLE) Subcommittee on Attributes and Competencies Report: Terms of Reference and Membership**

   Materials before members are contained in the official meeting file.

   **Presenters:** Emerson Csorba, Co-Chair, GFC Committee on the Learning Environment (CLE) Subcommittee on Attributes and Competencies; Nima Yousefi Moghaddam, Co-Chair, GFC Committee on the Learning Environment (CLE) Subcommittee on Attributes and Competencies; Steven Dew, Co-Chair, GFC Committee on the Learning Environment (CLE) Subcommittee on Attributes and Competencies (and Member, Teaching, Learning and Technology (TLAT) Council)
Purpose of the Proposal: To update GFC CLE on the GFC CLE Subcommittee on Attributes and Competencies’ progress over the Summer, 2011 and receive members’ feedback on the proposed Terms of Reference and membership for this subcommittee.

Discussion:
Mr Csorba, Vice-President (Academic) of the Students’ Union (SU) and one of the three Co-Chairs of the GFC CLE Subcommittee on Attributes and Competencies, introduced the item to members by providing a brief summary of the Subcommittee’s role and responsibilities and its membership. He reflected on the qualities he believed all University of Alberta students should have, regardless of their programs. He noted that, with the formal establishment of a set of agreed-upon attributes and competencies, the University would be the first Canadian post-secondary institution to provide this to its graduates. He commented that the Subcommittee had a broad membership that was intended to be representative of the wider University community.

Mr Moghaddam, Vice-President (Academic) of the Graduate Students’ Association (GSA) and Co-Chair of the above-noted subcommittee, in turn spoke to the work undertaken by this group over the summer. He noted that the Subcommittee was likely to create two workings groups, each of which would address specific elements that fall under the general aegis of the larger group.

Dr Dew, Member of the Teaching, Learning and Technology (TLAT) Council (and Associate Dean, Faculty of Engineering) and Co-Chair of the Subcommittee, noted his support for the work that had been done to date by this group and indicated that the Subcommittee’s Terms of Reference, as before GFC CLE members on this occasion, were reflective of the direction in which the Subcommittee anticipated moving in the near future.

During the ensuing discussion, the presenters addressed questions and comments from members including, but not limited to, the following: the Subcommittee was exhorted to ensure that, when reflecting on a possible set of attributes and competencies, they not settle for the status quo but, instead, challenge themselves to reach for and aspire to something considerably more, a view which members agreed should be explicitly set out in the Subcommittee’s Terms of Reference; the Subcommittee should reflect, as well, on what it is that makes programs offered by the University of Alberta distinct from those offered at other institutions and build on this accordingly; an evaluative framework should be kept in mind when reviewing the literature associated with this topic, as it was important to ensure that measures were in place to determine if and when established goals were duly achieved; the membership of the Subcommittee could be expanded to include all students serving on GFC CLE; and whether or not co- and/or extra-curricular activities would be considered by the Subcommittee as it carries out its work and whether or not an individual with expertise in these specific areas should be asked to serve on this group.

Mr Csorba thanked members for their comments and suggestions and indicated the final (revised) version of the Subcommittee’s Terms of Reference would come back to GFC CLE at its October, 2011 meeting for approval.

6. Joint Subcommittee on the GFC Committee on the Learning Environment (CLE)/Teaching, Learning and Technology (TLAT) Council Fostering Pedagogy of Technology Report (no documents)

Materials before members are contained in the official meeting file.

Presenter: John Boeglin, Chair, Joint Subcommittee on the GFC Committee on the Learning Environment (CLE)/Teaching, Learning and Technology (TLAT) Council Fostering Pedagogy of Technology
Purpose of the Proposal: To update GFC CLE on the progress to date of the Joint Subcommittee on the GFC CLE/TLAT Council Fostering Pedagogy of Technology.

Discussion:
Dr Boeglin, Chair of the Joint Subcommittee on the GFC CLE/TLAT Council Fostering Pedagogy of Technology, provided detail on the work done to date by this subcommittee. He provided information on meetings held by this group over the summer; referenced the inventory carried out by members on what has been done to date at the University of Alberta on the integration of technology into the teaching environment; outlined what would likely be the specific goals for this group as it continued its work, with clear focus on campus-wide, rather than Faculty-specific, initiatives and recommendations; and described the Subcommittee’s current membership.

6A. GFC Committee on the Learning Environment (CLE) Subcommittee on Universal Student Ratings of Instruction (USRI)

Materials before members are contained in the official meeting file.

Presenter: Colleen Skidmore, Co-Chair, GFC Committee on the Learning Environment (CLE) and Chair, GFC CLE Subcommittee on Universal Student Ratings of Instruction (USRI)

Purpose of the Proposal: To update GFC CLE on the progress to date of the GFC CLE Subcommittee on USRI.

Discussion:
Dr Skidmore presented the USRI Subcommittee’s report. She drew members’ attention to the draft revised policy set out in Section 111.3 (Teaching and Learning and Teaching Evaluation/Universal Student Ratings of Instruction) of the GFC Policy Manual that was distributed at the meeting. She noted these (proposed) revisions represented the work of the Subcommittee over the summer, based upon broad consultation with a number of key stakeholders and with representatives of Academic Information and Communication Technologies (AICT).

Dr Skidmore indicated the Subcommittee would reconvene on September 19, 2011 to review this proposal and, based on the additional consultation, revise it as necessary. The final proposal would then come forward to GFC CLE at its October 5, 2011 meeting for review and formal recommendation. She noted she hoped the final proposal would find final approval at the November 7, 2011 meeting of the GFC Executive Committee.

During the ensuing discussion, the presenter addressed questions and comments from members including, but not limited to, the following: clarification on the nature of and points of access to the printed numerical summaries, as referenced in the proposal; who had access to the numerical summaries and how delegation of authority from one administrator to another (eg, from a Chair to an Associate Chair) with regard to access would occur; and the use of the summaries at meetings of Faculty Evaluation Committees (FECs).
