**ACTION ITEMS**

4. **Report of the GFC Committee on Learning Environment on Teaching and Learning and Teaching Evaluation and the Use of the Universal Student Ratings of Instruction (USRI) as an Evaluation Tool**

   Materials before members are contained in the official meeting file.

   **Presenter(s):** Sarah Forgie

   **Discussion:**
   The Chair provided an overview of the documents and noted that the recommendations would inform the workplan of the committee over the next year. The committee provided comments on a number of sections including the importance of student input, increasing response rates, and tools to evaluate small classes. A member noted that evaluation of research faces many of the same challenges as teaching evaluation. The committee discussed some of the wording in the report and provided some refinements to that wording. There was a discussion on the recommendations which came forward from past reports and were not implemented. The committee reviewed and revised the draft recommendations.

   **Motion:** Miller-Young/Varnhagen

   THAT the GFC Committee on the Learning Environment approve the recommendation and the report on Teaching and Learning and Teaching Evaluation and the Use of the Universal Student Ratings of Instruction (USRI) as an Evaluation Tool, as revised.

**DISCUSSION ITEMS**

5. **Discussion on Learning Outcomes (no documents)**

   **Presenter(s):** Sarah Forgie

   **Purpose of the Proposal:** For information/discussion.

   **Discussion:**
   The Chair indicated that the Provost's Office, in conjunction with the Centre for Teaching and Learning and the Faculty of Graduate Studies and Research has organized a retreat on May 2, 2017, to discuss learning outcomes. Associate Deans, Education, have been invited to participate. She noted that the Alberta Council on Admission and Transfer (ACAT) and the Campus Alberta Quality Council (CAQC) have been invited to speak; the agenda also includes panels on program level outcomes and the assessment of outcomes. Dr Forgie noted that a report will be produced after the retreat.
6. **e-USRI Response Rate Update**

*Presenter(s):* Jeff Rawlings; Adam Giraldeau

*Purpose of the Proposal:* For information/discussion.

*Discussion:* The committee discussed response rates for e-USRIs including the number of days allowed for students to respond and a potential standardization of the process across the university, for example, requiring class time to be given for students to complete the USRI. Mr Rawlings noted that a number of variables influence the response rate including holidays in the midst of the process. Further discussion occurred regarding how to flag poor response rates, the need for multifaceted evaluation, ensuring that FEC is aware of the quality of the data, and education to adequately understand the data produced.

Mr Rawlings noted that the process had been changed so that students received one email with all of their links rather than separate emails; the committee asked if further detail on whether students were selective in which links were followed could be provided.

Mr Rawlings will continue to report on the response rates, and further changes that are implemented with the input of CLE.

7. **Open Educational Resources**

*Presenter(s):* Gerald Beasley

Mr Beasley spoke about the leadership by UBC at the recent Open Education (OE) Week at UBC. He noted the OE repository and resources and how they were used in faculty evaluation processes including promotion and tenure. The committee discussed the value of open educational resources to reduce costs to students and supported including as publications for promotion and tenure purposes in the FEC process.
