3. Comments from the Chair

The Chair provided an update to members on the upcoming Federal Budget adding that there is optimism for an increase in funding to granting councils and possibly for targeted initiatives.

On the upcoming Provincial Budget, the Chair noted that even if there was a 2% increase to the institution’s Campus Alberta grant it would be offset by other factors, such as the carbon levy, increase to minimum wage and benefit costs. Members discussed the importance of an institutional communication and budget strategy to manage this in the future and the Provost confirmed that this is being developed.

The Chair also provided information in relation to new Board of Governors appointees, the search to identify Signature Areas at the academy, and For the Public Good performance measures.

DISCUSSION ITEMS

4. GFC Ad Hoc Committee on Academic Governance Including Delegated Authority - Update

There were no documents.

Presenter(s): Mark Loewen

Purpose of the Proposal: For information/discussion.

Discussion:
Dr Loewen provided an update on the Ad Hoc Committee’s recent activities. He noted that final items are being reviewed to ensure compliance with the established governance principles and that the final recommendations form a cohesive package which will strengthen GFC.

During the discussion, members asked about components of the recommendations, including whether draft Terms of Reference would be ready for the April 21, 2017 GFC meeting and whether members would have enough time to review the final recommendations before the next meeting.

The Chair thanked Dr Loewen for his update and work on this project.

5. Scholarly Writing Supports (SWS) at the University of Alberta Working Group (2016-2017) Final Report and Recommendations to the Provost

Materials before members are contained in the official meeting file.

Presenter(s): Wendy Rodgers; André Costopoulos

Purpose of the Proposal: To discuss the Scholarly Writing Supports (SWS) Working Group Final Report.
Discussion:
Dr Rodgers and Dr Costopoulos provided members with a summary of the SWS Working Group, which had been tasked with undertaking a comprehensive review of the current landscape of scholarly writing support at the institution and to make recommendations towards enhancement, optimization and coordination all parts of writing support.

They noted that there is a general lack of awareness of the broad scope of writing support at the academy currently in place and it is important to coordinate what exists and make it more visible. A digital hub linking students to writing supports has been planned to help connect these services to those who may require it and to make these services more visible to the community.

The recommendations include a reinvigoration of the University Writing Committee and that SWS be coordinated centrally by the Office of the Provost and Vice-President (Academic) to ensure that all institutional supports adhere to established principles.

Following this summary, members emphasized the importance of the University Writing Committee and the role of the Chair of that body. There was support for ensuring that an academic staff member provide oversight to SWS as it supports the academic mission of the University. On the issue of the Centre for Writers, it was noted that the Report is silent on its fate as it is an operational decision.
