General Space Program: A general space program describes the current state of an academic,
research and/or administrative unit’s activities in terms of their space needs, including student, staffing
and support requirements. A space program includes a space budget that outlines how much space
the unit has currently, how much it will require in the near future, and also predicts what amount of
space may be required over a long-term planning period. (as per UAPPOL)

Repurposing: Significant changes to the use of a facility, as determined by the Vice-President
(Facilities and Operations) or delegate.

Examples include replacement of skylights, fire alarm systems, complete replacement of flooring for a department. (as per UAPPOL)
