The following Motion and Document was considered by the GFC Facilities Development Committee at its July 26, 2012 meeting:

**Agenda Title: Gathering Place – Functional Programme and Site Study**

APPROVED MOTION: THAT the GFC Facilities Development Committee approve, under delegated authority from General Faculties Council and on the recommendation of Planning and Project Delivery, the proposed Gathering Place – Functional Programme (as set forth in Attachment 2), excluding specifics related to the siting of this facility, as the basis for further planning.

Final Amended Item: 4
OUTLINE OF ISSUE

Agenda Title: Gathering Place – Functional Programme and Site Study

Motion: THAT the GFC Facilities Development Committee approve, under delegated authority from General Faculties Council and on the recommendation of Planning and Project Delivery, the proposed Gathering Place – Functional Programme (as set forth in Attachment 2), excluding specifics related to the siting of this facility, as the basis for further planning.

of the university, (b) the betterment of existing buildings, (c) the construction of any new buildings the board considers necessary for the purposes of the university [and] (d) the furnishing and equipping of the existing and newly erected buildings [...]”

Section 67(1) of the Act governs the terms under which university land may be leased.

2. GFC Facilities Development Committee (FDC) Terms of Reference – Section 3. Mandate of the Committee: “[...]”

2. Delegation of Authority

Notwithstanding anything to the contrary in the terms of reference above, the Board of Governors and General Faculties Council have delegated to the Facilities Development Committee the following powers and authority:

A. Facilities

1. To approve proposed General Space Programmes (Programs) for academic units.

2. (i) To approve proposals concerning the design and use of all new facilities and the repurposing of existing facilities and to routinely report these decisions for information to the Board of Governors.

(ii) In considering such proposals, GFC FDC may provide advice, upon request, to the Provost and Vice-President (Academic), Vice-President (Facilities and Operations), and/or the University Architect (or their respective delegates) on the siting of such facilities. (GFC SEP 29 2003)

B. Other Matters

The Chair of FDC will bring forward to FDC items where the Office of the Provost and Vice-President (Academic) and/or the Office of the Vice-President (Facilities and Operations), in consultation with other units or officers of the University, is seeking the advice of the Committee.

3. UAPPOL Space Management Policy and Space Management Procedure: The respective roles of GFC FDC and the Vice-President (Facilities and Operations) with regard to institutional space management are set out in this Board-approved Policy and attendant Procedure.

To access this policy suite on line, go to: www.uappol.ualberta.ca.

Planning and Project Delivery (Facilities and Operations)
Gathering Place – Functional Programme and Site Study

Background

It is the intention of the University of Alberta to build a place of hope for Indigenous peoples on our campus. The vision for the Gathering Place is to provide a foundation for education, research and community engagement for Indigenous people of all ages - providing leadership development for a significant generation of Alberta’s youth. From that foundation, the hope they build will transform their futures, and ours.

The Gathering Place will affirm the cultural identity of this important next generation of Indigenous youth, and allow all students, faculty and the wider community to share in the culture and values that distinguish Indigenous society. It will be a symbol of good will, unity and intersection.

Open to the greater University body, the Gathering Place will function as a cross-faculty centre of learning in order to facilitate a higher quality of dialogue between Aboriginal students and staff and all Academic disciplines at the University of Alberta.

The journey of the Gathering Place has been guided and shaped by the efforts and wisdoms generated by members of past committees:
- University of Alberta Aboriginal Advisory Council – 1998
- Aboriginal Strategies Task Force – 2001
- Indigenous Centre Committee – 2002
- The Aboriginal Gathering Place Visioning Process – 2008
- University of Alberta Aboriginal Gathering Place – Visioning and Programming Study (May 2009)

In addition, it has been shaped by direct operational input from the following places:
- Migizii Agamik (Bald Eagle House), University of Manitoba
- First Peoples House of Learning, Trent University
- First Nations House of Learning, University of British Columbia
- First People’s House, University of Victoria
- Shq’apthut (Gathering Place in Hul’q’umi’num), Vancouver Island University

Issues

The purpose of this study is to redefine the scope and planning strategy to respond to the proposed site for the facility in the heart of the north campus, directly north of the Education Building. In this location, the Gathering Place is able to benefit from synergies with amenities and support spaces existing in the North Education Building while providing an opportunity to create the necessary amenities and resources for Aboriginal students.
(Gathering Place – Functional Programme and Site Study)

The Functional Programme and Site Study document focuses on the following aspects:
- Cultural Background / Significance of the Project
- Building Programme
- Site Planning Parameters
- Architectural Design Parameters
- Preliminary Project Budget

Recommendation

The proposed Gathering Place – Functional Programme and Site Study Report be approved as the basis for further planning.

   6.4 Preliminary Budget – RESERVED
INTRODUCTION

The University of Alberta is in the business of hope. Education, research and community engagement are the conduits through which the hope we broker enacts itself in our immediate and global communities. It is our intention to build a place of hope for Indigenous peoples on our campus. This place, the Gathering Place, will provide leadership development for a significant generation of Alberta’s youth. It will also celebrate the important past and future value that Indigenous culture and people contribute to the community. Our vision is for the Gathering Place to provide a foundation for education, research and community engagement for Indigenous people. From that foundation, the hope they build will transform their futures, and ours.

The conceptual design we share today is the distillation of these past discussions/dialogues respecting and honouring the time and effort of everyone who participated in the many discussions and studies. The current conceptual design also factors in these dynamics; the location and budget change; the Gathering Place Update & Holiday Luncheon blessing; and the Gathering Place scouting trip report.

With our combined experience and knowledge relating to the specific barriers facing Indigenous students and the past visioning work of Elders, staff, faculty and community members resounding in our minds we have been able to distill all of this knowledge. Finally, considering all of these factors and through a series of lively discussions with Ben Louie and Group2- Architecture Interior Design Group, we are confident that this design will,

“Become a place of welcome, a place of understanding, a place of cultural connection and a place that creates opportunities for Aboriginals and non-Aboriginal peoples near and far to learn, to grow, and to celebrate together”. Indira Samarasekera, o.c., President and Vice-Chancellor.

Cultural affirmation is a powerful tool in the development of leadership. It provides the self-confidence for people to envision themselves as leaders, and then to define and pursue positive leadership roles for themselves. The Gathering place will affirm the cultural identity of multigeneration Indigenous students, and allow all students, faculty and the wider community to share in the culture and values that distinguish Indigenous society. It will be a symbol of good will, unity and intersection.
The Gathering Place will be a showcase for Indigenous culture. The University of Alberta’s significant Indigenous art and anthropological holdings will find a home, and people can engage in Indigenous art and music. Gathering, sharing of culture and inclusiveness will be central themes. A Great Hall and outdoor gathering space, as well as smaller, informal meeting spaces will be available to the entire campus and wider community to hold important educational, special, celebratory and ceremonial events. Aboriginal student services and administration, student groups, housing and tutoring services will be located in this rich environment.

Through this place, this Gathering Place we will then finally achieve President Samarasekera’s vision to provide:

“Increasing support for programs, resources and support systems that will enable Aboriginal youth to discover their talents, develop their skills and leadership abilities and prepare them for success is one of our University’s main priorities. We aim to be the University of Choice for Indigenous peoples in Canada.” Indira Samarasekera, o.c., President and Vice-Chancellor.

INCORPORATION OF U-SCHOOL:
U-School is a significant time for University of Alberta. The campus welcomes over 800 students from schools with vulnerable populations to come to ‘school’ at the University for a week. We know it is critical for students to begin to think about PSE as early as grades 5, 6 & 7. Hosted by the Chancellor, supported by the Senate and funded by the University, students have the unique opportunity to engage with scholars and staff on campus. Located in the heart of campus, the Gathering Place will host and house these students in their own U-School classroom for use Monday to Friday 15 to 25 weeks of the year.
The purpose of this study is to redefine the scope and planning strategy to respond to the proposed site for the facility in the heart of the south campus directly north of the Education Building. In this location The Gathering Place is able to benefit from synergies with amenities and support spaces existing in the North Education Building while providing an opportunity to create the necessary amenities and resources for Aboriginal students.

The document focuses on the following aspects:

- Cultural Background / Significance of the Project
- Building Programme
- Site Planning Parameters
- Architectural Design Parameters
- Preliminary Project Budget

The journey of The Gathering Place has been guided and shaped by the efforts and knowledge generated by members of past committees;

- University of Alberta Aboriginal Advisory Council -1998
- Aboriginal Strategies Task Force – 2001
- Indigenous Centre Committee – 2002
- The Aboriginal Gathering Place Visioning Process (Visioning Session - April 7, 2008 and Programming Session - September 4, 2008 with key stakeholders from the University of Alberta, the Aboriginal Initiative Working Group, Elders, Faculty, and Student representatives)
- University of Alberta Aboriginal Gathering Place - Visioning and Programming Study (May, 2009)

It has also been shaped by direct operational input of Tracy Bear and Shana Dion who have toured other similar facilities at:

- Migizii Agamik (Bald Eagle House), University of Manitoba, Winnipeg MB
- First Peoples House of Learning, Trent University, Peterborough ON
- First Nations House of Learning, University of British Columbia, Vancouver BC
- First Peoples House, University of Victoria, Victoria BC
- Shq’apthut (Gathering Place in Hul’q’umi’num), Vancouver Island University, Nanaimo BC

This study was presented to the Council of Aboriginal Initiatives by Tracy Bear, Shana Dion and Ben Louie on May 1, 2012 and received helpful comments and favourable support from co-chairs and member of the Council.
1.0 FUNCTIONAL PROGRAMME

1.1 PROGRAMME DESCRIPTIONS

The building programme has been developed around six primary categories of space:

- Cultural
- Common Areas
- Knowledge / Resource Centre
- Administrative
- Building Services
- Outdoor Spaces

The primary focus of the Gathering Place will be around the Cultural functions provided for the Aboriginal students including their communities, the University of Alberta, and the greater Community at large. Other spaces within the Gathering Place provide ancillary functions which support this objective. As well, the Gathering Place will be open to the greater University body, functioning as a cross-faculty centre of learning in order to facilitate a high quality of dialogue between Aboriginal students and staff, and all Academic disciplines at the University of Alberta.
I. CULTURAL SPACE

Traditional ceremonies are vital to Aboriginal culture. While differing in size and scope, ceremonial celebrations can range from the spirit world to social occasions. They can be held to honour the way of life, the past, the future, the human spirit, mother earth, birthdays, etc. and are the primary facet of tribal life for many Aboriginal people.

The concept of ceremony is important when considering specific functions to be housed within the Gathering Place; indeed, this concept lies at the heart of the building. Its purpose is to bring people together in encouragement and understanding through cultural experiences which began to define the programming concept for the Central Gathering Space, focusing on a functional size capable of being utilized for various sized functions and events.

The incorporation of other cultural areas such as Student Gathering, Gallery / Exhibition and Multi-Functional spaces are located adjacent or in proximity to the Central space, allowing for flexibility in the coordination of activities and events of varying size and capacity. This strategy promotes continual daily use of the facility by cross faculty users, rather than creating a single oversized Central Space that is used sporadically throughout the year.
Descriptions of the main building functions are as follows:

I. CULTURAL SPACE

Great Hall – (4,575 sq. ft. / 425 m²) Formerly Central Gathering Space

This ceremonial space will be the central focus of the Gathering Place, capable of holding +/-250 people for a wide variety of events. Events will include but not limited to community gatherings such as feasts, round dances, lectures, plays, social gatherings, and political functions. Currently, there is no intention of using this space as a venue for sports activities, as athletic facilities already exist on campus.

Primary Adjacencies: Kitchen/Great Eastern Door/Elders Meeting room/office space/Coat room
Secondary Adjacencies: Washrooms
Workshop feedback: Acoustics are a critical aspect of this space. It must be designed to account for round dances and drumming. Likewise, natural light is important. The space should open out to the Outdoor Gathering Space during events having large group participation.
Scouting Trip Results: Changes to workshop feedback - U of A Round dances have grown to host 1200 participants. It is not useful to build and use up valuable footage for a space/room that would hold everyone for a yearly event. The Great Hall should have capability to have a sacred fire. The fire should be contained in a specialized fireplace that is sunk into the floor. Flooring will cover the sacred fire when the fireplace is not being utilized, which will enable the entire space to be accessible. The Great Hall will be adjacent to the industrial kitchen for feasts, the Elders office/meeting room and outdoor space. As well as having accessibility through the north entrance, it is imperative there also be Great Doors opening up to the Eastern direction. Bench seating (similar to UVIC’s Ceremonial Hall) should be incorporated. If available (or even invented) the sound system and/or acoustics of the Great Hall should allow everyone inside to hear the quiet prayers of Elders without white noise interference. We were advised to consult with theatre people on this point. The room will also require a built-in projection screen and projector/sound room. Lots of electrical outlets.
**Industrial Kitchen** – 1st floor (538 sq. ft. / 50m²)
The kitchen is designed as a place of support for programming a variety of functions. It is intended to function as both a teaching kitchen and catering for building related functions and events. The teaching kitchen can be used part time as a classroom for Elders and cultural resources to teach life skills and traditional meal preparation to younger generations. The space is not intended as a commercial kitchen to be leased / operated by an independent vendor.

**Primary Adjacencies:**
Great Hall/Coffee Room

**Secondary Adjacencies:**
Elders Meeting room/office space/washrooms

**Workshop feedback:**
An industrial kitchen is one of the most important rooms within a Gathering Space. It was evident in the difference between visited Facilities that had their Great Hall connected directly to their kitchen and facilities that did not. Kitchens that were not connected caused a lot of difficulty in preparing and serving foods. We must include ample preparation areas along with sufficient shelving and storage – these are imperative. An industrial restaurant style dishwasher is crucial. An apartment style washer/dryer will also be required.

**Kitchen Storage** – 1st floor (108 sq. ft. / 10m²)
This will house all associated food storage required for the kitchen. Feastware, cooking utensils, pots etc.

**Primary Adjacencies:**
Loading dock, Kitchen

**Secondary Adjacencies:**
Elder’s office/meeting space

**Workshop feedback:**
We found that storage and shelving were often overlooked and badly needed in the Gathering Spaces kitchens.

**Entrance/Reception** – 1st floor (538 sq.ft. / 50m²)
The entrance/reception area will be used as an entry and crush space for activities taking place in all parts of the building. This area will provide the primary public access point and can also function as an orientation space for the variety of users coming to the Gathering Space daily.

**Primary Adjacencies:**
Great Hall/Washrooms/Kitchen/Knowledge Commons Area

**Secondary Adjacencies:**
Elder’s Office/meeting areas/ 1st floor administrative offices.

**Workshop feedback:**
Informal areas are required within the building where people can break away from larger group(s) and meet. At many larger venues (hotels) this is done in the corridors/lobby area. Having this area designed with spaces for these informal meetings to occur (small break out rooms) would be beneficial. Also imperative is having a friendly face to greet visitors/students/guests and offer assistance.
Scouting Trip Results: The Reception area was often seen as a central hub for many offices and the Great Hall, adding a friendly face to greet and assist visitors. Facilities with the reception near the back of their Gathering Place and away from their Ceremonial Space, encountered various problems with visitors getting lost or ‘hanging out’ in their sacred ceremonial room. This resulted in their ceremonial room being locked and inaccessible to people dropping in.

Coat Room – 1st floor (108 sq.ft / 10m²)
The Coat Room will provide coat storage for large-scale functions and located off the Great Hall.

Primary Adjacencies: Great Hall
Secondary Adjacencies: Kitchen/Elders’ Offices
Workshop feedback: N/A
Scouting Trip Results: Can also be a transition area for women to put on their long skirts for ceremony.

Ceremonial Room – Included within Great Hall
Scouting Trip Results: No longer needed. Most ceremonies will be held in the Great Hall. For smaller, more intimate spaces used for smudging, meditating etc. the Elder’s Meeting rooms or offices shall be used. At the front doors there will be smudge available for people who wish to smudge.

Workshop feedback: The potential for performing smudges in this interior space will need to be addressed in the design. Daylight is important, as well as cardinal directions and the orientation of the space.

Food Service – EXISTING SPACE IN EDUCATION BUILDING
The Food Service operation provided by the Education Building allows for a great variety of healthy options adjacent to the key areas. It’s also close enough to potentially provide service for smaller group meals, luncheons etc. served in some of the new program areas.

Workshop feedback: The size and layout of the Food Service will depend on the final, more detailed resolution regarding how the kitchen/food service aspects of the Gathering Place are operated. (New opportunities are greatly enhanced from what was previously envisioned).

Scouting Trip Results: N/A The various Gathering Places had their own food service availability.
II. COMMON AREAS

These moderately scaled spaces will accommodate functions likely to occur on a day to day basis at the Gathering Place, also providing a variety of activities that could support culturally based events.

Multi-Functional Classrooms (860 sq.ft. / 80m²) – 2nd floor
Each classroom will seat 50 students comfortably and provide a space for the Transition Year students (TYP) for their daily activities and events such as tutoring and visiting lecturers/speakers events. The other classroom will be used for visiting schools from U School or Hope Camp which host elementary students on campus for week long visits. Can also be a space for Aboriginal Student Discovery Day (hosted by the Aboriginal Recruitment Coordinator), visiting lecturers, Aboriginal Education Advisors Conference, Amiqaaq2 breakout session and other seminars, workshops, classes, and presentations. Water sinks will be provided as well.

Primary Adjacencies: 2nd floor administrative offices/TYP Coordinator
Secondary Adjacencies: Rooftop
Workshop feedback: A desire to have a space which could provide state of the art video conferencing for larger groups was expressed.
Scouting Trip Results: Hosting U-School or Hope Camp here on campus is an amazing opportunity for the U of A to show off its Indigenous scholars, students and staff. There has been difficulty in booking accessible, comfortable rooms for these students. While we recognize that Education building has classrooms available, many of the more highly coveted rooms (with windows for example) are often booked far in advance by the central booking offices.

Common Area / Quiet Area – 2nd floor (969 sq.ft. / 90m²)
This area would house a study space for students and also have quiet study cubicles for students who need to focus without distractions. Tutoring seminars would also be held here. Also need to include a water feature. This comes from a teaching we received from an Elder in which water symbolizes women and fire symbolizes men. A balance of both must be present. We have the firedome on the first floor, we thought it would be culturally appropriate to have a water feature in the quiet area for balance and tranquility.

Primary Adjacencies: 2nd floor administrative offices/classrooms
Secondary Adjacencies: TYP program
Workshop feedback: N/A
Scouting Trip Results: Every Gathering Place we visited that did not allocate a quiet study area for their students regretted this decision. Students told us while they liked the common area, it was difficult to study amidst the noise. We were advised that a quiet study area was very important.
Commons Area / Computer Area - 1st floor (1076 sq.ft / 100m2)
This area will hold several distinct functions. Firstly, it will provide a social space for students and visitors; a place where students can meet, relax, and entertain friends when not studying or in class. It will be an informal gathering space for all students to meet and mingle. One of the features of the Knowledge Commons will be an honouring wall to respect the ones who have contributed to the success of Indigenous students within the University. There will be a central focal point featuring a firedome much like the one in SUB.

This space can support approximately 15-20 computers. A printer and photocopier will be available and located at reception.

Primary Adjacencies: Gallery/Exhibition area/Aboriginal Student’s Council Office
Secondary Adjacencies: Connection through to Education North building and other student common areas.
Workshop feedback: The Knowledge/Resource Centre is not intended as a replacement or source of duplication for existing U of A library materials, artifacts, or Art collection. Its function is to enhance the opportunity for students to access and research Indigenous culture.
Scouting Trip Results: All of the Gathering Places we visited had this type of area. It was a constant vibrant hub of activity (with the exclusion of Trent) where students socialized. While there are areas within Education North that are available for students to socialize, we believe it’s imperative to have a distinct (separate but not exclusive) space for Indigenous students to call their own. The adjacent area should be the reception area to assist visitors and students if necessary.

Gallery/Exhibition – 1st floor (538 sq.ft / 50m2)
The Gallery Space, connected to the Knowledge Commons Area will function as a flexible exhibition space to accommodate a wide range of exhibits, displays, artifacts, and presentations over the course of the year. This space will enable Indigenous communities and students to raise the awareness of traditional and modern art and for all visitors to the Gathering Place. The Gallery is not intended as a static exhibition space housing current art and artifacts held in the University of Alberta collections.

Space will also be allocated to create a form of ‘community wall’, an interpretive and inspirational wall that features the history and stories of the previous generations. This installation could be in the form of a digital video wall.

Primary Adjacencies: Knowledge Commons Area/Entrance/Reception
Secondary Adjacencies: 2nd floor administrative offices/Lockers/Washrooms
Workshop feedback: This space should be widely accessible for pedestrian passersby, with the ability to showcase Aboriginal art and crafts to the general campus population.
Scouting Trip Results: Art was regularly integrated all throughout the Gathering Spaces we looked at. There was no singularly specified room for exhibition space. Art was always everywhere.
**Gallery/Exhibition Storage** - 1st floor (100 sq.ft. / 10m²)
This will be a modest storage area required for storing material necessary for setting up a variety of displays throughout the year.

**Primary Adjacencies:** Knowledge Common Area/Gallery/Exhibition area  
**Secondary Adjacencies:** Change rooms/Washrooms  
**Workshop feedback:** N/A  
**Scouting Trip Results:** Lack of storage was one of the biggest challenges that many of the Gathering Places had to overcome.

**III. ADMINISTRATIVE 1st FLOOR – (6 offices)**

**Counselor/Social Worker Office** (120 sq.ft. / 11m²)
This office space houses Aboriginal Student Services Counsellor/Social Worker

**Primary Adjacencies:** 1st floor administrative offices/Great Hall  
**Secondary Adjacencies:** Kitchen/Coffee Room/Washrooms/Reception  
**Workshop feedback:** N/A  
**Scouting Trip Results:** All the Gathering Places we visited had these offices set aside.

**Aboriginal Student Advisor Office** (120 sq.ft. / 11m²)
This office space houses Aboriginal Student Services Advisor.

**Primary Adjacencies:** 1st floor administrative offices/Great Hall  
**Secondary Adjacencies:** Kitchen/Coffee Room/Washrooms/Reception  
**Workshop feedback:** N/A  
**Scouting Trip Results:** All the Gathering Places we visited had these offices set aside.

**Elder Office / Lounge** (215 sq.ft. / 20m²)
This space houses the resident Elder. This area will function in two ways; a quiet resting area for Elders but also could be used as an Elder meeting area.

**Primary Adjacencies:** 1st floor administrative offices/Great Hall  
**Secondary Adjacencies:** Kitchen/Coffee Room/Washrooms/Reception  
**Workshop feedback:** N/A  
**Scouting Trip Results:** All the Gathering Places we visited had offices for their Elders. Elders often travelled from a distance and needed a quiet, private space to rest and meditate. This area was utilized for this purpose.
1.0  FUNCTIONAL PROGRAMME

Faculty or Aboriginal Liaison Office (120 sq.ft. / 11m²)
This temporary office space housed a visiting prof/faculty member/visiting scholars.

Primary Adjacencies: Student Commons Area/Gallery/Offices of ASC/Visiting faculty
Secondary Adjacencies: Washrooms/Reception
Workshop feedback: N/A
Scouting Trip Results: Most Gathering Places found that having a visiting scholar or visiting faculty office enhanced student learning and success. It not only provided an accessible resource for the students, but gave visiting scholars/profs/faculty an opportunity to meet informally with the student body. This also provided unique opportunities for both non-Indigenous and Indigenous students that would not normally frequent the Gathering Place.

Aboriginal Student Association Office (120 sq.ft. / 11m²)
This space will be dedicated to the Aboriginal Student’s Association only.

Primary Adjacencies: Computer lab/Common Area/Gallery
Secondary Adjacencies: Washrooms/Reception
Workshop feedback: N/A
Scouting Trip Results: Every single Gathering Place had a dedicated space for their similar Aboriginal student association.

III. ADMINISTRATIVE - 2nd FLOOR

TYP Coordinator Office (120 sq.ft. / 11m²)
This office space directly adjacent to the TYP area would be for the TYP Coordinator.

Primary Adjacencies: 2nd floor administrative offices/ Classrooms/TYP area
Secondary Adjacencies: Quiet Area
Workshop feedback: N/A

Administrative Assistant Office (120 sq.ft. / 11m²)
This area will be a smaller informal reception area for the Aboriginal Initiatives Office Assistant.

Primary Adjacencies: 2nd floor administrative offices/ Classrooms/TYP area
Secondary Adjacencies: Quiet Area
Workshop feedback: N/A
Director of Aboriginal Student Services Centre Office (ASSC) (120 sq. ft. / 11m²)
This area will provide office space for the Director of ASSC.

Primary Adjacencies: 2nd floor administrative offices/ Classrooms/TYP area
Secondary Adjacencies: Quiet Area
Workshop feedback: N/A

Special Advisor to the Provost (or similar position) Office - (120 sq. ft. / 11m²)
This area will provide office space for the Special Advisor to the Provost (or a similar position).

Primary Adjacencies: 2nd floor administrative offices/ Classrooms/TYP area
Secondary Adjacencies: Quiet Area
Workshop feedback: N/A
Scouting Trip Results: The Special Advisor to the Provost or a similar position worked in tandem with the Director of ASSC (or other similarly named position) and held an office within the Gathering Place.

Transition Year Program Room 2nd floor (860 sq. ft / 80m²)
This area will provide a space for the Transition Year Program and house a small computer lab, coffee area and lockers. Directly adjacent to the TYP area would be an office for the TYP Coordinator.

Primary Adjacencies: 2nd floor administrative offices/ Classrooms
Secondary Adjacencies: Quiet Area
Workshop feedback: N/A

V. BUILDING SERVICES

The building services are typical for support of a facility of this size and function. More detailed design of building systems will enable the consultant team to further develop these components. These will include a mechanical room, electrical room, server room, washrooms, change rooms, caretaker room, and an internal loading dock.
VI. PROGRAMMED OUTDOOR SPACES

Throughout workshop discussions, the importance of access to outside spaces was strongly reinforced. The intent of the exterior spaces is to function as an extension of the indoor spaces as events of varying scale occur in the Gathering Place, as well as providing areas for activities that have been traditionally held outside. These exterior components of the Gathering Place are integral to the success of the Programme as they enable the Gathering Place to more accurately reflect the spiritual nature of Indigenous culture, and the connection to the land.

**Elders’ Rooftop Garden** - (650 sq. ft. / 60m²)
This space will provide an area for contemplation, rest, quiet discussion, mentoring, etc. for the Elders and visiting guests in residence. The intention will be to provide private outdoor space for Elders, students and/or visiting guests can retreat from the ongoing activities of the campus and Gathering Place.

*Primary Adjacencies:* Rooftop/courtyard  
*Workshop feedback:* N/A

**Rooftop Courtyard** - (1884 sq. ft. / 175m²)
This area will provide a place where smaller outdoor gatherings/eating can occur. The area will allow for moderate sized groups to gather for meals, socials, and an opportunity to connect to the outdoors.

*Primary Adjacencies:* Elders Rooftop Garden  
*Scouting Trip Results:* There were several Gathering Spaces that incorporated an outdoor area designed for smaller outdoor ceremonies, teachings and gatherings.
SUMMARY OF LESSONS LEARNED

• Offices of the TYP Coordinator, Director and Special Advisor should be larger than 100 sq. ft. to accommodate a more intimate setting - (2-3 person) meetings in their office.
• Non gendered specific bathrooms.
• The ability to perform pipe ceremonies and smudging ceremonies.
• Special areas should be designated to support private conversations.
• Teachings were always incorporated into the building.
• Security and safety for the students in this highly accessible building and student access to the Aboriginal Student Association office needs to be considered.

Of interest would be to have a “Living Cultures Room’ dedicated to serve artists for small carving projects, craft activities, storage of ceremonial materials.
1.2 Programme Area

The original proposed programme requirements were derived from a series of workshops with primary stakeholders and user groups in 2008. This included Aboriginal students, student group representatives, faculty members, Elders, community partners, University representatives, members of the Aboriginal Initiative Working Group, and the design team. The revised programme requirements were based on the original document but also incorporate the operational input of Tracy Bear and Shana Dion from their tour of similar facilities and reflect the numerous existing amenities contained in the Education Building which will be physically connected to this Facility.

The process of determining requirements involves understanding who the end-users will be, the activities, scheduling and frequency of use, and the projected growth in demand. Groups were asked to objectively identify their needs, rather than how large a space they might desire. Functional relationships, spatial adjacencies, and flexibility of spaces were discussed with stakeholders to ensure a programme is developed that accommodate the stakeholders’ goals. The proposed functional programme describes a common vision for the Gathering Place that embodies a holistic, functional, and cohesive whole.

The following chart evaluates the net program areas of the Functional Programme. The Building Gross Factor that is used is 35% of the net area. This factor makes area allowances for internal corridors, wall thicknesses, stairs, structure, services spaces, washrooms etc. In addition to the Building Gross Factor, an allowance of 10% of the net area is given for Building Programme Contingencies. This factor allows for the addition of any programme elements that may arise further into the design process. These program elements may be a result of a continuation of research and dialogue between the consultant team and user groups as the project moves forward, such as operational support, administration offices, and cultural spaces. Therefore, the combined total building gross up, when considering a complete building, is be estimated at 45%.

4.0 FUNCTIONAL PLANS

4.1 SITE PLAN

The location for The Gathering Place across from the Dentistry Pharmacy Building is unique on campus. The proposed redevelopment of the Dentistry Pharmacy Building intends to create a significant hub of student and administrative services in the center of the North Campus. The creation of The Gathering Place on this site builds upon this hub and further strengthens this area.

The careful placement of The Gathering Place on the site has allowed for the continuation of landscape and outdoor public circulation on both the North, West and East sides of the building. This enhances pedestrian movement in the immediate area and provides a key relationship between the ceremonial space in the Great Hall and the exterior on the East side of the Building. This is critical as entrance to major ceremonies is from the East relating to the position of the rising sun.

The conceptual floor plans have been developed to test key operational adjacencies and to examine the linkages between The Gathering Place and the North Education Building. This exercise has provided an enhanced understanding of key relationships within the building and between the building and the greater site. It has also been instrumental in the development of some preliminary concept images of the project that convey the scale and spatial qualities of The Gathering Place.

SECOND FLOOR
4.2 PROGRAMME RELATIONSHIPS

The following diagrams illustrate how the programmatic components relate to one another as well as identify spatial connections and adjacencies discussed in the workshops have been further developed by the client group and the design team. The diagrams show the relative sizes and potential configuration of spaces but do not represent a building floor plan. The diagrams are a temporal plate for preliminary architectural design which will be executed in more detail during the Schematic Design phase.

As a result of the past visioning sessions, the tours of similar facilities, and the overall understanding and knowledge that were gained through the initial design process created guiding principles that lead to the overall organization of the Gathering Place.

The diagram to the left completed by Shana Dion, Director of Aboriginal Student Services, represents her vision that was a direct result of understanding and knowledge that was gained from her own personal experiences, research, and tour of similar facilities. These concepts are intended to give direction to the design and help create guiding principles that will inform the process at all stages of development.

A further developed design for the project will be established through the schematic design phase. Through this process the design will be analyzed and various component parts of the program will be reconfigured. This will allow specific components to be positioned in the plan in ways that minimize disruption to other unaffected zones and which maximize the opportunities presented by the existing building. There will be a number of practical issues that will be addressed and further considered for example, the rooftop exhaust from the Kitchen.

  Shq’apthut – meaning Gathering Place in Hul’q’umi’num’
I. Cultural Space

- Great Hall
- Industrial Kitchen
- Coffee Room
- Kitchen Storage
- Entrance Reception
- Coatroom
Great Hall

- Designed with cultural traditions in mind.
- Seating capacity of 300 +/
- Benches as well as floor seating
- Firepit/firedome to be integrated into the floor, so when not in use can be covered up.
- Must make a statement about the traditional peoples of this land.
Industrial Kitchen

UBC – Kitchen
Entrance/Reception
Both Trent University and University of Manitoba had Gathering Places that are two story buildings. We learned that having a second floor – while a necessity – can also disconnect staff from each other and from students. Trent University the staff had an unfortunate disconnect with the students. This inviting staircase could be a possible design to bridge this gap.
