3. Report from the President

Materials before members are contained in the official meeting file.

Presenter(s): David Turpin

Discussion:
The Chair welcomed special guests Chancellor Douglas R Stollery and Board of Governors Chair Michael Phair to the meeting.

Following brief remarks from Mr Stollery and Mr Phair, the Chair reported on the Provincial Budget, which included a 2% increase to the Campus Alberta grant. He noted that, although this is good news given the
current economic climate, it will result in institutional cuts due to other factors. He acknowledged the inclusion of funding to retrofit the iconic Dentistry/Pharmacy building, and student mental health. The Chair reported that the Federal Budget could contain investments towards innovation but no exact details were known.

The Chair reported further on: recent travel to Mexico to explore educational partnerships, the addition of new members of the Board of Governors, and the appointment of the next dean of Education, Dr Jennifer Tupper.

Finally, the Chair offered congratulations to student members of GFC on the recent Students’ Union (SU) and Graduate Students’ Association (GSA) elections.

5. **Learning Outcomes**

   There were no documents.

   **Presenter(s):** Sarah Forgie; Tammy Hopper

   **Purpose of the Proposal:** To engage GFC in a preliminary discussion surrounding learning outcomes prior to an institutional retreat scheduled for May 2017.

   **Discussion:**
   
   The Chair reported that although the topic of learning outcomes is not a new, it has become increasingly relevant as governments review ways to tie funding to institutional outcomes. He invited members to discuss this issue at an early stage, ahead of the establishment of an academy-wide approach to learning outcomes.
Deputy Provost Wendy Rodgers noted that the Campus Alberta Quality Council (CAQC) requests learning outcomes as part of their reviews and that professional programs are already accustomed to identifying and utilizing learning outcomes. Vice-Provost (Learning Initiatives) Sarah Forgie explained that a meeting to discuss program-level outcomes has been scheduled for May.

During the discussion, members discussed the definition of program-level outcomes, specifically how learning outcomes differ from competencies, and several deans shared their experiences around learning outcomes at this university as well as at other institutions. A member indicated that it would be better for the university to establish learning outcomes rather than having them imposed by government. On the issue of which indicators would be used, grades versus assessments, Dr Forgie noted that this issue is still being determined, as different studies offer differing conclusions about which indicators are best. A member enquired about whether these measures could be used to improve employability for graduates of the university.

Members discussed how establishing learning outcomes might differ from program to program, and it was emphasized that a comprehensive review of this topic was still necessary before determining an institutional approach.

The Chair thanked members for their comments.

**DISCUSSION ITEMS**

6. **GFC ad hoc Committee on Academic Governance including Delegated Authority - Update**

There were no documents.

*Presenter(s):* Mark Loewen

*Purpose of the Proposal:* To provide an update to GFC on the activities of the GFC ad hoc Committee on Academic Governance including Delegated Authority.

*Discussion:*

Dr Loewen provided an update on the ad hoc committee’s recent activities. He noted that final items are being reviewed to ensure alignment with the established governance principles and that the final recommendations form a cohesive package which will come forward to GFC in April 2017.

A member asked how transparency around governance has been improved and University Secretary Marion Haggarty-France noted that several new measures were initiated during the Academic Governance Working Group review last year including an opt-in email list for the distribution of all standing committee meeting materials, archival of all meeting material (including discussion items and information reports), the inclusion of regular reports from GFC standing committees on every GFC agenda, and an improved website.

The Chair thanked Dr Loewen for the update.

7. **SLOWPOKE Decommissioning - Update**

There were no documents.

*Presenter(s):* Andrew Sharman

*Purpose of the Proposal:* To inform GFC of the plans to decommission SLOWPOKE.

*Discussion:*
Vice-President (Facilities and Operations) reported that a response to a formal application requesting to decommission SLOWPOKE should be received by July and that there will be some activity around the Dentistry/Pharmacy building in the interim.

There was no further discussion.

Materials before members are contained in the official meeting file.

Presenter(s): Wendy Rodgers; André Costopoulos

Purpose of the Proposal: To discuss the Scholarly Writing Supports (SWS) Working Group Final Report.

Discussion:
Deputy Provost Wendy Rodgers, and Vice-Provost and Dean of Students André Costopoulos, provided members with a summary of the SWS Working Group’s review of the current landscape of scholarly writing support at the institution and recommendations towards enhancement, optimization and coordination all parts of writing support.

Dr Rodgers reported that there is a general lack of awareness of the broad scope of writing support at the university and it is important to coordinate what exists and make it more visible. A digital hub linking students to writing supports is being developed to help connect these services to those who may require it.

Dr Costopolous reported that the recommendations include a reinvigoration of the University Writing Committee and the central coordination of scholarly writing supports by the Office of the Provost and Vice-President (Academic) to ensure that all supports adhere to established principles.

During the discussion, a member thanked the presenters for the report and indicated optimism at the clearer role of the University Writing Committee.

ACTION ITEMS

9. Proposal for the Termination of the Bachelor of Science Agriculture - Range and Pasture Management Major, Faculty of Agricultural, Life and Environmental Sciences (ALES)

Materials before members are contained in the official meeting file.

Presenter(s): Stanford Blade; Scott Jeffrey

Purpose of the Proposal: Approval of the (proposed) Termination of the BSc Agriculture - Range and Pasture Management Major in the Faculty of ALES.

Discussion:
Dean Blade reported that admissions to this major were suspended for Fall 2012 and that no current students will be impacted as the last Range and Pasture Management student graduated in 2015.

Dr Jeffrey noted that students interested in this area can enroll in the BSc Environmental and Conservation Sciences - Wildlife and Rangeland Management major, which is an excellent alternative for students interested in rangeland management.
There was no further discussion.

*Presenter(s):* André Costopoulos; Wayne Patterson

*Purpose of the Proposal:* To recommend approval of the Sexual Violence Policy and Procedure and related information documents.

*Discussion:* Vice-Provost and Dean of Students André Costopoulos noted that this policy provides an institutional statement that sexual violence will not be tolerated, survivors will receive support, and that due process will be maintained at the University of Alberta. He also noted that a critical component of the proposal is a focus on education and training in this area.

During the discussion, Dean Costopoulos indicated that the definitions within the policy and procedures underwent extensive consultation and revisions during their development, and ultimately represent enforceable definitions also reflective of institutional values.

The Chair thanked Dr Costopoulos and Mr Patterson for their work on this policy.
