Annual Report of Residence Discipline Statistics
2014/2015

Submitted to the Campus Law Review Committee, August 28, 2015

In accordance with the Campus Law Review Committee Terms of Reference the following Residence Discipline Report summarizes the period of August 2014 to May 2015.

Residence Services has been utilizing Restorative Justice for four years, and each year has shown marked improvement in both the utilization of Restorative Justice in our communities, as well as the quality of the restorative solutions. The majority of our student staff do not see Restorative Justice as "new"; instead they understand it to be simply the way discipline is handled in Residence, as our communities typically have a memory of about 3 or 4 years.

As we’ve used Restorative Justice more, we’ve recognized a need to modify our workflows and utilization of our Housing Management System to fully capture our restorative practices in our data. Unfortunately, there currently isn’t a Housing Management Judicial system that caters towards the needs of a Restorative Justice program, so it has taken some time to adjust our system to meet our needs. Some of those changes are seen in this year’s data.

In previous years, we presented data on incident types — for example, biohazards, theft, etc. The challenge with this method is that it required each incident to be coded as a single type. Often incidents are more complex than that, and can have many factors. For example, an incident that is primarily a Biohazard may also be a case of underage drinking, and if the student in question was belligerent, it would also be a case of abuse of staff. This year, we stopped tracking based on incident type and instead tracked on two criteria: Violations, and Sanctions.

Violations are entered based on the behaviour of the students in an incident that harm others. For instance, a violation might be Biohazard, or Alcohol Misuse, or Promoting Mass Consumption.

Sanctions are the results of those violations. In many cases, a single restorative sanction can address the harms of several violations (for example, an apology to an entire community may be sufficient to address multiple harms caused).

In 2014/2015, we had 851 unique incidents, which resulted in 1117 violations. Those violations were resolved using only 569 sanctions, of which 87% were Restorative solutions (Community Resolutions, Apology Letters, Behavioural Agreements, or Restorative Agreements).

Once again, Lister Centre accounted for the majority of our conduct with 66% of our total incidents originating in Kelsey, Mackenzie, Henday, or Schäffer Hall. In terms of incidents involving alcohol, 23% of these incidents were primarily related to alcohol (Mass Consumption, Misuse, Open Alcohol, etc.). High Risk alcohol is still an issue, but this year we saw a notable
improvement over the number of alcohol incidents (a reduction of approximately 30% over 2013/2014).

Additionally, this year we kept accurate data on the numbers of students at risk we were managing. Throughout the year, we had approximately 70 students at risk incidents (56 unique students).

Sanctions Issued:
