

Changes to Hazardous Waste Pickup Schedule

The hazardous waste pickup schedule is changing, effective January 2020. Revisions to the schedule are necessary to accommodate EHS staffing changes and to introduce a more efficient waste management process overall.

What's changing?

Starting January 2020:

- Laboratories must submit Chematix waste pickup sheets **by 3:00 p.m. on Thursdays** to guarantee pickup within the next two weeks. For example, submit sheet by Thursday, January 9 to ensure pickup by Friday, January 24. With this new schedule, the guaranteed window for waste pickup changes from ten days to fifteen days.
- Regular pickup changes to **Mondays and Wednesdays, 8:30 a.m. to 2:00 p.m.**
- Friday mornings pickups may occur at the discretion of EHS.
- Pickup from the Medical Science Complex changes to Monday. Buildings affected: Medical Sciences, Li Ka Shing, Katz, HMRC, and Zeidler-Ledcor.
- Pickup from UHC changes to Monday.
- Pickup from Chemistry changes to Wednesday.

Below is the proposed pickup schedule for 2020:

Monday	Tuesday	Wednesday	Thursday	Friday
Ag/For	No pickups	Chemistry	No pickups	Augustana**
UHC		CCIS		CSJ**
ECERF*		CME		TEC Edmonton**
NREF*		CME		
BioSci*		ESB*		
Medical Buildings				

*Alternate Week pickups

**Pickups at EHS discretion based on customer needs.
